§ 1942.17 Community facilities.

(a) General. This section includes information and procedures specifically designed for use by applicants, including their professional consultants and/or agents who provide such assistance and services as architectural, engineering, financial, legal, or other services related to application processing and facility planning and development. This section is made available as needed for such use. It includes FmHA or its successor agency under Public Law 103–354 policies and requirements pertaining to loans for community facilities. It provides applicants with guidance for use in proceeding with their application. FmHA or its successor agency under Public Law 103–354 shall cooperate fully with appropriate State agencies to give maximum support of the State’s strategies for development of rural areas.

(b) Eligibility. Financial assistance to areas or communities adjacent to, or closely associated with, nonrural areas is limited by §1942.17(c) of this subpart.

(1) Applicant. (i) A public body, such as a municipality, county, district, authority, or other political subdivision of a state.

(A) Loans for water or waste disposal facilities will not be made to a city or town with a population in excess of 10,000 inhabitants, according to the latest decennial Census of the United States.

(B) Loans for essential community facilities will not be made to a city or town with a population in excess of 20,000 inhabitants according to the latest decennial Census of the United States.

(ii) An organization operated on a not-for-profit basis, such as an association, cooperative, and private corporation. Applicants organized under the general profit corporation laws may be eligible if they actually will be operated on a not-for-profit basis under their charter, bylaws, mortgage, or supplemental agreement provisions as may be required as a condition of loan approval. Essential community facility applicants other than utility-type must have significant ties with the local rural community. Such ties are
necessary to ensure to the greatest extent possible that a facility under private control will carry out a public purpose and continue to primarily serve rural areas. Ties may be evidenced by items such as:

(A) Association with or controlled by a local public body or bodies, or broadly based ownership and controlled by members of the community.

(B) Substantial public funding through taxes, revenue bonds, or other local Government sources, and/or substantial voluntary community funding, such as would be obtained through a community-wide funding campaign.

(iii) Indian tribes on Federal and State reservations and other Federally recognized Indian tribes.

(2) Facility. (i) Facilities must be located in rural areas, except for utility-type services such as water, sewer, natural gas, or hydroelectric, serving both rural and non-rural areas. In such cases, FmHA or its successor agency shall determine and document that the applicant is unable to finance the proposed project from their own resources or through commercial credit at reasonable rates and terms.

(ii) Essential community facilities must primarily serve rural areas.

(iii) For water or waste disposal facilities, the terms rural and rural area will not include any area in any city or town with a population in excess of 10,000 inhabitants, according to the latest decennial Census of the United States.

(iv) For essential community facilities, the terms rural and rural area will not include any area in any city or town with a population in excess of 20,000 inhabitants, according to the latest decennial Census of the United States.

(3) Credit elsewhere. Applicants must certify in writing and FmHA or its successor agency shall determine and document that the applicant is unable to finance the proposed project from their own resources or through commercial credit at reasonable rates and terms.

(4) Legal authority and responsibility. Each applicant must have or will obtain the legal authority necessary for constructing, operating, and maintaining the proposed facility or service and for obtaining, giving security for, and repaying the proposed loan. The applicant shall be responsible for operating, maintaining, and managing the facility, and providing for its continued availability and use at reasonable rates and terms. This responsibility shall be exercised by the applicant even though the facility may be operated, maintained, or managed by a third party under contract, management agreement, or written lease. Leases may be used when this is the only feasible way to provide the service and is the customary practice. Management agreements should provide for at least those items listed in guide 24 of this subpart (available in any FmHA or its successor agency office). Such contracts, management agreements, or leases must not contain options or other provisions for transfer of ownership.

(5) Refinancing FmHA or its successor agency under Public Law 103–354 debt. FmHA or its successor agency under Public Law 103–354 shall require an agreement that if at any time it shall appear to the Government that the borrower is able to refinance the amount of the indebtedness then outstanding, in whole or in part, by obtaining a loan for such purposes from responsible cooperative or private credit sources, at reasonable rates and terms for loans for similar purposes and periods of time, the borrower will, upon request of the Government, apply for and accept such loan in sufficient amount to repay the Government and will take all such actions as may be required in connection with such loan.

(6) Expanded eligibility for timber-dependent communities in Pacific Northwest. In the Pacific Northwest, defined as an area containing national forest covered by the Federal document entitled, “Forest Plan for a Sustainable Economy and a Sustainable Environment,” dated July 1, 1993; the population limits contained §1942.17(b) are expanded to include communities with not more than 25,000 inhabitants until September 30, 1998, if:

(i) Part or all of the community lies within 100 miles of the boundary of a national forest covered by the Federal document entitled, “Forest Plan for a
Sustainable Economy and a Sustainable Environment,” dated July 1, 1993; and
(ii) The community is located in a county in which at least 15 percent of the total primary and secondary labor and proprietor income is derived from forestry, wood products, or forest-related industries such as recreation and tourism.

(c) Priorities—(1) Truly rural areas. FmHA or its successor agency under Public Law 103–354 program assistance will be directed toward truly rural areas and rural communities. Normally, priority will not be given to preapplications for projects that will serve other than truly rural areas. Truly rural areas are areas other than densely settled areas or communities adjacent to, or closely associated with, a city or town with a population exceeding 10,000 residents for water or waste disposal assistance, or 20,000 residents for essential community facility assistance. When determining whether a rural area or rural community is adjacent to, or closely associated with, a city or town with a population exceeding 10,000 residents for water and waste disposal assistance, or 20,000 residents for essential community facility assistance, minor open spaces such as those created by physical or legal barriers, commercial or industrial development, parks, areas reserved for convenience or appearance, or narrow strips of cultivated land, will be disregarded. An area or community shall be considered adjacent to or closely related with a nonrural area when it constitutes for general, social, and economic purposes a single community having a contiguous boundary.

(2) Project selection process. The following paragraphs indicate items and conditions which must be considered in selecting preapplications for further development. When ranking eligible preapplications for consideration for limited funds, FmHA or its successor agency under Public Law 103–354 officials must consider the priority items met by each preapplication and the degree to which those priorities are met, and apply good judgement.

(i) Preapplications. The preapplication and supporting information submitted with it will be used to determine the proposed project’s priority for available funds.

(ii) State Office review. All preapplications will be reviewed and scored and Form AD–622, “Notice of Preapplication Review Action,” issued within the time limits in §1942.2(a)(2)(iv) of this subpart. When considering authorizing the development of an application for funding, the State Director should consider the remaining funds in the State allocation, and the anticipated allocation of funds for the next fiscal year as well as the amount of time necessary to complete that application. Applicants whose preapplications are found to be ineligible will be so advised. These applicants will be given adverse notice through Form AD–622 and advised of their appeal rights under subpart B of part 1900 of this chapter. Those applicants with eligible lower scoring preapplications which obviously cannot be funded within an eighteen month period of time, and are not within 150 percent of the State’s allocation, should be notified that funds are not available; and requested to advise whether they wish to have their preapplication maintained in an active file for future consideration. The State Director may request an additional allocation of funds from the National Office for such preapplications. Such requests will be considered along with all others on hand.

(iii) Selection priorities. The priorities described below will be used by the State Director to rate preapplications. The priorities should be applied to water and waste disposal or community facilities preapplications as directed. The format found in part I of guide 26 of this subpart should be followed in scoring each preapplication. A copy of the score sheet should be placed in the case file for future reference.

(A) Population priorities. The following priorities apply to both Water and Waste Disposal and Community Facilities preapplications. Points will be distributed as indicated.

(1) The proposed project is located in a rural community having a population not in excess of 2,500—25 points.

(2) The proposed project is located in a rural community having a population
§ 1942.17  7 CFR Ch. XVIII (1–1–12 Edition)

not in excess of 5,500—20 points. (Points under this priority should not be assigned to a preapplication if points were assigned under paragraph (c)(2)(iii) (A)(1) of this section.)

(B) Health priorities. Points will be distributed as indicated.

(1) Water and Waste Disposal preapplications only. The proposed project is:

(i) Needed to alleviate the sudden unexpected diminution or deterioration of a water supply, or to meet health or sanitary standards which pertain to a community’s water supply—25 points.

(ii) Required to correct an inadequate waste disposal system due to unexpected occurrences, or to meet health or sanitary standards which pertain to a community’s waste disposal system—25 points.

(2) Community Facility preapplication only. The proposed project is required either to correct a health or sanitary problem, or to meet a health or sanitary standard—25 points.

