§ 1037.3 Claims.

(a) In computing the amount of the loss for which the carrier will pay there will be deducted from the gross amount of the ascertained actual loss one-fourth of 1 percent of the established loading weight to cover invisible loss and waste; provided, however, that where grain and grain products heat in transit and investigation shows that the invisible loss resulting therefrom exceeded one-fourth of 1 percent of such other amount as may hereafter be fixed in the manner above stated, and that the carrier is not otherwise liable for said loss, then the ascertained actual amount of the invisible loss due to heating of the grain and grain products will be deducted.

(b) Where investigation discloses a defect in equipment, seal or seal record, or a transfer in transit by the carrier of a carload of bulk grain or grain products upon which the unloading weight is less than the loading weight and the shipper furnishes duly attested certificates showing the correctness of the claimed weight, and investigation fails to show that the discrepancy is due to defective scales or other shipper facilities, or to inaccurate weighing or other error at point
