§ 175.115 Exceptions.
The following persons need not comply with §175.110; however, each must carry on board visual distress signals suitable for night use, selected from the list in §175.130 or §175.135, in the number required, between sunset and sunrise:
(a) A person competing in any organized marine parade, regatta, race, or similar event;
(b) A person using a manually propelled boat; or
(c) A person using a sailboat of completely open construction, not equipped with propulsion machinery, under 26’ in length.

§ 175.120 Stowage.
No person may use a boat unless the visual distress signals required by §175.110 are readily accessible.

§ 175.125 Serviceability.
No person may use a boat unless each signal required by §175.110 is in serviceable condition and the service life of the signal, if indicated by a date marked on the signal, has not expired.

§ 175.128 Marking.
No person may use a boat unless each signal required by §175.110 is legibly marked with the approval number or certification statement as specified in 46 CFR Parts 160 and 161.

§ 175.130 Visual distress signals accepted.
(a) Any of the following signals, when carried in the number required, can be used to meet the requirements of §175.110:
(1) An electric distress light meeting the standards of 46 CFR 160.072. One is required to meet the night only requirement.
(2) An orange flag meeting the standards of 46 CFR 160.072. One is required to meet the day only requirement.
(3) Pyrotechnics meeting the standards noted in Table 175.130.
(b) Any combination of signal devices selected from the types noted in paragraphs (a) (1), (2) and (3) of this section, when carried in the number required, may be used to meet both day and night requirements. Examples—the combination of two hand held red flares (160.021), and one parachute red flare (160.024 or 160.036) meets both day and night requirements. Three hand held orange smoke (160.037) with one electric distress light (161.013) meet both day and night requirements.

1 These signals require use in combination with a suitable launching device approved under 46 CFR 160.028.
2 These devices may be either meteor or parachute assisted types. Some of these signals may require use in combination with a suitable launching device approved under 46 CFR 160.028.
3 Must have manufacture date of 1 Oct. 1980 or later.

§ 175.135 Existing equipment.
Launchers manufactured before 1 January, 1981, which do not have approval numbers are acceptable for use with meteor or parachute signals listed in Table 175.130 under §175.130 as long as
