Environmental Protection Agency

§ 52.2591 Publication of an approval by the Administrator of a revision to the Wisconsin State Implementation Plan as meeting the requirements of CAIR for PM$_2.5$ relating to SO$_2$ under § 51.124 of this chapter, except to the extent the Administrator's approval is partial or conditional or unless such approval is under § 51.124(t) of this chapter.

(b) Notwithstanding any provisions of paragraph (a) of this section and subparts AAA through III of part 97 of this chapter and any State's SIP to the contrary:

(1) With regard to any control period that begins after December 31, 2011, the provisions of paragraph (a) of this section relating to SO$_2$ emissions shall not be applicable; and

(ii) The Administrator will not carry out any of the functions set forth for the Administrator in subparts AAA through III of part 97 of this chapter; and

(2) The Administrator will not deduct for excess emissions any CAIR SO$_2$ allowances allocated for 2012 or any year thereafter.

(c)(1) The owner and operator of each source and each unit located in the State of Wisconsin and Indian country within the borders of the State and for which requirements are set forth under the TR SO$_2$ Group 1 Trading Program in subpart CCCCC of part 97 of this chapter must comply with such requirements. The obligation to comply with such requirements with regard to sources and units in the State will be eliminated by the promulgation of an approval by the Administrator of a revision to Wisconsin’s State Implementation Plan (SIP) as correcting in part CCCCC of part 97 of this chapter. The obligation to comply with such requirements with regard to sources and units in Indian country within the borders of the State will not be eliminated by the promulgation of an approval by the Administrator of a revision to Wisconsin’s SIP.

(2) Notwithstanding the provisions of paragraph (c)(1) of this section, if, at the time of the approval of Wisconsin’s SIP revision described in paragraph (c)(1) of this section, the Administrator has already started recording any allocations of TR SO$_2$ Group 1 allowances under subpart CCCCC of part 97 of this chapter to units in the State for a control period in any year, the provisions of subpart CCCCC of part 97 of this chapter authorizing the Administrator to complete the allocation and recordation of TR SO$_2$ Group 1 allowances to units in the State for each such control period shall continue to apply, unless provided otherwise by such approval of the State’s SIP revision.

§ 52.2589 Wisconsin construction permit permanency revision.

This plan was originally submitted as Wis. Stat. 144.396 by Wisconsin on July 12, 1979 and approved into Wisconsin’s SIP on June 25, 1986 (51 FR 23056). Wis. Stat. 144.396 was renumbered Wis. Stat. 285.66 in 1995 Wisconsin Act 227, effective January 1, 1997. On December 8, 2005, Wisconsin submitted for EPA approval into the Wisconsin SIP a revision to Wis. Stats. 285.66(l), as amended in 2005 Wisconsin Act 25, effective July 26, 2005. This revision makes all conditions in Wisconsin’s construction permits permanent. EPA has determined that this statutory revision is approvable under the Act.

§ 52.2590 Operating permits.

For any permitting program located in the State, insofar as the permitting threshold provisions in Chapter NR 407 of the Wisconsin Administrative Code concern the treatment of sources of greenhouse gas emissions as major sources for purposes of title V operating permits, EPA approves such provisions only to the extent they require permits for such sources where the source emits or has the potential to emit at least 100,000 tpy CO$_2$ equivalent emissions, as well as 100 tpy on a mass basis, as of July 1, 2011.

§ 52.2591 Section 110(a)(2) infrastructure requirements.

(a) Approval. In a December 12, 2007 submittal, supplemented on January 24, 2011 and March 28, 2011, Wisconsin