(C) Income priorities. The following priorities apply to both Water and Waste Disposal and Community Facilities preapplications. Points will be distributed as indicated. The median income of the population to be served by the proposed facility is:

(1) Less than the poverty line for a family of four, as defined in Section 673(2) of the Community Services Block Grant Act (42 U.S.C. 9902(2)), or less than 80 percent of the statewide nonmetropolitan median household income—20 points.

(2) Equal to or more than the poverty line and between 80% and 100%, inclusive, of the State’s nonmetropolitan median household income—25 points.

(D) Other factors. Points will be distributed as indicated.

(1) Water and Waste Disposal preapplications only. The proposed project will: merge ownership, management, and operation of smaller facilities providing for more efficient management and economical service; and/or enlarge, extend, or otherwise modify existing facilities to provide service to additional rural residents—10 points.

(2) Community Facilities preapplications only. The purpose of the proposed project is to construct, enlarge, extend or otherwise improve the following types of facilities. (Select only the factor most applicable to the proposed project.)

(i) Public safety—10 points. (Examples include police services and fire, rescue and ambulance services as authorized by subpart C of this part 1942.)

(ii) Health care—5 points. (Examples include clinics, nursing homes, convalescent facilities, and hospital projects designed to make the facility conform with life/safety codes, medicare and medicaid requirements, and minor expansions needed to meet the immediate requirements of the community. Points under this authority should not be awarded to a preapplication if points were awarded under §1942.17(c)(2)(iii)(B)(2) of this subpart.)

(i) Applicant is a public body or Indian tribe—5 points.

(ii) Project is located in a “truly rural area” as described in §1942.17(c)(1) of this subpart—10 points.

(iii) Amount of joint financing committed to the project is:

(a) 20% or more private, local or state funds except federal funds channeled through a state agency—10 points.

(b) 5%–19% private, local or state funds except federal funds channeled through a state agency—5 points.

(E) In certain cases the State Director may assign up to 15 points to a preapplication, in addition to those that may be scored under paragraphs (c)(2)(iii) (A) through (D), of this section. These points are primarily intended to address an unforeseen ex negency or emergency, such as the loss of a community facility due to accident or natural disaster or the loss of joint financing if FmHA or its successor agency under Public Law 103–354 funds are not committed in a timely fashion. However, the points may also be awarded to projects in order to improve compatibility/coordination between FmHA or its successor agency under Public Law 103–354’s and other agencies’ selection systems and to assist those projects that are the most cost effective. A written justification must be prepared and placed in the project.
file each time the State Director assigns these points.

(iv) Results of State Office review. After completing the review, the State Director will normally select the eligible preapplications with the highest scores for further processing. In cases where preliminary cost estimates indicate that an eligible, high scoring preapplication is unfeasible or would require an amount of funding from FmHA or its successor agency under Public Law 103–354 that exceeds either 25 percent of a State’s current annual allocation or an amount greater than that remaining in the State’s allocation, the State Director may instead select the next lower scoring preapplication(s) for further processing provided the high scoring applicant is notified of this action and given an opportunity to revise the proposal and resubmit it. If it is found that there is no effective way to reduce costs, the State Director, after consultation with applicant, may submit a request for an additional allocation of funds for the proposed project to the National Office. The request should be submitted during the fiscal year in which obligation is anticipated. Such request will be considered along with all others on hand. A written justification must be prepared and placed in the project file when an eligible preapplication with a higher rating is not selected for further processing. The State Director will notify the District Director of the results of the review action. The State Director will return the preapplication information with an authorization for the District Director to prepare and issue Form AD–622 in accordance with §1942.2(a)(2)(iv) of this subpart. Priority will be given to those preapplications and applications for funding which meet criteria in §1942.17(c)(2)(iii)(A) (1) or (2); and the criteria in §1942.17(c) (2)(iii)(B)(1) (i) or (ii) or (B)(2) of this subpart.

(v) Application development. Applications should be developed expeditiously following good management practices. Applications that are not developed in a reasonable period of time taking into account the size and complexity of the proposed project may be removed from the State’s active file. Applicants will be consulted prior to taking such action.

(vi) Project obligations. To ensure efficient use of resources, obligations should occur in a timely fashion throughout the fiscal year. Projects may be obligated as their applications are completed and approved.

(vii) Requests for additional funding. All requests for additional allocations of funds submitted to the National Office must follow the formats found in parts I and II of guide 26. In selecting projects for funding at the National Office level, additional points may be scored based on the priority assigned to the project by the State Office. These points will be scored in the manner shown below. Only the three highest priority projects can score points. In addition, the Administrator may assign up to 15 additional points to account for items such as geographic distribution of funds and emergency conditions caused by economic problems or natural disasters.

(viii) Cost overruns. A preapplication may receive consideration for funding before others at the State Office level or at the National Office level, if funds are not available in the State Office, when it is a subsequent request for a previously approved project which has encountered cost overruns due to high bids or unexpected construction problems that cannot be reduced by negotiations, redesign, use of bid alternatives, rebidding or other means.

(d) Eligible loan purposes. (1) Funds may be used:

(i) To construct, enlarge, extend, or otherwise improve water or waste disposal and other essential community facilities providing essential service primarily to rural residents and rural businesses. Rural businesses would include facilities such as educational and other publicly owned facilities.

(A) Water or waste disposal facilities include water, sanitary sewerage, solid waste disposal, and storm waste-water facilities.

(B) Essential community facilities are those public improvements requisite to
§ 1942.17

the beneficial and orderly development of a community operated on a non-profit basis including but not limited to:

(1) Health services;
(2) Community, social, or cultural services;
(3) Transportation facilities, such as streets, roads, and bridges;
(4) Hydroelectric generating facilities and related connecting systems and appurtenances, when not eligible for Rural Electrification Administration (REA) financing;
(5) Supplemental and supporting structures for other rural electrification or telephone systems (including facilities such as headquarters and office buildings, storage facilities, and maintenance shops) when not eligible for Rural Electrification Administration financing;
(6) Natural gas distribution systems; and
(7) Industrial park sites, but only to the extent of land acquisition and necessary site preparation, including access ways and utility extensions to and throughout the site. Funds may not be used in connection with industrial parks to finance on-site utility systems, or business and industrial buildings.

(C) Otherwise improve includes but is not limited to the following:

(1) The purchase of major equipment, such as solid waste collection trucks and X-ray machines, which will in themselves provide an essential service to rural residents;
(2) The purchase of existing facilities when it is necessary either to improve or to prevent loss of service;
(3) Payment of tap fees and other utility connection charges as provided in utility purchase contracts prepared under §1942.18(f) of this subpart.

(ii) To construct or relocate public buildings, roads, bridges, fences, or utilities, and to make other public improvements necessary to the successful operation or protection of facilities authorized in paragraph (d)(1)(i) of this section.

(iv) To pay the following expenses, but only when such expenses are a necessary part of a loan to finance facilities authorized in paragraphs (d)(1)(i), (d)(1)(ii) and (d)(1)(iii) of this section.

(A) Reasonable fees and costs such as legal, engineering, architectural, fiscal advisory, recording, environmental impact analyses, archeological surveys and possible salvage or other mitigation measures, planning, establishing or acquiring rights.

(B) Interest on loans until the facility is self-supporting, but not for more than three years unless a longer period is approved by the National Office; interest on loans secured by general obligation bonds until tax revenues are available for payment, but not for more than two years unless a longer period is approved by the National Office; and interest on interim financing, including interest charges on interim financing from sources other than FmHA or its successor agency under Public Law 103–354.

(C) Costs of acquiring interest in land, rights, such as water rights, leases, permits, rights-of-way; and other evidence of land or water control necessary for development of the facility.

(D) Purchasing or renting equipment necessary to install, maintain, extend, protect, operate, or utilize facilities.

(E) Initial operating expenses for a period ordinarily not exceeding one year when the borrower is unable to pay such expenses.

(F) Refinancing debts incurred by, or on behalf of, a community when all of the following conditions exist:

(1) The debts being refinanced are a secondary part of the total loan;
(2) The debts are incurred for the facility or service being financed or any part thereof;
(3) Arrangements cannot be made with the creditors to extend or modify the terms of the debts so that a sound basis will exist for making a loan.

