**Maritime Administration, DOT**

**Sec. 1 Purpose.**

This part prescribes the standard form of marine terminal contract to be entered into by the United States of America, acting by and through the Director, National Shipping Authority (NSA) of the Maritime Administration, U.S. Department of Transportation, with State or municipal authorities or private terminal operators for the provision of terminal operating services during civil defense emergencies or national emergencies declared by the President of the United States in accordance with existing statutory authority or by concurrent resolution of the Congress.

**Sec. 2 Stand-by agreements.**

The Director NSA, Maritime Administration, in advance of an emergency, may negotiate the standard form of terminal operating contract specified in Section 3, with terminal operators on a stand-by basis. Stand-by arrangements establish the framework of rapid initiation of government shipping operations at the outset of an emergency.

At port facilities, (as defined in section 1(e) of 32A CFR part 1901) under the control of the Maritime Administration and allocated for long term exclusive use by the Department of Defense (DOD), provisions will ordinarily be made for the use of contractors under DOD contracts to move DOD cargo through selected ports, to perform such services as pre-stowing, receipt, intranet storage and loading of cargo under DOD procedures for the Defense Transportation System. When it becomes necessary to move DOD cargo through marine terminals under the control of the Maritime Administration, but not allocated for long term exclusive use by DOD, contractors will be required to perform such services as DOD requires for handling cargo and documenting shipments under the Defense Transportation System, with corresponding contractual obligations.

**Sec. 3 Terminal operating contract.**
