§ 3400.4

Federal/state government cooperation.

(a) In order to implement the requirements of law for Federal-state cooperation in the management of Federal lands, a Department–state regional coal team shall be established for each coal production region defined pursuant to §3400.5. The team shall consist of a Bureau of Land Management field representative for each state in the region, who will be the Bureau of Land Management State Director, or, in his absence, his designated representative; the Governor of each state included in the region or, in his absence, his designated representative; and a representative appointed by and responsible to the Director of the Bureau of Land Management. The Director’s representative shall be chairperson of the team. (e) Additional representatives of state and Federal agencies may participate directly in team meetings or indirectly in the preparation of material to assist the team at any time at the request of the team chairperson. Participation may be solicited from state and Federal agencies with special expertise in topics considered by the team or with direct surface management responsibilities in areas potentially affected by coal management decisions. However, at every point in the deliberations, the official team spokespersons for the Bureau of Land Management and for the Governors shall be those designated under paragraph (a) of this section.

(f) If a state declines to participate under this section in the coal-related activities of the Department:

1. The Department may take action authorized in Group 3400 of this title in a coal production region wholly within such a state without forming a regional coal team, and
