§ 222.22

(7) In making determinations cited in this section, the authorized officer shall consult with the U.S. Fish and Wildlife Service, wildlife agencies in the State, individuals and organizations independent of Federal or State Government recommended by the National Academy of Sciences, and any other individual or organizations determined to have scientific expertise or special knowledge of wild horse and burro protection, wildlife management and animal husbandry as related to range management.

§ 222.22 Ownership claims.

(a) Any person claiming ownership under State branding and estray laws of branded or unbranded horses or burros within a wild horse or burro territory or range on the National Forest System where such animals are not authorized must present evidence of ownership to justify a roundup before permission will be granted to gather such animals. Claims of ownership with supporting evidence were required to be filed during a claiming period which expired November 15, 1973. Unauthorized privately owned horses or burros entering the National Forest System after November 15, 1973, which become intermingled with wild horses or burros, may be claimed by filing an application with the District Ranger. All authorizations to gather claimed animals shall be in writing in accordance with instructions as the Chief, Forest Service, may prescribe. After such public notice as an authorized officer deems appropriate to inform interested parties, gathering operations may be authorized. The authorization shall provide that the gathering or roundup be consistent with regulations, and will (1) establish a specific reasonable period of time to allow the gathering of claimed animals and (2) stipulate other conditions, including visual observation by Forest Service personnel deemed necessary to ensure humane treatment of associated wild free-roaming horses and burros and to protect other resources involved.

(b) Prior to removal of claimed animals which have been captured from the National Forest System, claimants shall substantiate their claim of ownership in accordance with whatever criteria are cooperatively agreed to between the Forest Service and the State agency administering the State estray laws. In the absence of an agreement, ownership claims shall be substantiated in accordance with State law and subject to approval of the Forest Service.

§ 222.23 Removal of other horses and burros.

Horses and burros not within the definition in §222.20(b)(13) which are introduced onto Wild Horse and Burro Territories or ranges after December 15, 1971, by accident, negligence, or willful disregard of private ownership, and which do not become intermingled with wild free-roaming horses or burros shall be considered as unauthorized livestock and treated in accordance with provisions in 36 CFR 261.7 and 262.10.

[61 FR 35959, July 9, 1996]

§ 222.24 Use of helicopters, fixed-wing aircraft and motor vehicles.

The Chief, Forest Service, is authorized to use helicopters, fixed-wing aircraft, and motor vehicles in a manner that will ensure humane treatment of wild free-roaming horses and burros as provided by the following paragraphs:

(a) Prior to using helicopters in capture operations and/or using motor vehicles for the purpose of transporting captured animals, a public meeting will be held in the proximity of the territory where the capture operation is proposed.

(b) Helicopters may be used in all phases of the administration of the Act including, but not limited to, inventory, observation, surveillance, and capture operations. In capture operations, helicopters may be used to locate the animals involved to assist ground crews in moving the animals and for related purposes, such as, to transport personnel and equipment. The condition of the animals shall be continuously observed by the authorized officer and, should signs of harmful stress be noted, the source of stress shall be removed so as to allow recovery. Helicopters may be used in roundups or other capture operations subject to the following procedures.
