§ 39.63 What modifications and auxiliary aids and services are required at terminals and other landside facilities for individuals with hearing or vision impairments?

(a) As a PVO, you must ensure that the information you provide to the general public at terminals and other landside facilities is effectively communicated to individuals who are blind or who have impaired vision and deaf or hard-of-hearing individuals, through the use of auxiliary aids and services. To the extent that this information is not available to these individuals through accessible signage and/or verbal public address announcements or other means, your personnel must promptly provide the information to such individuals on their request, in languages (e.g., English, Norwegian, Japanese) in which the information is provided to the general public.

(b) The types of information you must make available include, but are not limited to, information concerning ticketing, fares, schedules and delays, and the checking and claiming of luggage.

Subpart E—Accessibility of Vessels

Subpart F—Assistance and Services to Passengers With Disabilities

§ 39.81 What assistance must PVOs provide to passengers with a disability in getting to and from a passenger vessel?

(a) As a PVO, if you provide, contract for, or otherwise arrange for transportation to and from a passenger vessel in the U.S. (e.g., a bus transfer from an airport to a vessel terminal), you must ensure that the transfer service is accessible to and usable by individuals with disabilities, as required by this Part.

(b) You must also provide assistance requested by or on behalf of a passenger with a disability in moving between the terminal entrance (or a vehicle drop-off point adjacent to the entrance) of a terminal in the U.S. and the place where people get on or off the passenger vessel. This requirement includes assistance in accessing key functional areas of the terminal, such as ticket counters and baggage checking/claim. It also includes a brief stop upon request at an accessible toilet room.

§ 39.83 What are PVOs’ obligations for assisting passengers with a disability in getting on and off a passenger vessel?

(a) If a passenger with a disability can readily get on or off a passenger vessel without assistance, you are not required to provide such assistance to the passenger. You must not require such a passenger with a disability to accept assistance from you in getting on or off the vessel unless it is provided to all passengers as a matter of course.

(b) With respect to a passenger with a disability who is not able to get on or off a passenger vessel without assistance, you must promptly provide assistance that ensures that the passenger can get on or off the vessel.

(c) When you have to provide assistance to a passenger with a disability in getting on or off a passenger vessel, you may use any available means to which the passenger consents (e.g., lifts, ramps, boarding chairs, assistance by vessel personnel).

§ 39.85 What services must PVOs provide to passengers with a disability on board a passenger vessel?

As a PVO, you must provide services on board the vessel as requested by or on behalf of passengers with a disability, or when offered by PVO personnel and accepted by passengers with a disability, as follows:

(a) Assistance in moving about the vessel, with respect to any physical barriers rendering an area not readily accessible and usable to the passenger.

(b) If food is provided to passengers on the vessel, assistance in preparation for eating, such as opening packages and identifying food;

(c) Effective communication with passengers who have vision impairments or who are deaf or hard-of-hearing, so that these passengers have timely access to information the PVO provides to other passengers (e.g., weather, on-board services, delays).
