Fishery Conservation and Management § 622.30

Web site at http://ifq.sero.nmfs.noaa.gov, of their IFQ shares and allocations, for each of the five share categories, for the upcoming fishing year. These updated share values will reflect the results of applicable share transfers and any redistribution of shares (subject to cap restrictions) resulting from permanent revocation of IFQ shares. Allocation, for each share category, is calculated by multiplying IFQ share for that category times the annual commercial quota or commercial catch allowance for that share category. Updated allocation values will reflect any change in IFQ share for each share category, any change in the annual commercial quota or commercial catch allowance for the applicable categories; and any debits required as a result of prior fishing year overages as specified in paragraph (c)(1)(ii) of this section. IFQ participants can monitor the status of their shares and allocation throughout the year via the IFQ Web site.

(9) Gulf grouper and tilefish IFQ program participation for current grouper and tilefish IFQ account holders. (i) A current participant in the Gulf grouper and tilefish IFQ program must complete and submit the application for an IFQ Online Account that is available on the Web site http://sero.nmfs.noaa.gov, to certify status as a U.S. citizen or permanent resident alien. The account holder must also complete and submit any other information on this form that may be necessary for the administration of the IFQ online account.

(ii) A person with an established IFQ online account must update and confirm the account information every 2 years. IFQ online accounts are updated through the submission of the application for an IFQ Online Account. Accounts must be updated prior to the account validity date (expiration date of the account) that is displayed on each account holder’s IFQ online account page. The RA will provide each participant who has established an online account an application approximately 2 months prior to the account validity date. A participant who is not provided an application at least 45 days prior to the account validity date must contact IFQ Customer Service at 1–(866) 423–7627 and request an application. Failure to submit a completed application prior to the participant’s account validity date will lead to the suspension of the participant’s access to his IFQ online account until a completed application is submitted. Participants who certify that they are either not a U.S. citizens or permanent resident alien will be ineligible to receive shares or allocation through transfer.

§ 622.30 Fishing years.

The fishing year for species or species groups governed in this part is January 1 through December 31 except for the following:

(a) Allowable octocoral—October 1 through September 30.

(b) King and Spanish mackerel. The fishing year for the king and Spanish mackerel bag limits specified in § 622.39(c)(1) is January 1 through December 31. The following fishing years apply only for the king and Spanish mackerel quotas specified in § 622.42(c):

(1) Gulf migratory group king mackerel—July 1 through June 30.

(2) Gulf migratory group Spanish mackerel—April through March.

(3) South Atlantic migratory group king and Spanish mackerel—March through February.

(c) Wreckfish—April 16 through April 15.

(d) South Atlantic greater amberjack—May 1 through April 30.

(e) South Atlantic black sea bass—June 1 through May 31.

(f) South Atlantic black sea bass—(1) The fishing year for the black sea bass bag limit specified in § 622.39(d)(1)(vii) is June 1 through May 31.

(2) The fishing year for the black sea bass quota specified in § 622.42(e)(5) is January 1 through May 31.

§ 622.31 Prohibited gear and methods.

In addition to the prohibited gear/methods specified in this section, see §§ 622.33, 622.34, and 622.35 for seasonal/area prohibited gear/methods and §622.41 for species specific authorized and unauthorized gear/methods.

(a) Explosives. An explosive (except an explosive in a powerhead) may not be used to fish in the Caribbean, Gulf, or South Atlantic EEZ. A vessel fishing in the EEZ for a species governed in this part, or a vessel for which a permit has been issued under §622.4, may not have on board any dynamite or similar explosive substance.

(b) Chemicals and plants. A toxic chemical may not be used or possessed in a coral area, and a chemical, plant, or plant-derived toxin may not be used to harvest a Caribbean coral reef resource in the Caribbean EEZ.

(c) Fish traps. A fish trap may not be used or possessed in the Gulf or South Atlantic EEZ. A fish trap deployed in the Gulf or South Atlantic EEZ may be disposed of in any appropriate manner by the Assistant Administrator or an authorized officer.

(2) A fish trap may not be used or possessed in the Gulf EEZ west of 85°30′ W. long. and, after February 7, 2007, may not be used or possessed in the Gulf EEZ.

(3) A fish trap used other than where authorized in paragraph (c) (1) or (2) of this section may be disposed of in any appropriate manner by the Assistant Administrator or an authorized officer.

(d) Longlines for wreckfish. A bottom longline may not be used to fish for wreckfish in the South Atlantic EEZ. A person aboard a vessel that has a longline on board may not retain a wreckfish in or from the South Atlantic EEZ. For the purposes of this paragraph, a vessel is considered to have a longline on board when a power-operated longline hauler, a cable of diameter suitable for use in the longline fishery longer than 1.5 mi (2.4 km) on any reel, and gangions are on board. Removal of any one of these three elements constitutes removal of a longline.

(e) Poisons. (1) A poison, drug, or other chemical may not be used to fish for Caribbean reef fish in the Caribbean EEZ.

(2) A poison may not be used to take Gulf reef fish in the Gulf EEZ.

(3) A poison may not be used to fish for South Atlantic snapper-grouper in the South Atlantic EEZ.

(f) Power-assisted tools. A power-assisted tool may not be used in the Caribbean EEZ to take a Caribbean coral reef resource, in the Gulf EEZ to take prohibited coral or live rock, or in the South Atlantic EEZ to take allowable octocoral, prohibited coral, or live rock.

(g) Powerheads. A powerhead may not be used in the Caribbean EEZ to harvest Caribbean reef fish or in the EEZ off South Carolina to harvest South Atlantic snapper-grouper. The possession of a mutilated Caribbean reef fish in or from the Caribbean EEZ, or a mutilated South Atlantic snapper-grouper in or from the EEZ off South Carolina, and a powerhead is prima facie evidence that such fish was harvested by a powerhead.

(h) Rebreathers and spearfishing gear. In the South Atlantic EEZ, a person using a rebreather may not harvest South Atlantic snapper-grouper with spearfishing gear. The possession of such snapper-grouper while in the water with a rebreather is prima facie evidence that such fish was harvested with spearfishing gear while using a rebreather.

(i) Sea bass pots. A sea bass pot may not be used in the South Atlantic EEZ south of 28°35.1′ N. lat. (due east of the NASA Vehicle Assembly Building, Cape Canaveral, FL). A sea bass pot deployed in the EEZ south of 28°35.1′ N. lat. may be disposed of in any appropriate manner by the Assistant Administrator or an authorized officer.

(j) Spears and hooks. A spear, hook, or similar device may not be used in the Caribbean EEZ to harvest a Caribbean spiny lobster. The possession of a speared, pierced, or punctured Caribbean spiny lobster in or from the Caribbean EEZ is prima facie evidence of violation of this section.

(k) Traps for royal red shrimp in the Gulf EEZ and transfer at sea. A trap may not be used to fish for royal red
