Federal Acquisition Regulation

52.247–53 Freight Classification Description.

As prescribed in 47.305–9(b)(1), insert the following provision in solicitations when the supplies being acquired are new to the supply system, nonstandard, or modifications of previously shipped items, and different freight classifications may apply:

Freight Classification Description (APR 1984)

Offerors are requested to indicate below the full Uniform Freight Classification (rail) description, or the National Motor Freight Classification description applicable to the supplies, the same as offeror uses for commercial shipment. This description should include the packing of the commodity (box, crate, bundle, loose, setup, knocked down, compressed, unwrapped, etc.), the container material (fiberboard, wooden, etc.), unusual shipping dimensions, and other conditions affecting traffic descriptions. The Government will use these descriptions as well as other information available to determine the classification description most appropriate and advantageous to the Government. Offeror understands that shipments on any f.o.b. origin contract awarded, as a result of this solicitation, will be made in conformity with the shipping classification description specified by the Government, which may be different from the classification description furnished below.

For Freight Classification Purposes, Offeror Describes This Commodity As

[395]
52.247–54 [Reserved]

As prescribed in 47.305–12(a)(2), insert the following clause:

**F.O.B. POINT FOR DELIVERY OF GOVERNMENT-FURNISHED PROPERTY (JUN 2003)**

(a) Unless otherwise specified in this solicitation, the Government will deliver any Government-furnished property for use within the contiguous United States or Canada to a point specified by the Contractor in the offer. If the Government makes delivery by railroad, the f.o.b. point will be private siding, Contractor’s plant. If the Contractor’s plant is not served by rail, the f.o.b. point will be railroad cars in the same or nearest city having rail service. The Government may choose the mode of transportation and the carriers and will bear the cost of all line-haul transportation to the specified destination.

(b) If the destination of the Government-furnished property is a Contractor’s plant located outside the contiguous United States or Canada, the f.o.b. point for Government delivery of Government-furnished property will be a Contractor-specified location in the contiguous United States. If the Contractor fails to name a point, the Government will select as the f.o.b. point the port city in the contiguous United States nearest to the Government-furnished property that has regular commercial water transportation services to the offshore port nearest the Contractor’s plant.

(c) Unless otherwise directed by the Contracting Officer or provided in the contract, the Contractor shall return all Government-furnished equipment, supplies, and property, including all property not returned in the form of acceptable end items, to the point at which the Government property was originally furnished to the Contractor under the contract. Notwithstanding the fact that the Government may have furnished the property at the Contractor’s plant, the Contracting Officer may direct the Contractor to deliver the Government property being returned to, and load, block, and brace it in, railroad cars in the city in which the Contractor’s plant is located, or, if the Contractor’s city is not served by rail service, in the nearest city having rail service. Unless otherwise specified in the contract, all property shall be packed in containers conforming with the rules of common carrier published tariffs so as to be free of penalty charges by the carrier designated for shipment by the Government.

(End of provision)
