§ 52.1602

Effect as an EPA approved revision to the implementation plan. In addition, this same procedure shall apply to any State permit applied for that would authorize a relaxation in the sulfur-in-coal limitation at any such facility, as defined above in this paragraph, having already been granted a permit to convert to coal.

(c) The U.S. Gypsum Co. in Clark, New Jersey is permitted to burn fuel oil with a sulfur content of 2.0 percent, by weight, at either Boiler #1, #2 or #3 until March 31, 1985 or until Boiler #4 is ready to burn coal, whichever occurs first. Such oil burning must conform with New Jersey requirements and conditions as set forth in applicable regulations and administrative orders.

§ 52.1602 Control strategy and regulations: PM$_{2.5}$

(a) Approval—On May 18, 2006, New Jersey submitted an early PM$_{2.5}$ implementation plan to set motor vehicle emissions budgets for the New Jersey portion of the New York-Northern New Jersey-Long Island, NY-NJ-CT, PM$_{2.5}$ nonattainment area. The budgets were allocated by metropolitan planning organization as follows: North Jersey Transportation Planning Authority: 1,207 tons per year of direct PM$_{2.5}$ and 61,676 tons per year of NOX; Delaware Valley Regional Planning Commission: 89 tons per year of direct PM$_{2.5}$ and 4,328 tons per year of NOX.

(b) Approval—On February 25, 2008, New Jersey submitted a revision to its early PM$_{2.5}$ implementation plan to revise the motor vehicle emissions budgets for the Mercer County, New Jersey portion of the New York-Northern New Jersey-Long Island, NY-NJ-CT, PM$_{2.5}$ nonattainment area. The revised budgets, applicable to the Delaware Valley Regional Planning Commission, are as follows: 108 tons per year of direct PM$_{2.5}$ and 5,056 tons per year of NOX.

(c) Determination of Attainment. EPA has determined, as of May 16, 2012, that the Philadelphia-Wilmington, PA-NJ-DE fine particle (PM$_{2.5}$) nonattainment area has attained the 1997 PM$_{2.5}$ National Ambient Air Quality Standard. This determination, in accordance with 40 CFR § 51.1004(c), suspends the requirements for this area to submit an attainment demonstration, associated reasonably available control measures, a reasonable further progress plan, contingency measures, and other planning SIPs related to attainment of the standard for as long as the area continues to attain the 1997 PM$_{2.5}$ NAAQS.

§ 52.1603 Significant deterioration of air quality.

(a) The requirements of sections 160 through 165 of the Clean Air Act are not met, since the plan does not include approvable procedures for preventing the significant deterioration of air quality.

(b) Regulations for preventing significant deterioration of air quality. The provisions of §52.21 except paragraph (a)(1) are hereby incorporated and made a part of the applicable State plan for the State of New Jersey.

§ 52.1604 Control strategy and regulations: Total suspended particulates.

(a) Any variance issued by the Department under N.J.A.C. Title 7, Chapter 27, section 6.5, subsections (a), (b), or (c) shall not exempt any person from the requirements otherwise imposed by N.J.A.C. 7:27–6.1 et seq.; Provided that the Administrator may approve such variance as a plan revision when the provisions of this part, section...
