(b) The agency must indicate its choice of one of the alternatives in paragraph (a) of this section in the project statement that the agency submits with each application for Federal assistance. If the agency does not record its choice in the project statement, the agency must treat the income earned after the grant period as license revenue.

§ 80.126 How must an agency treat income earned by a subgrantee after the grant period?
(a) The State fish and wildlife agency must treat income earned by a subgrantee after the grant period as:
(1) License revenue for the administration of the agency;
(2) Additional funding for purposes consistent with the grant or the program; or
(3) Income subject only to the terms of the subgrant agreement and any subsequent contractual agreements between the agency and the subgrantee.
(b) The agency must indicate its choice of one of the above alternatives in the project statement that it submits with each application for Federal assistance. If the agency does not indicate its choice in the project statement, the subgrantee does not have to account for any income that it earns after the grant period unless required to do so in the subgrant agreement or in any subsequent contractual agreement.

Subpart J—Real Property

§ 80.130 Does an agency have to hold title to real property acquired under a grant?
A State fish and wildlife agency must hold title to an ownership interest in real property acquired under a grant to the extent possible under State law.
(a) Some States do not authorize their fish and wildlife agency to hold the title to real property that the agency manages. In these cases, the State or one of its administrative units may hold the title to grant-funded real property as long as the agency has the authority to manage the real property for its authorized purpose under the grant. The agency, the State, or another administrative unit of State government must not hold title to an undivided ownership interest in the real property concurrently with a subgrantee or any other entity.
(b) An ownership interest is an interest in real property that gives the person who holds it the right to use and occupy a parcel of land or water and to exclude others. Ownership interests include fee and leasehold interests but not easements.

§ 80.131 Does an agency have to hold an easement acquired under a grant?
A State fish and wildlife agency must hold an easement acquired under a grant, but it may share certain rights or responsibilities as described in paragraph (b) of this section if consistent with State law.
(a) Any sharing of rights or responsibilities does not diminish the agency’s responsibility to manage the easement for its authorized purpose.
(b) The agency may share holding or enforcement of an easement only in the following situations:
(1) The State or another administrative unit of State government may hold an easement on behalf of its fish and wildlife agency.
(2) The agency may subgrant the concurrent right to hold the easement to a nonprofit organization or to a local or tribal government. A concurrent right to hold an easement means that both the State agency and the subgrantee hold the easement and share its rights and responsibilities.
(3) The agency may subgrant a right of enforcement to a nonprofit organization or to a local or tribal government. This right of enforcement may allow the subgrantee to have reasonable access and entry to property protected under the easement for purposes of inspection, monitoring, and enforcement. The subgrantee’s right of enforcement must not supersede and must be concurrent with the agency’s right of enforcement.

§ 80.132 Does an agency have to control the land or water where it completes capital improvements?
Yes. A State fish and wildlife agency must control the parcel of land and water on which it completes a grant-
§ 80.133  What if an agency allows a use of real property that interferes with its authorized purpose?

(a) When a State fish and wildlife agency allows a use of real property that interferes with its authorized purpose under a grant, the agency must fully restore the real property to its authorized purpose.

(b) If the agency cannot fully restore the real property to its authorized purpose, it must replace the real property using non-Federal funds.

(c) The agency must determine that the replacement property:
   (1) Is of at least equal value at current market prices; and
   (2) Has fish, wildlife, and public-use benefits consistent with the purposes of the original grant.

(d) The Regional Director may require the agency to obtain an appraisal and appraisal review to estimate the value of the replacement property at current market prices if the agency cannot support its assessment of value.

(e) The agency must obtain the Regional Director's approval of:
   (1) Its determination of the value and benefits of the replacement property; and
   (2) The documentation supporting this determination.

(f) The agency may have a reasonable time, up to 3 years from the date of notification by the Regional Director, to restore the real property to its authorized purpose or acquire replacement property. If the agency does not restore the real property to its authorized purpose or acquire replacement property within 3 years, the Director may declare the agency ineligible to receive new grants in the program or programs that funded the original acquisition.

§ 80.136  Is it a diversion if an agency does not use grant-acquired real property for its authorized purpose?

If a State fish and wildlife agency does not use grant-acquired real property for its authorized purpose, a diversion occurs only if both of the following conditions apply:

(a) The agency used license revenue as match for the grant; and

(b) The unauthorized use is for a purpose other than management of the