(G) Prepay costs for which FmHA or its successor agency under Public Law 103–354 grant funds were obligated provided there is:
(1) No conflict with the loan resolution, State statutes, or any other loan requirements; and
(2) Full documentation showing that:
   (i) Loan funds will only be utilized on a temporary basis; and
   (ii) All FmHA or its successor agency under Public Law 103-354 loan funds are restored at a later date for purpose(s) for which they were obligated.

(v) To pay obligations for construction incurred before loan approval. Construction work should not be started and obligations for such work or materials should not be incurred before the loan is approved. However, if there are compelling reasons for proceeding with construction before loan approval, applicants may request FmHA or its successor agency under Public Law 103-354 approval to pay such obligations. Such requests may be approved if FmHA or its successor agency under Public Law 103-354 determines that:
   (A) Compelling reasons exist for incurring obligations before loan approval; and
   (B) The obligations will be incurred for authorized loan purposes; and
   (C) Contract documents have been approved by FmHA or its successor agency under Public Law 103-354 and the applicant have been met; and
   (D) All environmental requirements applicable to FmHA or its successor agency under Public Law 103-354 and the applicant have been met; and
   (E) The applicant has the legal authority to incur the obligations at the time proposed, and payment of the debts will remove any basis for any mechanic, material, or other liens that may attach to the security property. FmHA or its successor agency under Public Law 103-354 may authorize payment of such obligations at the time of loan closing. FmHA or its successor agency under Public Law 103-354’s authorization to pay such obligations, however, is on the condition that it is not committed to make the loan; it assumes no responsibility for any obligations incurred by the applicant; and the applicant must subsequently meet all loan approval requirements. The applicant’s request and FmHA or its successor agency under Public Law 103-354 authorization for paying such obligations shall be in writing. If construction is started without FmHA or its successor agency under Public Law 103-354 approval, post approval in accordance with this section may be considered.

(2) Funds may not be used to finance:
   (i) On-site utility systems or business and industrial buildings in connection with industrial parks.
   (ii) Community antenna television services or facilities.
   (iv) Electric generation or transmission facilities or telephone systems, except as provided in paragraph (d)(1)(i)(B)(4), or (d)(1)(i)(B)(5) of this section; or extensions to serve a particular essential community facility as provided in paragraph (d)(1)(ii) or (d)(1)(iii) of this section.
   (v) Facilities which are not modest in size, design, and cost.
   (vi) Loan or grant finder’s fees.
   (vii) Projects located within the Coastal Barriers Resource System that do not qualify for an exception as defined in section 6 of the Coastal Barriers Resource Act, Pub. L. 97-348.
   (viii) New combined sanitary and storm water sewer facilities.
   (ix) That portion of a water and/or waste disposal facility normally provided by a business or industrial user.

(e) Facilities for public use. All facilities financed under the provisions of this subpart shall be for public use.

(1) Utility-type service facilities will be installed so as to serve any user within the service area who desires service and can be feasibly and legally served. Applicants and borrowers must obtain written concurrence of the FmHA or its successor agency under Public Law 103-354 prior to refusing service to such user. Upon failure to provide service which is reasonable and legal, such user shall have direct right of action against the applicant/borrower. A notice of the availability of this service should be given by the applicant/borrower to all persons living within the area who can feasibly and legally be served by the phase of the project being financed.

(i) If a mandatory hookup ordinance will be adopted, the required bond ordinance or resolution advertisement will be considered adequate notification.
§ 1942.17

(i) When any portion of the income will be derived from user fees and a mandatory hookup ordinance will not be adopted, each potenti user will be afforded an opportunity to request service by signing a Users Agreement.

Those declining service will be afforded an opportunity to sign a statement to such effect. FmHA or its successor agency under Public Law 103–354 has guides available for these purposes in all FmHA or its successor agency under Public Law 103–354 offices.

(2) In no case will boundaries for the proposed service area be chosen in such a way that any user or area will be excluded because of race, color, religion, sex, marital status, age, handicap, or national origin.

(3) This does not preclude:

(i) Financing or constructing projects in phases when it is not practical to finance or construct the entire project at one time; and

(ii) Financing or constructing facilities where it is not economically feasible to serve the entire area, provided economic feasibility is determined on the basis of the entire system and not considered in the separate areas receiving service from the system; and

(iii) Extending service to areas not initially served receive written notice from the applicant that service will not be provided until such time as it is economically feasible to do so, and

(iv) Extending service to industrial areas when service is made available to users located along the extensions.

(4) The State Director will determine that, when feasibly and legally possible, inequities within the proposed project’s service area for the same type service proposed (i.e., water or waste disposal) will be remedied by the owner on or before completion of the project that includes FmHA or its successor agency under Public Law 103–354 funding.

Inequities are defined as flagrant variations in availability, adequacy or quality of service. User rate schedules for portions of existing systems that were developed under different financing, rates, terms or conditions, as determined by the State Director, do not necessarily constitute inequities.

(5) Before a loan is made to an applicant other than a public body, for other than utility type projects, the articles of incorporation or loan agreement will include a condition similar to the following:

In the event of dissolution of this corporation, or in the event it shall cease to carry out the objectives and purposes herein set forth, all business, property, and assets of the corporation shall be sold or distributed one or more nonprofit corporations or public bodies as may be selected by the board of directors of this corporation and approved by at least 75 percent of the users or members to be used for, and devoted to, the purpose of a community facility project or other purpose to serve the public welfare of the community. In no event shall any of the assets or property, in the event of dissolution thereof, go or be distributed to members, directors, stockholders, or others having financial or managerial interest in the corporation either for the reimbursement of any sum subscribed, donated or contributed by such members or for any other purpose, provided that nothing herein shall prohibit the corporation from paying its just debts.

(f) Rates and terms—(1) General. Each loan will bear interest at the rate prescribed in RD Instruction 440.1, exhibit B (available in any Rural Development office). The interest rates will be set by Rural Development at least for each quarter of the fiscal year. All rates will be adjusted to the nearest one-eighth of 1 percent. The applicant may submit a written request prior to loan closing that the interest rate charged on the loan be the lower of the rate in effect at the time of loan approval or the rate in effect at the time of loan closing. If the interest rate is to be that in effect at loan closing, the interest rate charged on a loan involving multiple advances of Rural Development funds, using temporary debt instruments, shall be that in effect on the date when the first temporary debt instrument is issued. If no written request is received from the applicant prior to loan closing, the interest rate charged on the loan will be the rate in effect at the time of loan approval.

(2) Poverty line rate. The poverty line interest rate will not exceed 5 percent per annum. The provisions of paragraph (f)(2)(i) of this section do not apply to health care and related facilities that provide direct health care to
the public. Otherwise, all loans must comply with the following conditions:

(i) The primary purpose of the loan is to upgrade existing facilities or construct new facilities required to meet applicable health or sanitary standards. Documentation will be obtained from the appropriate regulatory agency with jurisdiction to establish the standard, to verify that a bona fide standard exists, what that standard is, and that the proposed improvements are needed and required to meet the standard; and

(ii) The median household income of the service area is below the poverty line for a family of four, as defined in section 673(2) of the Community Services Block Grant Act (42 U.S.C. 9902(2)), or below 80 percent of the Statewide nonmetropolitan median household income.

(3) Intermediate rate. The intermediate interest rate will be set at the poverty line rate plus one-half of the difference between the poverty line rate and the market rate, not to exceed 7 percent per annum. It will apply to loans that do not meet the requirements for the poverty line rate and for which the median household income of the service area is below the poverty line or not more than 100 percent of the nonmetropolitan median household income of the State.

(4) Market rate. The market interest rate will be set using as guidance the average of the Bond Buyer Index for the four weeks prior to the first Friday of the last month before the beginning of the quarter. The market rate will apply to all loans that do not qualify for a different rate under paragraph (f)(2) or (f)(3) of this section. It may be adjusted as provided in paragraph (f)(5) of this section.

(5) Prime farmland. For essential community facilities loans, the rate indicated by paragraphs (f)(2), (f)(3) or (f)(4) of this section will be increased by two per centum per annum if the project being financed will involve the use of, or construction on, prime or unique farmland in accordance with FmHA Instruction 440.1, exhibits B and J (available in any FmHA or its successor agency under Public Law 103–354 office).

