[53 FR 17707, May 18, 1988, as amended at 62 FR 15421, Apr. 1, 1997]

§ 372.117 Motor transportation of passengers incidental to transportation by aircraft.

(a) *Passengers having an immediately prior or subsequent movement by air.* The transportation of passengers by motor vehicle is transportation incidental to transportation by aircraft provided (1) that it is confined to the transportation of passengers who have had or will have an immediately prior or immediately subsequent movement by air and (2) that the zone within which motor transportation is incidental to transportation by aircraft, except as it may be individually determined as provided in section (c) herein, shall not exceed in size the area encompassed by a 25-mile radius of the boundary of the airport at which the passengers arrive or depart and by the boundaries of the commercial zones (as defined by the Secretary) of any municipalities any part of whose commercial zones falls within the 25-mile radius of the pertinent airport.

(b) *Substituted motor-for-air transportation due to emergency conditions.* Transportation of passengers by motor vehicle is transportation incidental to transportation by aircraft if it constitutes substituted motor-for-air service performed at the expense of the air carrier in emergency situations arising from the inability of the air carrier to perform air transportation due to adverse weather conditions, equipment failure, or other causes beyond the control of the air carrier.

(c) *Individual determination of exempt zones.* Upon its own motion or upon petition filed by any interested person, the Secretary may in an appropriate
