§ 609.1 Purpose.

The purpose of this part is to establish formally the requirements of the Federal Transit Administration (FTA) on transportation for elderly and handicapped persons.
hours for transportation utilizing or involving the facilities and equipment of the project financed with assistance under this section will not exceed one-half of the rates generally applicable to other persons at peak hours, whether the operation of such facilities and equipment is by the applicant or by another entity under lease or otherwise.

[41 FR 18239, Apr. 30, 1976, as amended at 61 FR 19662, May 2, 1996]

APPENDIX A TO PART 609—ELDERLY AND HANDICAPPED

The definitions of the term *elderly and handicapped* as applied under FTA’s elderly and handicapped half-fare program (49 CFR part 609) shall apply to this rule. This permits a broader class of handicapped persons to take advantage of the exception than would be permitted under the more restrictive definition applied to the non-discrimination provisions of the Department’s section 504 program (49 CFR 27.5), which includes only handicapped persons otherwise unable to use the recipient’s bus service for the general public.

Accordingly, for the purposes of this part, the definition of *elderly persons* may be determined by the FTA recipient but must, at a minimum, include all persons 65 years of age or over.

Similarly, the definition of *handicapped persons* is derived from the existing regulations at 49 CFR 609.3 which provide that *handicapped persons* means those individuals who, by reason of illness, injury, age, congenital malfunction, or other permanent or temporary incapacity or disability, including those who are nonambulatory wheelchair-bound and those with semi-ambulatory capabilities, are unable without special facilities or special planning or design to utilize mass transportation facilities and services as effectively as persons who are not so affected.

To assist in understanding how the definitions might be applied to administration of the charter rule, the following questions and answers previously published by FTA for the half-fare program in FTA C 9060.1, April 20, 1979, are reproduced:

1. **Question:** Can the definition of *elderly or handicapped* be restricted on the basis of residency, citizenship, income, employment status, or the ability to operate an automobile?

   **Answer:** No. Section 5(m) is applicable to *elderly and handicapped persons.* It is FTA’s policy that such categorical exceptions are not permitted under the Act.

2. **Question:** Can the eligibility of temporary handicaps be restricted on the basis of their duration?

   **Answer:** Handicaps of less than 90 days duration may be excluded. Handicaps of more than 90 days duration must be included.

3. **Question:** Can the definition of *handicap* be limited in any way?

   **Answer:** FTA has allowed applicants to exclude some conditions which appear to meet the functional definition of *handicap* provided in section 502(a)(5) of the Federal transit laws (49 U.S.C. Chapter 53). These include pregnancy, obesity, drug or alcohol addiction, and certain conditions which do not fall under the statutory definition (e.g., loss of a finger, some chronic heart or lung conditions, controlled epilepsy, etc.). Individuals may also be excluded whose handicap involves a contagious disease or poses a danger to the individual or other passengers. Other exceptions should be reviewed on a case-by-case basis.

4. **Question:** Is blindness considered a handicap under Section 5(m)?

   **Answer:** Yes.

5. **Question:** Is mental illness considered a handicap under section 5(m)?

   **Answer:** As a rule, no, because of the difficulty in establishing criteria or guidelines for defining eligibility. However, FTA encourages applicants to provide the broadest possible coverage in defining eligible handicaps, including mental illness.

6. **Question:** Can operators delegate the responsibility for certifying individuals as eligible to other agencies?

   **Answer:** Yes, provided that such agencies administer the certification of individuals in an acceptable manner and are reasonably accessible to the elderly and handicapped. Many operators currently make extensive use of social service agencies (both public and private) to identify and certify eligible individuals.

7. **Question:** Can operators require elderly and handicapped individuals to be recognized by any existing agency (e.g., require that handicapped persons be receiving Social Service or Veterans’ Administration benefits)?

   **Answer:** Recognition by such agencies is commonly used to certify eligible individuals. However, such recognition should not be a mandatory prerequisite for eligibility. For example, many persons with eligible"