(6) Income determination. The income data used to determine median household income should be that which most accurately reflects the income of the service area. The service area is that area reasonably expected to be served by the facility being financed by FmHA or its successor agency under Public Law 103–354. The median household income of the service area and the nonmetropolitan median household income of the State will be determined from income data from the most recent decennial census of the U.S. If there is reason to believe that the census data is not an accurate representation of the median household income within the area to be served, the reasons will be documented and the applicant may furnish, or FmHA or its successor agency under Public Law 103–354 may obtain, additional information regarding such median household income. Information will consist of reliable data from local, regional, State or Federal sources or from a survey conducted by a reliable impartial source. The nonmetropolitan median household income of the State may only be updated on a national basis by the FmHA or its successor agency under Public Law 103–354 National Office. This will be done only when median household income data for the same year for all Bureau of the Census areas is available from the Bureau of the Census or other reliable sources. Bureau of the Census areas would include areas such as: Counties, County Subdivisions, Cities, Towns, Townships, Boroughs, and other places.

(7) Repayment terms. The loan repayment period shall not exceed the useful life of the facility, State statute or 40 years from the date of the note(s) or bond(s), whichever is less. Where FmHA or its successor agency under Public Law 103–354 grant funds are used in connection with an FmHA or its successor agency under Public Law 103–354 loan, the loan will be for the maximum term permitted by this subpart, State statute, or the useful life of the facility, whichever is less, unless there is an exceptional case where circumstances justify making an FmHA or its successor agency under Public Law 103–354 loan for less than the maximum term permitted. In such cases, the reasons must be fully documented.
In all cases, including those in which the FmHA or its successor agency under Public Law 103–354 is jointly financing with another lender, the FmHA or its successor agency under Public Law 103–354 payments of principal and interest should approximate amortized installments.

(i) Principal payments may be deferred in whole or in part for a period not to exceed 36 months following the date the first interest installment is due. If for any reason it appears necessary to permit a longer period of deferment, the State Director may authorize such deferment with the prior approval of the National Office. Deferments of principal will not be used to:

(A) Postpone the levying of taxes or assessments.

(B) Delay collection of the full rates which the borrower has agreed to charge users for its services as soon as major benefits or the improvements are available to those users.

(C) Create reserves for normal operation and maintenance.

(D) Make any capital improvements except those approved by FmHA or its successor agency under Public Law 103–354 determined to be essential to the repayment of the loan or to the obtaining of adequate security thereof.

(E) Accelerate the payment of other debts.

(ii) Payment date. Loan payments will be scheduled to coincide with income availability and be in accordance with State law. If consistent with the foregoing, monthly payments will be required and will be enumerated in the bond, other evidence of indebtedness, or other supplemental agreement. However, if State law only permits principal plus interest (P&I) type bonds, annual or semiannual payments will be used. Insofar as practical, monthly payments will be scheduled one full month following the date of loan closing; or semiannual or annual payments will be scheduled six or twelve full months, respectively, following the date of loan closing or any deferment period. Due dates falling on the 29th, 30th or 31st day of the month will be avoided.

(g) Security. Loans will be secured by the best security position practicable in a manner which will adequately protect the interest of FmHA or its successor agency under Public Law 103–354 during the repayment period of the loan. Specific requirements for security for each loan will be included in a letter of conditions.

(1) Joint financing security. For projects utilizing joint financing, when adequate security of more than one type is available, the other lender may take one type of security with FmHA or its successor agency under Public Law 103–354 taking another type. For projects utilizing joint financing with the same security to be shared by FmHA or its successor agency under Public Law 103–354 and another lender, FmHA or its successor agency under Public Law 103–354 will obtain at least a parity position with the other lender. A parity position is to ensure that with joint security, in the event of default, each lender will be affected on a proportionate basis. A parity position will conform with the following unless an exception is granted by the National Office:

(i) Terms. It is not necessary for loans to have the same repayment terms to meet the parity requirements. Loans made by other lenders involved in joint financing with FmHA or its successor agency under Public Law 103–354 for facilities should be scheduled for repayment on terms similar to those customarily used in the State for financing such facilities.

(ii) Use of trustee or other similar paying agent. The use of a trustee or other similar paying agent by the other lender in a joint financing arrangement is acceptable to FmHA or its successor agency under Public Law 103–354. A trustee or other similar paying agent will not normally be used for the FmHA or its successor agency under Public Law 103–354 portion of the funding unless required to comply with State law. The responsibilities and authorities of any trustee or other similar paying agent on projects that include FmHA or its successor agency under Public Law 103–354 funds must be clearly specified by written agreement and approved by the FmHA or its successor agency under Public Law 103–354 State Director and Regional Attorney. FmHA or its successor agency under Public Law 103–354 must be able to deal
directly with the borrower to enforce the provisions of loan and grant agreements and perform necessary servicing actions.

(iii) Regular payments. In the event adequate funds are not available to meet regular installments on parity loans, the funds available will be apportioned to the lenders based on the respective current installments of principal and interest due.

(iv) Disposition of property. Funds obtained from the sale or liquidation of secured property or fixed assets will be apportioned to the lenders on the basis of the pro rata amount loaned, but not to exceed their respective outstanding balances; provided, however, funds obtained from such sale or liquidation for a project that included FmHA or its successor agency under Public Law 103–354 grant funds will be apportioned as may be required by the grant agreement.

(v) Protective advances. Protective advances are payments made by a lender for items such as insurance or taxes, to protect the financial interest of the lender, and charged to the borrower’s loan account. To the extent consistent with State law and customary lending practices in the area, repayment of protective advances made by either lender, for the mutual protection of both lenders, should receive first priority in apportionment of funds between the lenders. To ensure agreement between lenders, efforts should be made to obtain the concurrence of both lenders before one lender makes a protective advance.

(2) Public bodies. Loans to such borrowers will be evidenced by notes, bonds, warrants, or other contractual obligations as may be authorized by relevant State statutes and by borrower’s documents, resolutions, and ordinances.

(i) Utility-type facilities such as water and sewer systems, natural gas distribution systems, electric systems, etc., will be secured by:

(A) The full faith and credit of the borrower when the debt is evidenced by general obligation bonds; and/or

(B) Pledges of taxes or assessments; and/or

(C) Pledges of facility revenue and, when it is the customary financial practice in the State, liens will be taken on the interest of the applicant in all land, easements, rights-of-way, water rights, water purchase contracts, water sales contracts, sewage treatment contracts, and similar property rights, including leasehold interest, used or to be used in connection with the facility whether owned at the time the loan is approved or acquired with loan funds; and/or

(D) In those cases involving water and waste disposal projects where there is a substantial number of other than full-time users and facility costs result in a higher than reasonable rate for such full-time users, the loan will be secured by the full faith and credit of the borrower or by an assignment or pledge of taxes or assessments from public bodies or other organizations having the authority to issue bonds or pledge such taxes or assessments.

(ii) Solid waste systems. The type of security required will be based on State law and what is determined adequate to protect the interest of the United States during the repayment period of the loan.

(iii) Other essential community facilities other than utility type, such as those for public health and safety, social, and cultural needs and the like will meet the following security requirements:

(A) Such loans will be secured by one or a combination of the following and in the following order of preference:

(1) General obligation bonds.

(2) Assessments.

(3) Bonds which pledge other taxes.

(4) Bonds pledging revenues of the facility being financed when such bonds provide for the mandatory levy and collection of taxes in the event revenues later become insufficient to properly operate and maintain the facility and to retire the loan.

(5) Assignment of assured income which will be available for the life of the loan, from such sources as insurance premium rebates, income from endowments, irrevocable trusts, or commitments from industries, public bodies, or other reliable sources.

(6) Liens on real and chattel property when legally permissible and an assignment of the borrowers income from applicants who have been in existence
§ 1942.17

7 CFR Ch. XVIII (1–1–12 Edition)

and are able to present evidence of a financially successful operation of a similar facility for a period of time sufficient to indicate project success. National Office concurrence is required when the applicant has been in existence for less than five years or has not operated on a financially successful basis for five years immediately prior to loan application.

(7) Liens on real and chattel property when legally permissible and an assignment of income from an organization receiving Health and Human Services (HHS) operating grants under the “Memorandum of Understanding Between Health Resources and Services Administration, U.S. Department of Health and Human Services and Farmers Home Administration or its successor agency under Public Law 103–354, U.S. Department of Agriculture” (see FmHA Instruction 2000–T, available in any FmHA or its successor agency under Public Law 103–354 office.)

