Commodity Credit Corporation, USDA

(2) For biodiesel production, the factor that will treat 1.4 gallons of biodiesel produced as having involved the consumption of one bushel of soybeans in any case when the feedstock was an eligible commodity that has a corresponding oil or grease market price; if there is none, then the factor shall be as determined and announced by CCC.

Eligible commodity means barley; corn; grain sorghum; oats; rice; wheat; soybeans; cottonseed; sunflower seed; canola; crambe; rapeseed; safflower; sesame seed; flaxseed; mustard seed; cellulosic crops, such as switchgrass and hybrid poplars; fats, oils, and greases (including recycled fats, oils and greases) derived from an agricultural product; and any animal byproduct (in addition to oils, fats and greases) that may be used to produce bioenergy, as CCC determines, that is produced in the United States and its territories.

Eligible producer means a bioenergy producer who meets all requirements for program payments.

Ethanol means anhydrous ethyl alcohol manufactured in the United States and its territories and sold either:

(1) For fuel use, rendered unfit for beverage use, produced at a facility and in a manner approved by ATF for the production of ethanol for fuel; or

(2) As denatured ethanol used by blenders and refiners and rendered unfit for beverage use.

Ethanol producer means a person authorized by ATF to produce ethanol.

FSA means the Farm Service Agency, USDA.

FY means the fiscal year beginning each October 1 and ending September 30 of the following calendar year.

KCCO means the FSA, Kansas City Commodity Office.

Posted County Price means the same Posted County Price for different locations as is used under other CCC commodity programs for marketing loan gains and other matters.

Producer is a legal entity (individual, partnership, cooperative, or corporation, etc.) who is a commercial bioenergy producer making application or otherwise involved under this program.

Quarter means the respective time periods of October 1 through December 31, January 1 through March 31, April 1 through June 30, and July 1 through September 30 of each FY, as applicable.

Sign-up period means the time period announced by CCC during which CCC will accept program agreements.

USDA means the United States Department of Agriculture.

§ 1424.5 Agreement process.

(a) To participate, an eligible producer must submit a signed agreement
during the FY sign-up period. Agreements may be for single or multiple FY's. However, multiple FY agreements require producers to submit annual production estimate reports during each applicable FY's sign-up period. Such reports must comply with the terms of the agreement and this part. In all cases, the accounting for compliance will be made on a per FY basis.

(b) Sign-up each FY will be held for 30 calendar days beginning for:

(1) FY 2003 on the date of publication of this rule;
(2) FY 2004 and beyond on August 1 of the FY before the applicable FY.

(c) After agreements are submitted:

(1) If determined eligible by KCCO, an agreement number will be assigned, and a notification will be mailed to the producer;
(2) If additional information is needed for KCCO to determine eligibility, the producer will be contacted as soon as practicable and requested to provide additional supporting documentation;
(3) If determined ineligible by KCCO, producers will be notified in writing that their agreement was rejected and the reason for the determination.

§ 1424.6 Payment application process.

(a) To apply for payments under this program during an FY, an eligible producer must:

(1) Submit an application or eligibility report for each quarter. Submit the last quarterly application or report of the FY within 30 calendar days of the end of the FY for which payment is requested. If the actual deadline is a non-workday, the deadline will be the next business day;
(2) Certify with respect to the accuracy and truthfulness of the information provided;
(3) Furnish CCC such certification, and access to such records, as CCC considers necessary to verify compliance with program provisions; and

(b) Provide documentation as requested by CCC of both the producer’s net purchases of eligible commodities and net production of bioenergy compared to such production at all locations during the relevant periods. CCC may adjust the formulaic payments otherwise payable to the producer if there is a difference between the amount actually used and certified and the amount of increased commodity use calculated under the formula.

(b) After applications or reports are submitted, eligible producers:

(1) Shall submit such additional supporting documentation as requested by KCCO when additional information is needed to determine eligibility;
(2) Will be notified in writing of their ineligibility and reason for the determination, when the application is determined ineligible by KCCO; and
(3) Shall promptly refund payments when a refund to CCC is due. If a refund is not made promptly, CCC may establish a claim.

§ 1424.7 Gross payable units.

(a) For ethanol, producers will be eligible for payments on gross payable units for only their ethanol production from eligible inputs that exceeds, for the program year to date, their total comparable production at all locations as compared to the comparable portion of the previous year. Producers of ethanol are not eligible for base production payments. Producers shall not be paid twice for the same increase and any decline in relative production between quarters will require a comparable refund. For example, if at the end of the first quarter, a producer were to be paid for an increase of 500 gallons of ethanol, but at the end of the second quarter, that producer’s year-to-date production was down to a net increase for the year of 450 gallons, then a refund would be due for the loss of the corresponding 50 gallons of net extra production. Repayment rates shall be based on previous payment rates. Unless otherwise determined by CCC, the extra ethanol production from eligible inputs will be converted to gross payable units by dividing the gallons of increased ethanol by the applicable conversion factor.

(b) Biodiesel producers will be eligible for payments on gross payable units for all biodiesel production from eligible inputs. For eligibility purposes there will be two kinds of payment: additional production payments (APP), and base production payments (BPP). Repayment rates shall be based on previous payment rates. Unless otherwise determined by CCC, gross payable units
