§ 1435.308 Reassignment of deficits.

(a) CCC will determine, from time to time, whether sugar beet or sugarcane processors will be unable to market their allocations.

(b) Sugar beet and sugar cane processors will report to CCC current inventories, estimated production, expected marketings, and any other pertinent factors CCC deems appropriate to determine a processor’s ability to market their allocation.

(c) If CCC determines a sugarcane processor will be unable to market its full allocation for the crop year in which an allotment is in effect, the deficit will be reassigned as follows:

(1) First, to allocations of other sugarcane processors within that State based on each processor’s initial allocation share of the State’s allotment, but no processor may receive reassigned allocation such that its allocation exceeds its estimated total sugar supply.

(2) To other processors who are unable to market their allocations to the extent the allocation is not reassigned.

(3) To other processors sharing a proportionate share of the mainland cane allotment.

(4) CCC will determine the amount of the processor’s allocation that is reassigned to each processor.

7 CFR Ch. XIV (1–1–12 Edition)
Commodity Credit Corporation, USDA

§ 1435.310 Sharing processors' allocations with producers.

(a) Every sugar beet and sugarcane processor must provide CCC a certification that:

(1) The processor intends to share its allocation among its producers fairly and equitably, and in a manner adequately reflecting each producer's production history, and

(2) The processor has, in the previous allotment year, shared its allocation among producers fairly and equitably, reflecting each producer's production history. If a processor is unable to provide such certification, CCC may reduce or eliminate its marketing allocation.

(b) CCC will determine that a processor in a proportionate share state has met the conditions of paragraph (a) of this section if the processor establishes a grower payment plan that incorporates the following provisions:

(i) Sugar production from proportionate share acreage; as established under §1435.311, for producers determined by CCC, who:

(A) Delivered to the mill in at least one of the crop years 1999, 2000, or 2001, or

(B) Obtained an allocation transfer from a predecessor mill,

(ii) Sugar production from base acreage, as established under §1435.312, but exclusive of the acreage described in paragraph (b)(1)(i) of this section, for producers who meet the requirements of paragraph (b)(1)(i) of this section, then

(iii) All other sugar production.

(c) The crop year allocation of each sugar beet or sugarcane processor who receives a reassignment will be increased accordingly for that year.