(8) Liens on real and chattel property when legally permissible and an assignment of income from an organization proposing a facility whose users receive reliable income from programs such as social security, supplemental security income (SSI), retirement plans, long-term insurance annuities, medicare or medicaid. Examples are homes for the handicapped or institutions whose clientele receive State or local government assistance.

(9) When the applicant cannot meet the criteria in paragraph (g)(2)(iii)(A) (1) through (8) of this section, such proposals may be considered when all the following are met:

(i) The applicant is a new organization or one that has not operated the type of facility being proposed.

(ii) There is a demonstration of exceptional community support such as substantial financial contributions, and aggressive leadership in the formation of the organization and proposed project which indicates a commitment of the entire community.

(iii) The State Director has determined that adequate and dependable revenues will be available to meet all operation expenses, debt repayment, and the required reserve.

(iv) Prior National Office review and concurrence is obtained.

(B) Real estate and chattel property taken as security in accordance with paragraphs (g)(2)(iii)(A) (6) through (9) of this section:

(1) Ordinarily will include the property that is used in connection with the facility being financed; and

(2) Will have an as-developed present market value determined by a qualified appraiser equal to or exceeding the amount of the loan to be obtained plus any other indebtedness against the proposed security; and

(3) May have one of the lien requirements deleted when the loan approval official determines that the loan will be adequately secured with a lien on either the real estate or chattel property.

(C) When security is not available in accordance with paragraphs (g)(2)(iii)(A) (1) through (5) of this section and State law precludes securing the loan with liens on real or chattel property, the loan will be secured in the best manner consistent with State law and customary security taken by private lenders in the State, such as revenue bonds, and any other security the loan approval official determines necessary for a sound loan. Such loans will otherwise meet the requirements of (g)(2)(iii)(A) (6) through (9) of this section as appropriate.

(3) Other-than-public bodies. Loans to other-than-public body applicants will be secured as follows:

(i) Utility-type facilities eligible for FmHA or its successor agency under Public Law 103–354 assistance under paragraph (d) of this section such as water and sewer systems, natural gas distribution systems, electric systems, etc., will be secured as follows:

(A) Assignments of borrower income will be taken and perfected by filing, if legally permissible; and

(B) A lien will be taken on the interest of the applicant in all land, easements, rights-of-way, water rights, water purchase contracts, water sales contracts, sewage treatment contracts and similar property rights, including leasehold interest, used, or to be used in connection with the facility whether owned at the time the loan is approved or acquired with loan funds. In unusual
circumstances where it is not feasible to obtain a lien on such land (such as land rights obtained from Federal or local government agencies, and from railroads) and the loan approval official determines that the interest of FmHA or its successor agency under Public Law 103–354 otherwise is secured adequately, the lien requirement may be omitted as to such land rights.

(C) When the loan is approved or the acquisition of real property is subject to an outstanding lien indebtedness, the next highest priority lien obtainable will be taken if the loan approval official determines that the loan is adequately secured.

(D) Other security. Promissory notes from individuals, stock or membership subscription agreements, individuals member’s liability agreements, or other evidences of debt, as well as mortgages or other security instruments encumbering the private property of members of the association may be pledged or assigned to FmHA or its successor agency under Public Law 103–354 as additional security in any case in which the interest of FmHA or its successor agency under Public Law 103–354 will not be otherwise adequately protected.

(E) In those cases where there is a substantial number of other than full-time users and facility costs result in a higher than reasonable rate for such full-time users, the loan will be secured by an assignment or pledge of general obligation bonds, taxes, or assessments from public bodies or other organizations having the authority to issue bonds or pledge such taxes, or assessments.

(ii) Solid waste systems. The type of security required will be based on State law and what is determined adequate to protect the interest of the United States during the repayment period of the loan.

(iii) Essential community facilities other than utility type such as those for public health and safety, social, and cultural needs and the like will meet the following security requirements:

(A) Such loans will be secured by one or a combination of the following and in the following order of preference:

(I) An assignment of assured income that will be available for the life of the loan, from sources such as insurance premium rebates, income from endowments, irrevocable trusts, or commitments from industries, public bodies, or other reliable sources.

(2) Liens on real and chattel property with an assignment of income from applicants who have been in existence and are able to present evidence of a financially successful operation of a similar facility for a period of time sufficient to indicate project success. National Office concurrence is required when the applicant has been in existence for less than five years or has not operated on a financially successful basis for at least the five years immediately prior to loan application.

(3) Liens on real and chattel property and an assignment of income from an organization receiving HHS operating grants under the “Memorandum of Understanding Between Health Resources and Services Administration, U.S. Department of Health and Human Services and Farmers Home Administration or its successor agency under Public Law 103–354, U.S. Department of Agriculture” (see FmHA Instruction 2000–T, available in any FmHA or its successor agency under Public Law 103–354 office).

(4) Liens on real and chattel property when legally permissible and an assignment of income from an organization proposing a facility whose users receive reliable income from programs such as social security, supplemental security income (SSI), retirement plans, long-term insurance annuities, medicare or medicaid. Examples are homes for the handicapped or institutions whose clientele receive State or local government assistance.

(5) When the applicant cannot meet the criteria in paragraphs (g)(3)(ii)(A) through (4) of this section, such proposals may be considered when all the following are met:

(i) The applicant is a new organization or one that has not operated the type of facility being proposed.

(ii) There is a demonstration of exceptional community support such as substantial financial contributions, and aggressive leadership in the formation of the organization and proposed project which indicates a commitment of the entire community.
The State Director has determined that adequate and dependable revenues will be available to meet all operation expenses, debt repayment, and the required reserve.

Prior National Office review and concurrence is obtained.

Additional security may be taken as determined necessary by the loan approval official.

Real estate and chattel property taken as security:

Ordinarily will include the property that is used in connection with the facility being financed; and

Will have an as-developed present market value determined by a qualified appraiser equal to or exceeding the amount of the loan to be obtained plus any other indebtedness against the proposed security; and

May have one of the lien requirements deleted when the loan approval official determines that the loan will be adequately secured with a lien on either the real estate or the chattel property.

Economic feasibility requirements. All projects financed under the provisions of this section must be based on taxes, assessments, revenues, fees, or other satisfactory sources of revenues in an amount sufficient to provide for facility operation and maintenance, a reasonable reserve, and debt payment. An overall review of the applicant’s financial status, including a review of all assets and liabilities, will be a part of the docket review process by the FmHA or its successor agency under Public Law 103–354 staff and approval official. If the primary use of the facility is by business and the success or failure of the facility is dependent on the business, then the economic viability of that business must be assessed. The number of users for a rural business will be based on equivalent dwelling units, which is the level of service provided to a typical rural residential dwelling.

Financial feasibility reports. All applicants will be expected to provide a financial feasibility report prepared by a qualified firm or individual. These financial feasibility reports will normally be:

Included as part of the preliminary engineer/architectural report

using guides 6 through 10 as applicable; or

Prepared by a qualified firm or individual not having a direct interest in the management or construction of the facility using guide 5 when:

The project will significantly affect the applicant’s financial operations and is not a utility-type facility but is dependent on revenues from the facility to repay the loan; or

It is specifically requested by FmHA or its successor agency under Public Law 103–354.

Applicants for loans for utility-type facilities dependent on users fees for debt payment shall base their income and expense forecast on realistic user estimates in accordance with the following:

In estimating the number of users and establishing rates or fees on which the loan will be based for new systems and for extensions or improvements to existing systems, consideration should be given to the following:

An estimated number of maximum initial users should not be used when setting user fees and rates since it may be several years before all residents in the community will need the services provided by the system. In establishing rates a realistic number of initial users should be employed.

User agreements from individual vacant property owners will not be considered when determining project feasibility unless:

The owner has plans to develop the property in a reasonable period of time and become a user of the facility; and

The owner agrees in writing to make a monthly payment at least equal to the proportionate share of debt service attributable to the vacant property until the property is developed and the facility is utilized on a regular basis. A bond or escrowed security deposit must be provided to guarantee this monthly payment and to guarantee an amount at least equal to the owner’s proportionate share of construction costs. If a bond is provided, it must be executed by a surety company that appears on the Treasury Department’s most current list (Circular 570, as amended) and be authorized to transact business in the State where
the project is located. The guarantee shall be payable jointly to the borrower and the Farmers Home Administration or its successor agency under Public Law 103–354; and

(3) Such guarantee shall mature not later than 4 years from the date of execution and will be finally due and payable upon default of a monthly payment or at maturity, unless the property covered by the guarantee has been developed and the facility is being utilized on a regular basis.

