§ 35.4150 What happens after my group submits its application to EPA?

(a) EPA will review your application and send you a letter containing written comments telling you what changes need to be made to the application to make it complete.

(b) Your group has 90 days from the date on the EPA letter to make the changes to your application and resubmit it to EPA.

(c) Once the 90-day period ends, EPA will begin the process to select a TAG recipient, or, in the case of a single applicant, if EPA does not receive a complete application (meaning, an application that does not have the changes provided in the letter described in paragraph (b) of this section), then EPA will readvertise the fact that a TAG is available and the award process will begin again.

§ 35.4155 How does EPA decide whether to award a TAG to our group?

Once EPA determines your group meets the eligibility requirements in § 35.4020 the Agency considers whether and how successfully your group meets these criteria, each of which are of equal weight:

(a) Representation of groups and individuals affected by the site;

(b) Your group’s plans to use the services of a technical advisor throughout the Superfund response action; and

(c) Your group’s ability and plan to inform others in the community of the information provided by the technical advisor.

§ 35.4160 What does EPA do if more than one group applies for a TAG at the same site?

When multiple groups apply, EPA will rank each applicant relative to other applicants using the criteria in § 35.4155.

§ 35.4161 Does the TAG application process affect the schedule for work at my site?

No, the schedule for response activities at your site is not affected by the TAG process.

§ 35.4165 When does EPA award a TAG?

(a) EPA may award TAGs throughout the Superfund process, including during operation and maintenance, but we will not award a TAG before the start of your site’s response action if the site is proposed for listing on the NPL.

(b) Based on the availability of funds, EPA may delay awards of grants to qualified applicants.

§ 35.4170 What kinds of reporting does EPA require?

There are several types of reports you need to complete at various points during the life of your group’s grant; the number varies based on whether you receive an advance payment:

<table>
<thead>
<tr>
<th>Type of report</th>
<th>Required information</th>
<th>Timing and frequency</th>
</tr>
</thead>
<tbody>
<tr>
<td>(a) Federal Cash Transactions Report.</td>
<td>The amount of funds advanced to you or electronically transferred to your bank account and how you spent those funds.</td>
<td>Semiannually within 15 working days following the end of the semiannual period which ends June 30 and December 31 of each year.</td>
</tr>
<tr>
<td>(b) [Reserved].</td>
<td></td>
<td></td>
</tr>
<tr>
<td>(c) Progress Report ..........</td>
<td>Full description in chart or narrative format of the progress your group made in relation to your approved schedule, budget and the TAG project milestones, including an explanation of special problems your group encountered.</td>
<td>Quarterly, within 45 days after the end of each calendar quarter.</td>
</tr>
<tr>
<td>Type of report</td>
<td>Required information</td>
<td>Timing and frequency</td>
</tr>
<tr>
<td>-----------------------------</td>
<td>---------------------------------------------------------------------------------------</td>
<td>-----------------------------------------------------------</td>
</tr>
<tr>
<td>(d) Financial Status Report</td>
<td>Status of project’s funds through identification of project transactions and within 90 days after the end of your TAG’s funding period.</td>
<td>Annually, within 90 days after the anniversary date of the start of your TAG project.</td>
</tr>
<tr>
<td>(e) Final Report</td>
<td>Description of project goals and objectives, activities undertaken to achieve goals and objectives, difficulties encountered, technical advisors’ work products and funds spent.</td>
<td>Within 90 days after the end of your project.</td>
</tr>
</tbody>
</table>

§35.4175 What other reporting and record keeping requirements are there?

In addition to the report requirements §35.4170 describes, EPA requires your group to:

(a) Comply with any reporting requirements in the terms and conditions of the “grant agreement”;

(b) Keep complete financial records accurately showing how you used the Federal funds and the match, whether it is in the form of cash or in-kind assistance; and

(c) Comply with any reporting and record keeping requirements in OMB Circular A–122 and 40 CFR part 30.

§35.4180 Must my group keep financial records after we finish our TAG?

(a) You must keep TAG financial records for ten years from the date of the final Financial Status Report, or until any audit, litigation, cost recovery, and/or disputes initiated before the end of the ten-year retention period are settled, whichever is longer.

(b) At the ten-year mark, you may dispose of your TAG financial records if you first get written approval from EPA.

(c) If you prefer, you may submit the financial records to EPA for safekeeping when you give us the final Financial Status Report.

§35.4185 What does my group do with reports our technical advisor prepares for us?

You must send to EPA a copy of each final written product your advisor prepares for you as part of your TAG. We will send them to the local Superfund site information repository(ies) where all site-related documents are available to the public.

§35.4190 How does my group identify a qualified technical advisor?

(a) Your group must select a technical advisor who possesses the following credentials:

1. Demonstrated knowledge of hazardous or toxic waste issues, relocation issues, redevelopment issues or public health issues as those issues relate to hazardous substance/toxic waste issues, as appropriate;

2. Academic training in a relevant discipline (for example, biochemistry, toxicology, public health, environmental sciences, engineering, environmental law and planning); and

3. Ability to translate technical information into terms your community can understand.

(b) Your technical advisor for public health issues must have received his or her public health or related training at accredited schools of medicine, public health or accredited academic institutions of other allied disciplines (for example, toxicology).
