Appendix A to Part 209—Public Law 90–483, 90th Congress, S. 3710, August 13, 1968

An act authorizing the construction, repair, and preservation of certain public works on rivers and harbors for navigation, flood control, and for other purposes. (82 Stat. 731).

* * * * *

Sec. 215. (a) The Secretary of the Army, acting through the Chief of Engineers, may, when he determines it to be in the public interest, enter into agreement providing for reimbursement to States or political subdivisions thereof for work to be performed by such non-Federal public bodies at water resources development projects authorized for construction under the Secretary of the Army and the supervision of the Chief of Engineers. Such agreements may provide for reimbursement of installation costs incurred by such entities or an equivalent reduction in the contributions they would otherwise be required to make, or in appropriate cases, for a combination thereof. The amount of Federal reimbursement, including reductions in contributions, for a single project shall not exceed $1,000,000.

(b) Agreements entered into pursuant to this section shall (1) fully describe the work to be accomplished by the non-Federal public body, and be accompanied by an engineering plan if necessary therefor; (2) specify the manner in which such work shall be carried out; (3) provide for necessary review of design and plans, and inspection of the work by the Chief of Engineers or his designee; (4) state the basis on which the amount of reimbursement shall be determined; (5) state that such reimbursement shall be dependent upon the appropriation of funds applicable thereto or funds available therefor, and shall not take precedence over other pending projects of higher priority for improvements; and (6) specify that reimbursement or credit for non-Federal installation expenditures shall apply only to work undertaken after project authorization and execution of the agreement, and does not apply retroactively to past non-Federal work. Each such agreement shall expire three years after the date on which it is executed if the work to be undertaken by the non-Federal public body has not commenced before the expiration of that period. The time allowed for completion of the work will be determined by the Secretary of the Army, acting through the Chief of Engineers, and stated in the agreement.

(c) No reimbursement shall be made, and no expenditure shall be credited, pursuant to this section, unless and until the Chief of Engineers or his designee, has certified that the work for which reimbursement or credit is

Pt. 209, App. A

(7) State fully the basis on which reimbursement or credit shall be determined, and provide for the final adjustment when the balance of the Federal project is constructed. If the improvement proposed by the non-Federal entity includes work that will not become a part of the Federal project, the means of determining the part eligible for reimbursement shall be fully defined.

(8) State that such reimbursement shall depend upon appropriation of funds applicable to the project and shall not take precedence over other pending projects of higher priority.

(9) Specify that reimbursement or credit for non-Federal work shall apply only to that work undertaken after execution of the agreement. The term “work” shall include advance engineering and design as well as actual construction.

(10) State that the agreement is not to be construed as committing the United States to reimbursement if the Federal project is not undertaken, or if the Federal project should be modified in such a way that the work performed by the non-Federal entity does not constitute a part thereof.

(11) Contain applicable equal employment clauses from Armed Services Procurement Regulations.

(g) Nature and amount of reimbursement. (1) The non-Federal entity may be reimbursed by a payment of cash, or, preferably, by reductions in any non-Federal contribution to the Federal project that may have been required by the legislation authorizing it, or by a combination of cash and such reductions.

(2) The amount of reimbursement shall equal the approved expenditures made by the non-Federal entity for work that would have been accomplished at Federal expense if the entire project were carried out by the Corps of Engineers, and as covered in the agreement under paragraphs (f)(7) and (10) of this section. The amount of reimbursement will not exceed, however, the amount that the District Engineer finds to be a reasonable estimate of the reduction in Federal expenditure resulting from construction by the non-Federal entity.

164
requested has been performed in accordance with the agreement.

(d) Reimbursement for work commenced by non-Federal public bodies no later than one year after enactment of this section, to carry out or assist in carrying out projects for beach erosion control, may be made in accordance with the provisions of section 2 of the Act of August 13, 1946, as amended (33 U.S.C. 426f). Reimbursement for such work may, as an alternative, be made in accordance with the provisions of this section, provided that agreement required herein shall have been executed prior to commencement of the work. Expenditures for projects for beach erosion control commenced by non-Federal public bodies subsequent to one year after enactment of this section may be reimbursed by the Secretary of the Army, acting through the Chief of Engineers, only in accordance with the provisions of this section.

(e) This section shall not be construed (1) as authorizing the United States to assume any responsibilities placed upon a non-Federal body by the conditions of project authorization, or (2) as committing the United States to reimburse non-Federal interests if the Federal project is not undertaken or is modified so as to make the work performed by the non-Federal Public body no longer applicable.

(f) The Secretary of the Army is authorized to allot from any appropriations hereafter made for civil works not to exceed $10,000,000 for any one fiscal year to carry out the provisions of this section. This limitation does not include specific project authorizations providing for reimbursement.

PART 210—PROCUREMENT ACTIVITIES OF THE CORPS OF ENGINEERS

Sec.

210.1 Advance notice to prospective bidders.
210.2 Notice of award.
210.3 Notice to proceed.
210.4 Rules of the Corps of Engineers Board of Contract Appeals for cases not subject to the Contract Disputes Act of 1978.
210.5 Rules of the Corps of Engineers Board of Contract Appeals for cases subject to the Contract Disputes Act of 1978.

§ 210.1 Advance notice to prospective bidders.

In connection with all construction contracts estimated to cost $100,000 or more for which an invitation is scheduled to be issued, an advance notice to prospective bidders will be prepared sufficiently in advance of the actual issuance of the invitation to stimulate interest on the part of the greatest possible number of contractors. Advance notices may also be prepared on projects estimated to cost less than $100,000 and for supplies where considered desirable. ENG Form 3132-R or ENG Form 3133-R [set out in paragraphs 205 and 206, Appendix A, Engineer Contract Instructions (ER 1180-1-1)] will be used to send advance notices to prospective bidders. Lengthy notices may be reproduced and mailed using ENG Form 3133-R as a foldover wrapper fastened with a wire staple. Advance notices will contain the information required by ENG Form 3132-R, but additional information may be added as appropriate. The advance notices will:

(a) Describe the proposed work in sufficient detail to permit prospective general contractors, subcontractors and suppliers to determine reasonably whether the work is of a nature and volume to warrant their buying plans;

(b) Specify the date by which bidders should return the request card in order to receive a complete bid set;

(c) State the various locations (offices) where plans will be on public display, available for inspection without charge; and

(d) Include for construction contracts a statement as to the approximate value of the proposed construction. That statement of value shall be in increments as follows: (1) Less than $25,000; (2) the nearest multiple of $25,000 up to $100,000; (3) the nearest multiple of $100,000 from $100,000 to $1 million; (4) the nearest multiple of $500,000 for from $1 million to $10 million; (5) over $10 million for all projects of greater estimated value.

Information on several projects for which invitations are scheduled to be issued may be grouped in one advance notice provided that information on any project or projects is not unduly delayed in order to be grouped with others. When an advance notice is used to circularize bidders, copies of the invitation, when issued, will be furnished only to those prospective bidders who