(C) Income from other vacant property owners will be considered only as extra income.

(ii) Realistic user estimates will be established as follows:

(A) Meaningful potential user cash contributions. Potential user cash contributions are required except:

(1) For users presently receiving service, or

(2) Where FmHA or its successor agency under Public Law 103–354 determines that the potential users as a whole in the applicant’s service area cannot make cash contributions, or

(3) Where State statutes or local ordinances require mandatory use of the system and the applicant or legal entity having such authority agrees in writing to enforce such statutes or ordinances.

(B) The amount of cash contributions required in paragraph (h)(2)(ii)(A) of this section will be set by the applicant and concurred in by FmHA or its successor agency under Public Law 103–354. Contributions should be an amount high enough to indicate sincere interest on the part of the potential user, but not so high as to preclude service to low income families. Contributions ordinarily should be an amount approximating one year’s minimum user fee, and shall be paid in full before loan closing or commencement of construction, whichever occurs first. Such a program shall include:

(A) An aggressive information program to be carried out during the construction period. The borrower should send written notification to all signed users at least three weeks in advance of the date service will be available, stating the date users will be expected to have their connections completed, and the date user charges will begin.

(B) Positive steps to assure that installation services will be available. These may be provided by the contractor installing the system, local plumbing companies, or local contractors.

(C) Aggressive action to see that all signed users can finance their connections. This might require collection of sufficient user contributions to finance connections. Extreme cases might necessitate additional loan funds for this purpose; however, loan funds should be used only when absolutely necessary and when approved by FmHA or its successor agency under Public Law 103–354 prior to loan closing.

(3) Utility-type facilities for new developing communities or areas. Developers are normally expected to provide utility-type facilities in new or developing areas and such facilities shall be installed in compliance with appropriate State statutes and regulations. FmHA or its successor agency under Public Law 103–354 financing will be considered to an eligible applicant in such
cases when failure to complete development would result in an adverse economic condition for the rural area (not the community being developed); the proposal is necessary to the success of an area development plan; and loan repayment can be assured by:

(i) The applicant already having sufficient assured revenues to repay the loan; or

(ii) Developers providing a bond or escrowed security deposit as a guarantee sufficient to meet expenses attributable to the area in question until a sufficient number of the building sites are occupied and connected to the facility to provide enough revenues to meet operating, maintenance, debt service, and reserve requirements. Such guarantees from developers will meet the requirements in paragraph (h)(2)(i)(B) of this section; or

(iii) Developers paying cash for the increased capital cost and any increased operating expenses until the developing area will support the increased costs; or

(iv) The full faith and credit of a public body where the debt is evidenced by general obligation bonds; or

(v) The loan is to a public body evidenced by a pledge of tax assessments; or

(vi) The user charges can become a tax lien upon the property being served and income from such lien can be collected in sufficient time to be used for its intended purposes.

(1) Reserve requirements. Provision for the accumulation of necessary reserves over a reasonable period of time will be included in the loan documents and in assessments, tax levies, or rates charged for services. In those cases where statutes providing for extinguishing assessment liens of public bodies when properties subject to such liens are sold for delinquent State or local taxes, special reserves will be established and maintained for the protection of the borrower’s assessment lien.

(1) General obligation or special assessment bonds. Ordinarily, the requirements for reserves will be considered to have been met if general obligation or other bonds which pledge the full faith and credit of the political subdivision are used, or special assessment bonds are used, and if such bonds provide for the annual collection of sufficient taxes or assessments to cover debt service, operation and maintenance, and a reasonable amount for emergencies and to offset the possible nonpayment of taxes or assessments by a percentage of the property owners, or a statutory method is provided to prevent the incurrence of a deficiency.

(2) Other than general obligation or special assessment bonds. Each borrower will be required to establish and maintain reserves sufficient to assure that loan installments will be paid on time, for emergency maintenance, for extensions to facilities, and for replacement of short-lived assets which have a useful life significantly less than the repayment period of the loan. It is expected that borrowers issuing bonds or other evidences of debt pledging facility revenues as security will ordinarily plan their reserve to provide for a total reserve in an amount at least equal to one average loan installment. It is also expected the ordinarily such reserve will be accumulated at the rate of at least one-tenth of the total each year until the desired level is reached.

(j) General requirements—(1) Membership authorization. For organizations other than public bodies, the membership will authorize the project and its financing except that the State Director may, with the concurrence of OGC, accept the loan resolution without such membership authorization when State statutes and the organization’s charter and bylaws do not require such authorization; and

(i) The organization is well established and is operating with a sound financial base; or

(ii) For utility-type projects the members of the organization have all signed an enforceable user agreement with a penalty clause and have made the required meaningful user cash contribution, except for members presently receiving service or when State statutes or local ordinances require mandatory use of the facility.

(2) Planning, bidding, contracting, constructing. (See §1942.18).

(3) Insurance and fidelity bonds. The purpose of FmHA or its successor agency under Public Law 103–354’s insurance and fidelity bond requirements is
to protect the government’s financial interest based on the facility financed. The requirements below apply to all types of coverage determined necessary. The National Office may grant exceptions to normal requirements when appropriate justification is provided establishing that it is in the best interest of the applicant/borrower and will not adversely affect the government’s interest.

(i) General. (A) Applicants must provide evidence of adequate insurance and fidelity bond coverage by loan closing or start of construction, whichever occurs first. Adequate coverage in accordance with this section must then be maintained for the life of the loan. It is the responsibility of the applicant/borrower and not that of FmHA or its successor agency under Public Law 103–354 to assure that adequate insurance and fidelity bond coverage is maintained.

(B) Insurance and fidelity bond requirements by FmHA or its successor agency under Public Law 103–354 shall normally not exceed those proposed by the applicant/borrower if the FmHA or its successor agency under Public Law 103–354 loan approval or servicing official determines that proposed coverage is adequate to protect the government’s financial interest. Applicants/borrowers are encouraged to have their attorney, consulting engineer/architect, and/or insurance provider(s) review proposed types and amounts of coverage, including any deductible provisions. If the FmHA or its successor agency under Public Law 103–354 official and the applicant/borrower cannot agree on the acceptability of coverage proposed, a decision will be made by the State Director.

(C) The use of deductibles, i.e., an initial amount of each claim to be paid by the applicant/borrower, may be allowed by FmHA or its successor agency under Public Law 103–354 providing the applicant/borrower has financial resources which would likely be adequate to cover potential claims requiring payment of the deductible.

(D) Borrowers must provide evidence to FmHA or its successor agency under Public Law 103–354 that adequate insurance and fidelity bond coverage is being maintained. This may consist of a listing of policies and coverage amounts in yearend reports submitted with management reports required under §1942.17(q)(2) or other documentation. The borrower is responsible for updating and/or renewing policies or coverage which expire between submissions to FmHA or its successor agency under Public Law 103–354. Any monitoring of insurance and fidelity bond coverage by FmHA or its successor agency under Public Law 103–354 is solely for the benefit of FmHA or its successor agency under Public Law 103–354, and does not relieve the applicant/borrower of its obligation under the loan resolution to maintain such coverage.

(ii) Fidelity bond. Applicants/borrowers will provide fidelity bond coverage for all persons who have access to funds. Coverage may be provided either for all individual positions or persons, or through “blanket” coverage providing protection for all appropriate employees and/or officials. An exception may be granted by the State Director when funds relating to the facility financed are handled by another entity and it is determined that the entity has adequate coverage or the government’s interest would otherwise be adequately protected.

(A) The amount of coverage required by FmHA or its successor agency under Public Law 103–354 will normally approximate the total annual debt service requirements for the FmHA or its successor agency under Public Law 103–354 loans.

(B) Form FmHA or its successor agency under Public Law 103–354 440–24, “Position Fidelity Schedule Bond” may be used. Similar forms may be used if determined acceptable to FmHA or its successor agency under Public Law 103–354. Other types of coverage may be considered acceptable if it is determined by FmHA or its successor agency under Public Law 103–354 that they fulfill essentially the same purpose as a fidelity bond.

