§ 385.39 Goals Agreement, to determine if the interim goals should be revised. Thereafter, the Secretary of the Army, the Secretary of the Interior, and the Governor shall revise the interim goals and execute a new agreement as appropriate. However, the Secretary of the Army, the Secretary of the Interior, and the Governor may review and revise the interim goals whenever appropriate as new information becomes available. Any revisions to the interim goals shall be consistent with the process established in this section.

§ 385.39 Evaluating progress towards other water-related needs of the region provided for in the Plan.

(a) Purpose. (1) The overarching objective of the Plan is the restoration, preservation, and protection of the South Florida ecosystem while providing for other water-related needs of the region, including water supply and flood protection. Progress towards providing for these other water-related needs shall also be evaluated.

(2) As provided for in paragraph (c) of this section, the Secretary of the Army and the Governor shall establish interim targets for evaluating progress towards other water-related needs of the region provided for in the Plan throughout the implementation process. The interim targets and interim goals shall be consistent with each other.

(3) The Department of the Army shall include these interim targets in appropriate Corps of Engineers guidance.

(4) To ensure flexibility in implementing the Plan over the next several decades, and to ensure that interim targets may reflect changed circumstances or new information resulting from adaptive management, the interim targets may be modified, consistent with the processes set forth in paragraph (c) of this section, to reflect new information resulting from changed or unforeseen circumstances, new scientific and technical information, new or updated modeling; information developed through the assessment principles contained in the Plan; and future authorized changes to the Plan integrated into the implementation of the Plan.

(5) The Corps of Engineers and the South Florida Water Management District shall sequence and schedule projects as appropriate to achieve the interim goals and interim targets for other water-related needs of the region provided for in the Plan, to the extent practical given funding, technical, or other constraints.

(6) If the interim targets have not been met or are unlikely to be met, then the Corps of Engineers and the South Florida Water Management District shall determine why the interim targets have not been met or are unlikely to be met and either:

(i) Initiate adaptive management actions pursuant to §385.31(d) to achieve the interim targets as soon as practicable, consistent with the purposes of the Plan and consistent with the interim goals established pursuant to §385.38; or

(ii) Recommend changes to the interim targets in accordance with paragraph (a)(4) of this section.

(b) Principles for developing interim targets. (1) RECOVER, using best available science and information, shall recommend a set of interim targets for evaluating progress towards other water-related needs of the region provided for in the Plan. These interim targets shall reflect the incremental accomplishment of the expected performance level of the Plan, and will identify improvements in quantity, quality, timing and distribution of water in five-year increments that begin in 2005, with the targets reflecting the results expected to be achieved by 2010 and for each five-year increment thereafter. The interim targets shall be developed through the use of appropriate models and tools and shall provide a quantitative basis for evaluating progress towards other water-related needs of the region provided for in the Plan. These interim targets shall reflect the incremental accomplishment of the expected performance level of the Plan, and will identify improvements in quantity, quality, timing and distribution of water in five-year increments that begin in 2005, with the targets reflecting the results expected to be achieved by 2010 and for each five-year increment thereafter. The interim targets shall be developed through the use of appropriate models and tools and shall provide a quantitative basis for evaluating progress towards other water-related needs of the region provided for in the Plan during the period of implementation. In developing the interim targets for the five-year increments, RECOVER shall use the Master Implementation Sequencing Plan as the basis for predicting the performance at a given time. RECOVER may recommend additional interim targets for implementation of CERP in addition to
§ 385.40 Reports to Congress.

(a) Beginning on October 1, 2005 and periodically thereafter until October 1, 2036, the Secretary of the Army and the Secretary of the Interior shall jointly submit to Congress a report on the implementation of the Plan as required by section 601(1) of WRDA 2000. Such reports shall be completed not less often than every five years.

(b) This report shall be prepared in consultation with the Environmental Protection Agency, the Department of Commerce, the Seminole Tribe of Florida, the Miccosukee Tribe of Indians of Florida, the Florida Department of Environmental Protection, the South Florida Water Management District, and other Federal, State, and local agencies and the South Florida Ecosystem Restoration Task Force.
