§ 169.1 What is the purpose of this part?

This subpart prescribes the requirements for mandatory ship reporting systems. Ship reporting systems are used to provide, gather, or exchange information through radio reports. The information is used to provide data for many purposes including, but not limited to: navigation safety, maritime security and domain awareness, environmental protection, vessel traffic services, search and rescue, weather forecasting and prevention of marine pollution.

Note to §169.1: For ship reporting system requirements not established by the Coast Guard, see 50 CFR Part 404.

§ 169.5 How are terms used in this part defined?

As used in this part—

Administration means the Government of the State whose flag the ship is entitled to fly.

Cargo ship means any ship which is not a passenger ship.

Flag Administration means the Government of a State whose flag the ship is entitled to fly.

Gross tonnage means tonnage as defined under the International Convention on Tonnage Measurement of Ships, 1969 (Incorporated by reference, see §169.15).

Gross tons means vessel tonnage measured in accordance with the method utilized by the flag state administration of that vessel.

High speed craft means a craft that is operable on or above the water and is capable of a maximum speed equal to or exceeding \( V=3.7 \times \text{displ}^{0.67} \), where \( V \) is the maximum speed and \( \text{displ} \) is the vessel displacement corresponding to the design waterline in cubic meters.

High speed passenger craft means a high speed craft carrying more than 12 passengers.

International voyage means a voyage from a country to which the present International Convention for the Safety of Life at Sea (SOLAS), 1974 applies to a port outside such country, or conversely. For U.S. ships, such voyages will be considered to originate at a port in the United States, regardless of when the voyage actually began. Such voyages for U.S. ships will continue until the ship returns to the United States from its last foreign port.

Long range identification and tracking (LRIT) information or position report means a report containing the following information:

(1) The identity of the ship;
(2) The position of the ship (latitude and longitude); and
(3) The date and time of the position provided.

LRIT Data Center means a center established by a SOLAS Contracting Government or a group of Contracting Governments, or in the case of the International Data Center, by IMO, to request, receive, process, and archive...
§ 169.15 Incorporation by reference: Where can I get a copy of the publications mentioned in this part?

(a) Certain material is incorporated by reference into this part with the approval of the Director of the Federal Register under 5 U.S.C. 552(a) and 1 CFR part 51. To enforce any edition other than that specified in this section, the Coast Guard must publish notice of change in the Federal Register and the material must be available to the public. All approved material is available for inspection at the National Archives and Records Administration (NARA). For information on the availability of this material at NARA, call 202–741–6030 or go to http://www.archives.gov/federal_register/code_of_federal_regulations/ibr_locations.html. Also, it is available for inspection at the Coast Guard, Office of Navigation Systems (CG–5532), 2100 2nd St. SW., Stop 7580, Washington, DC 20593–7580, and is available from the sources indicated in this section.

(b) International Electrotechnical Commission (IEC) Bureau Central de la Commission Electrotechnique Internationale, 3 rue de Varembe, P.O. Box 131, 1211 Geneva 20, Switzerland.