(iii) Insurance. The following types of coverage must be maintained in connection with the project if appropriate for the type of project and entity involved:
(A) **Property insurance.** Fire and extended coverage will normally be maintained on all structures except as noted in paragraphs (j)(3)(iii)(A)(1) and (2) below. Ordinarily, FmHA or its successor agency under Public Law 103–354 should be listed as mortgagee on the policy. FmHA or its successor agency under Public Law 103–354 has a lien on the property. Normally, major items of equipment or machinery located in the insured structures must also be covered. Exceptions:

1. Reservoirs, standpipes, elevated tanks, and other structures built entirely of noncombustible materials if such structures are not normally insured.
2. Subsurface lift stations except for the value of electrical and pumping equipment therein.

(B) **Liability and property damage insurance,** including vehicular coverage.

(C) **Malpractice insurance.** The need and requirements for malpractice insurance will be carefully and thoroughly considered in connection with each health care facility financed.

(D) **Flood insurance.** Facilities located in special flood- and mudslide-prone areas must comply with the eligibility and insurance requirements of subpart B of part 1806 of this chapter (FmHA Instruction 426.2).

(E) **Worker’s compensation.** The borrower will carry worker’s compensation insurance for employees in accordance with State laws.

(4) **Acquisition of land, easements, water rights, and existing facilities.** Applicants are responsible for acquisition of all property rights necessary for the project and will determine that prices paid are reasonable and fair. FmHA or its successor agency under Public Law 103–354 may require an appraisal by an independent appraiser or FmHA or its successor agency under Public Law 103–354 employee.

(i) **Title for land, rights-of-way, easements, or existing facilities.** The applicant must certify and provide a legal opinion relative to the title to rights-of-way and easements. Form FmHA or its successor agency under Public Law 103–354 442–21, “Rights-of-Way Certificate,” and Form FmHA or its successor agency under Public Law 103–354 442–22, “Opinion of Counsel Relative to Rights-of-Way,” may be used.

(A) **Rights-of-way and easements.** Applicants are responsible for and will obtain valid, continuous and adequate rights-of-way and easements needed for the construction, operation, and maintenance of the facility. Form FmHA or its successor agency under Public Law 103–354 442–20, “Right-of-Way Easement,” may be used. When a site is for major structures for utility-type facilities such as a reservoir or pumping station and the applicant is able to obtain only a right-of-way or easement on such a site rather than a fee simple title, the applicant will furnish a title report thereon by the applicant’s attorney showing ownership of the land and all mortgages or other liens, restrictions, or encumbrances, if any. It is the responsibility of the applicant to obtain and record such releases, consents or subordinations to such property rights from holders of outstanding liens or other instruments as may be necessary for the construction, operation, and maintenance of the facility and give FmHA or its successor agency under Public Law 103–354 the required security.

(B) **Title for land or existing facilities.** Title to land essential to the successful operation of facilities or title to facilities being purchased, must not contain any restrictions that will adversely affect the suitability, successful operation, security value, or transferability of the facility. Title opinions must be provided by the applicant’s attorney. The opinions must be in sufficient detail to assess marketability of the property. Form FmHA or its successor agency under Public Law 103–354 1927–9, “Preliminary Title Opinion,” and Form FmHA or its successor agency under Public Law 103–354 1927–10, “Final Title Opinion,” may be used to provide the required title opinions. If other forms are used they must be reviewed and approved by FmHA or its successor agency under Public Law 103–354 and OGC.

(i) In lieu of receiving title opinions from the applicant’s attorney, the applicant may use a title insurance company. If a title insurance company is used, the company must provide FmHA or its successor agency under Public
Law 103–354 a title insurance binder, disclosing all title defects or restrictions, and include a commitment to issue a title insurance policy. The policy should be in an amount at least equal to the market value of the property as improved. The title insurance binder and commitment should be provided to FmHA or its successor agency under Public Law 103–354 prior to requesting closing instructions. FmHA or its successor agency under Public Law 103–354 will be provided a title insurance policy which will insure FmHA or its successor agency under Public Law 103–354’s interest in the property without any title defects or restrictions which have not been waived by FmHA or its successor agency under Public Law 103–354.

(2) The loan approval official may waive title defects or restrictions, such as utility easements, that do not adversely affect the suitability, successful operation, security value, or transferability of the facility. If the District Director is the loan approval official and is unable to waive the defect or restriction, the title opinion or title insurance binder will be forwarded to the State Director. If the State Director, with the advice of the OGC, determines that the defect or restriction cannot be waived, the defect or restriction must be removed.

(ii) Water rights. When legally permissible, an assignment will be taken on water rights owned or to be acquired by the applicant. The following will be furnished as applicable:

(A) A statement by the applicant’s attorney regarding the nature of the water rights owned or to be acquired by the applicant (such as conveyance of title, appropriation and decree, application and permit, public notice and appropriation and use).

(B) A copy of a contract with another company or municipality to supply water; or stock certificates in another company which represents the right to receive water.

(iii) Land purchase contract: (A) A land purchase contract (known in some areas as a contract for deed) is an agreement between two or more parties which obligates the purchaser to pay the purchase price, gives the purchaser the rights of immediate possession, control, and beneficial use of the property, and entitles the purchaser to a deed upon paying all or a specified part of the purchase price.

(B) Applicants may obtain land through land purchase contracts when all of the following conditions are met:

(1) The applicant has exhausted all reasonable means of obtaining outright fee simple title to the necessary land.

(2) The applicant cannot obtain the land through condemnation.

(3) There are not other suitable sites available.

(4) National Office concurrence is obtained in accordance with paragraph (j)(4)(iii)(D)(2) of this section.

(C) The land purchase contract must provide for the transfer of ownership by the seller without any restrictions, liens or other title defects. The contract must not contain provisions for future advances (except for taxes, insurance, or other costs needed to protect the security), summary cancellations, summary forfeiture, or other clauses that may jeopardize the Government’s interest or the purchaser’s ability to pay the FmHA or its successor agency under Public Law 103–354 loan. The contract must provide that if the purchaser fails to make payment that FmHA or its successor agency under Public Law 103–354 will be given at least 90 days written notice with an option to cure the default before the contract can be cancelled, terminated or foreclosed. Then FmHA or its successor agency under Public Law 103–354 must have the option of making the payment and charging it to the purchaser’s account, making the payment and taking over the ownership of the purchase contract, or taking any other action necessary to protect the Government’s interest.

(D) Prior to loan closing or the beginning of construction, whichever occurs first, the following actions must be taken in the order listed below:

(1) The land purchase contract and any appropriate title opinions must be reviewed by the Regional Attorney to determine if they are legally sufficient to protect the interest of the Government.

(2) The land purchase contract, the Regional Attorney’s comments, and the State Director’s recommendations
must be submitted to the National Office for concurrence.

(3) The land purchase contract must be recorded.

(5) **Lease agreements.** Where the right of use or control of real property not owned by the applicant/borrower is essential to the successful operation of the facility during the life of the loan, such right will be evidenced by written agreements or contracts between the owner(s) of the property and the applicant/borrower. Lease agreements shall not contain provisions for restricted use of the site of facility, forfeiture or summary cancellation clauses and shall provide for the right to transfer and lease without restriction. Lease agreements will ordinarily be written for a term at least equal to the term of the loan. Such lease contracts or agreements will be approved by the FmHA or its successor agency under Public Law 103–354 loan approval official with the advice and counsel of the Regional Attorney, OGC, as to the legal sufficiency of such documents. A copy of the lease contract or agreement will be included in the loan docket.

(6) **Notes and bonds.** Notes and bonds will be completed on the date of loan closing except for the entry of subsequent multiple advances where applicable. The amount of each note will be in multiples of not less than $100. The amount of each bond will ordinarily be in multiples of not less than $1,000.

(i) Form FmHA or its successor agency under Public Law 103–354 “Promissory Note (Association or Organization),” will ordinarily be used for loans to nonpublic bodies.

(ii) Section 1942.19 contains instructions for preparation of notes and bonds evidencing indebtedness of public bodies.

(7) **Environmental requirements.** Environmental requirements will be documented by FmHA or its successor agency under Public Law 103–354 in accordance with subpart G part 1940 of this chapter. The applicant will provide any information required.

(8) **Health care facilities.** The applicant will be responsible for obtaining the following documents:

(i) A statement from the responsible State agency certifying that the proposed health care facility is not inconsistent with the State Medical Facilities Plan.

(ii) A statement from the responsible State agency or regional office of the Department of Health and Services certifying that the proposed facility meets the standards in §1942.18(d)(4).

