§ 54.101 Services Designated for Support

(a) Supported services for rural, insular and high cost areas. Voice Telephony services shall be supported by federal universal service support mechanisms. Eligible voice telephony services must provide voice grade access to the public switched network or its functional equivalent; minutes of use for local service provided at no additional charge to end users; access to the emergency services provided by local government or other public safety organizations, such as 911 and enhanced 911, to the extent the local government in an eligible carrier’s service area has implemented 911 or enhanced 911 systems; and toll limitation services to qualifying low-income consumers as provided in subpart E of this part.

(b) An eligible telecommunications carrier must offer voice telephony service as set forth in paragraph (a) of this section in order to receive federal universal service support.

§ 54.201 Definition of eligible telecommunications carriers, generally.

(a) Carriers eligible to receive support. Only eligible telecommunications carriers designated under this subpart shall receive universal service support distributed pursuant to part 36 of this
Federal Communications Commission

§ 54.202 Additional requirements for Commission designation of eligible telecommunications carriers.

(a) In order to be designated an eligible telecommunications carrier under section 214(e)(6), any common carrier in its application must:

1(i) Certify that it will comply with the service requirements applicable to the support that it receives.

(ii) Submit a five-year plan that describes with specificity proposed improvements or upgrades to the applicant’s network throughout its proposed service area. Each applicant shall estimate the area and population that will are designated for support pursuant to subpart B of this part.

(f) For the purposes of this section, the term “own facilities” includes, but is not limited to, facilities obtained as unbundled network elements pursuant to part 51 of this chapter, provided that such facilities meet the definition of the term “facilities” under this subpart.

(g) A state commission shall not require a common carrier, in order to satisfy the requirements of paragraph (d)(1) of this section, to use facilities that are located within the relevant service area, as long as the carrier uses facilities to provide the services designated for support pursuant to subpart B of this part within the service area.

(h) A state commission shall not designate a common carrier as an eligible telecommunications carrier for purposes of receiving support only under subpart E of this part unless the carrier seeking such designation has demonstrated that it is financially and technically capable of providing the supported Lifeline service in compliance with subpart E of this part.

(i) A state commission shall not designate as an eligible telecommunications carrier a telecommunications carrier that offers the services supported by federal universal service support mechanisms exclusively through the resale of another carrier’s services.

§ 54.202 Additional requirements for Commission designation of eligible telecommunications carriers.

(a) In order to be designated an eligible telecommunications carrier under section 214(e)(6), any common carrier in its application must:

1(i) Certify that it will comply with the service requirements applicable to the support that it receives.

(ii) Submit a five-year plan that describes with specificity proposed improvements or upgrades to the applicant’s network throughout its proposed service area. Each applicant shall estimate the area and population that will
