§ 63.65 Closure of public toll station where another toll station of applicant in the community will continue service.

(a) Except in emergency cases (as defined in §63.60(b) and as provided in §63.63), authority to close a public toll station in a community in which another toll station of the applicant will continue service shall be requested by an informal request, filed in quintuplicate, making reference to this paragraph and showing the following:

(1) Location of toll station to be closed and distance from nearest toll station to be retained;
(2) Description of service area affected, including approximate population and character of the business of the community;
(3) Average number of toll telephone messages sent-paid and received-collect for the preceding six months;
(4) Average number of telegraph messages sent-paid and received-collect for the preceding six months;

(b) Authority for closures requested under paragraph (a) of this section shall be deemed to have been granted by the Commission effective as of the date of the filing of the request unless, on or before the 15th day after the date of filing, the Commission shall notify the carrier to the contrary. Renewal of such authority may be requested by letter or telegram, filed with the Commission not later than 10 days prior to the expiration of such 60-day period, making reference to this section and showing that such conditions may reasonably be expected to continue for a further period and what efforts the applicant has made to restore the original or establish comparable service. If the same or comparable service is reestablished before the termination of the emergency authorization, the carrier shall notify the Commission promptly. However, the Commission may, upon specific request of the carrier and upon a proper showing, contained in such informal request, authorize such discontinuance, reduction, or impairment of service for an indefinite period or permanently.
