§ 1222.30 When must agencies comply with the recordkeeping requirements of other agencies?

Agencies must comply with recordkeeping requirements that are imposed government-wide by another agency with jurisdiction over the program or activity being conducted, e.g., requirements for records concerning hazardous waste. Affected agencies must include these requirements in appropriate directives or other official issuances prescribing the agency's organization, functions, or activities.

§ 1222.32 How do agencies manage records created or received by contractors?

(a) Agency officials responsible for administering contracts must safeguard records created, processed, or in the possession of a contractor or a non-Federal entity by taking the following steps:

(1) Agencies must ensure that contractors performing Federal government agency functions create and maintain records that document these activities. Agencies must specify in the contract Government ownership and the delivery to the Government of all records necessary for the adequate and proper documentation of contractor-operated agency activities and programs in accordance with requirements of the Federal Acquisition Regulation (FAR) (Office of Federal Procurement Policy Act of 1974 (Pub. L. 93–400), as amended by Pub. L. 96–83 41 U.S.C.), and, where applicable, the Defense Federal Acquisition Regulation Supplement (DFARS) (48 CFR parts 200–299).

(2) Records management oversight of contract records is necessary to ensure that all recordkeeping needs are met. All records created for Government use and delivered to, or under the legal control of, the Government must be managed in accordance with Federal law. In addition, electronic records and background electronic data specified for delivery to the contracting agency must be accompanied by sufficient technical documentation to permit understanding and use of the records and data.

(3) Contracts that require the creation of data for the Government's use must specify, in addition to the final product, delivery of background supporting data or other records that may have reuse value to the Government. To determine what background supporting data or other records that contractors must deliver, program and contracting officials must consult with agency records and information managers and historians and, when appropriate, with other Government agencies to ensure that all Government needs are met, especially when the data deliverables support a new agency mission or a new Government program.

(4) Deferred ordering and delivery-of-data clauses and rights-in-data clauses must be included in contracts whenever necessary to ensure adequate and proper documentation or because the data have reuse value to the Government.

(b) All data created for Government use and delivered to, or falling under the legal control of, the Government are Federal records subject to the provisions of 44 U.S.C. chapters 21, 29, 31, and 33, the Freedom of Information Act (FOIA) (5 U.S.C. 552), as amended, and the Privacy Act of 1974 (5 U.S.C. 552a), as amended, and must be managed and scheduled for disposition only as provided in Subchapter B.

(c) Agencies must ensure that appropriate authority for retention of classified materials has been granted to contractors or non-Government entities participating in the National Industrial Security Program (NISP), established under Executive order 12829, as amended, or a successor Order.

§ 1222.34 How must agencies maintain records?

Agencies must implement a records maintenance program so that complete records are filed or otherwise identified and preserved, records can be readily found when needed, and permanent and temporary records are physically segregated from each other or, for electronic records, segregable. Agency records maintenance programs must:
National Archives and Records Administration § 1223.2

(a) Institute procedures for organizing and storing records;
(b) Maintain electronic, audiovisual and cartographic, and microform records in accordance with 36 CFR parts 1236, 1237, and 1238 of this subchapter, respectively;
(c) Assign responsibilities for maintenance of records in all formats within each agency component, including designation of the officials that are responsible for maintenance and disposition of electronic records and management of automated systems used for recordkeeping;
(d) Institute reference and retrieval procedures and controls that:
(1) Facilitate the finding, charging out, and refiling of records, including safeguards against loss during transit; and
(2) Ensure that access to electronic records minimizes the risk of unauthorized additions, deletions, or alterations;
(e) Issue appropriate instructions to all agency employees on handling and protecting records;
(f) Maintain records and nonrecord materials separately, in accordance with §1222.16;
(g) Maintain personal files separately from records in accordance with §1222.20; and
(h) Comply with 36 CFR parts 1232 and 1234 of this subchapter when storing records in a records facility.

PART 1223—MANAGING VITAL RECORDS

§ 1223.2 What definitions apply to this part?

(a) See §1220.18 of this subchapter for definitions of terms used throughout Subchapter B, including part 1223.

(b) As used in part 1223—
Cycle means the periodic removal of obsolete copies of vital records and their replacement with copies of current vital records. This may occur daily, weekly, quarterly, annually or at other designated intervals.

Disaster means an unexpected occurrence inflicting widespread destruction and distress and having long-term adverse effects on agency operations. Each agency defines what a long-term adverse effect is in relation to its most critical program activities.

Emergency means a situation or an occurrence of a serious nature, developing suddenly and unexpectedly, and demanding immediate action. This is