(9) **Public information.** Applicants should inform the general public regarding the development of any proposed project. Any applicant not required to obtain authorization by vote of its membership or by public referendum, to incur the obligations of the proposed loan or grant, will hold at least one public information meeting. The public meeting must be held after the preapplication is filed and not later than loan approval. The meeting must give the citizenry an opportunity to become acquainted with the proposed project and to comment on such items as economic and environmental impacts, service area, alternatives to the project, or any other issue identified by FmHA or its successor agency under Public Law 103–354. The applicant will be required, at least 10 days prior to the meeting, to publish a notice of the meeting in a newspaper of general circulation in the service area, to post a public notice at the applicant’s principal office, and to notify FmHA or its successor agency under Public Law 103–354. The applicant will provide FmHA or its successor agency under Public Law 103–354 a copy of the published notice and minutes of the public meeting. A public meeting is not normally required for subsequent loans which are needed to complete the financing of the project.

(10) **Service through individual installation.** Community owned water or waste disposal systems may provide service through individual installations or small clusters of users within the applicant’s service area. When individual installations or small clusters are proposed, the loan approval official should consider items such as: quantity and quality of the individual installations that may be developed; cost effectiveness of the individual facility compared with the initial and long term user cost on a central system; health and pollution problems attributable to individual facilities; operational or
management problems peculiar to individual installations; and permit and regulatory agency requirements.

(i) Applicants providing service through individual facilities must meet the eligibility requirements in §1942.17(b).

(ii) FmHA or its successor agency under Public Law 103–354 must approve the form of agreement between the owner and individual users for the installation, operation and payment for individual facilities.

(iii) If taxes or assessments are not pledged as security, owners providing service through individual facilities must obtain security as necessary to assure collection of any sum the individual user is obligated to pay the owner.

(iv) Notes representing indebtedness owed the owner by a user for an individual facility will be scheduled for payment over a period not to exceed the useful life of the individual facility or the loan, whichever is shorter. The interest rate will not exceed the interest rate charged the owner on the FmHA or its successor agency under Public Law 103–354 indebtedness.

(v) Owners providing service through individual or cluster facilities must obtain:

(A) Easements for the installation and ingress to and egress from the facility; and

(B) An adequate method for denying service in the event of nonpayment of user fees.

(11) Funds from other sources. FmHA or its successor agency under Public Law 103–354 loan funds may be used along with or in connection with funds provided by the applicant or from other sources. Since “matching funds” is not a requirement for FmHA or its successor agency under Public Law 103–354, shared revenues may be used with FmHA or its successor agency under Public Law 103–354 funds for project construction.

(k) Other Federal, State, and local requirements. Each application shall contain the comments, necessary certifications and recommendations of appropriate regulatory or other agency or institution having expertise in the planning, operation, and management of similar facilities. Proposals for facilities financed in whole or in part with FmHA or its successor agency under Public Law 103–354 funds will be coordinated with appropriate Federal, State, and local agencies in accordance with the following:

(1) Compliance with special laws and regulations. Except as provided in paragraph (k)(2) of this section applicants will be required to comply with Federal, State, and local laws and any regulatory commission rules and regulations pertaining to:

(i) Organization of the applicant and its authority to construct, operate, and maintain the proposed facilities;

(ii) Borrowing money, giving security therefore, and raising revenues for the repayment thereof;

(iii) Land use zoning; and

(iv) Health and sanitation standards and design and installation standards unless an exception is granted by FmHA or its successor agency under Public Law 103–354.

(2) Compliance exceptions. If there are conflicts between this subpart and state or local laws or regulatory commission regulations, the provisions of this subpart will control.

(3) State Pollution Control or Environmental Protection Agency Standards. Water and waste disposal facilities will be designed, installed, and operated in such a manner that they will not result in the pollution of water in the State in excess of established standards and that any effluent will conform with appropriate State and Federal Water Pollution Control Standards. A certification from the appropriate State and Federal agencies for water pollution control standards will be obtained showing that established standards are met.

(4) Consistency with other development plans. FmHA or its successor agency under Public Law 103–354 financed facilities will not be inconsistent with any development plans of State, multi-jurisdictional areas, counties, or municipalities in which the proposed project is located.

(5) State agency regulating water rights. Each FmHA or its successor agency under Public Law 103–354 financed facility will be in compliance with appropriate State agency regulations which
have control of the appropriation, diversion, storage and use of water and disposal of excess water. All of the rights of any landowners, appropriators, or users of water from any source will be fully honored in all respects as they may be affected by facilities to be installed.

(6) Civil Rights Act of 1964. All borrowers are subject to, and facilities must be operated in accordance with, title VI of the Civil Rights Act of 1964 and subpart E of part 1901 of this chapter, particularly as it relates to conducting and reporting of compliance reviews. Instruments of conveyance for loans and/or grants subject to the Act must contain the covenant required by §1901.202(e) of subpart E of part 1901 of this chapter.

(7) Title IX of the Education Amendments of 1972. No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving FmHA or its successor agency under Public Law 103–354 financial assistance except as otherwise provided for in the Education Amendments of title IX. The FmHA or its successor agency under Public Law 103–354 State Director will provide guidance and technical assistance to carry out the intent of this paragraph.

(8) Section 504 of the Rehabilitation Act of 1973. Under section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 794), no handicapped individual in the United States shall, solely by reason of their handicap, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving FmHA or its successor agency under Public Law 103–354 financial assistance.

(9) Age Discrimination Act of 1975. This Act provides that no person in the United States shall, on the basis of age, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. This Act also applies to programs or activities funded under the State and Local Fiscal Assistance Act of 1972 (31 U.S.C. 1221 et. seq.). This Act does not apply to: (i) age distinctions contained in Federal, State or local statutes or ordinances adopted by an elected, general purpose legislative body which provide benefits or assistance based on age; (ii) establish criteria for participation in age-related terms; (iii) describe intended beneficiaries or target groups in age-related terms; and, (iv) any employment practice of any employer, employment agency, labor organization, or any labor-management joint apprenticeship training program except for any program or activity receiving Federal financial assistance for public service employment under the Comprehensive Employment and Training Act of 1974 (CETA) (29 U.S.C. 801 et. seq.).

(l) Professional services and contracts related to the facility—(1) Professional services. Applicants will be responsible for providing the services necessary to plan projects including design of facilities, preparation of cost and income estimates, development of proposals for organization and financing, and overall operation and maintenance of the facility. Professional services of the following may be necessary: Engineer, architect, attorney, bond counsel, accountant, auditor, appraiser, and financial advisory or fiscal agent (if desired by applicant). Contracts or other forms of agreement between the applicant and its professional and technical representatives are required and are subject to FmHA or its successor agency under Public Law 103–354 concurrence. Form FmHA or its successor agency under Public Law 103–354 1942–19, “Agreement for Engineering Services,” may be used when appropriate. Guide 20, “Agreement for Engineering Services (FmHA or its successor agency under Public Law 103–354/EPA—Jointly Funded Projects)” may be used on projects jointly funded by FmHA or its successor agency under Public Law 103–354 and EPA. Guide 14 may be used in the preparation of the legal services agreement.

(2) Bond counsel. Unless otherwise provided by §1942.19(b), public bodies are required to obtain the service of recognized bond counsel in the preparation of evidence of indebtedness.

(3) Contracts for other services. Contracts or other forms of agreements for
other services including management, operation, and maintenance will be developed by the applicant and presented to FmHA or its successor agency under Public Law 103–354 for review and approval. Management agreements should provide at least those items in guide 24.

(4) Fees. Fees provided for in contracts or agreements shall be reasonable. They shall be considered to be reasonable if not in excess of those ordinarily charged by the profession for similar work when FmHA or its successor agency under Public Law 103–354 financing is not involved.

(m) Applying for FmHA or its successor agency under Public Law 103–354 loans—

(1) Preapplication. Applicants desiring loans will file SF 424.2 and comments from the appropriate A–95 clearinghouse agency normally with the appropriate FmHA or its successor agency under Public Law 103–354 County Office. The County Supervisor will immediately forward all documents to the District Office. The District Director has prime responsibility for all community program loan making and servicing activities within the District.

(2) Preapplication review. Upon receipt of the preapplication, FmHA or its successor agency under Public Law 103–354 will tentatively determine eligibility including the likelihood of credit elsewhere at reasonable rates and terms and availability of FmHA or its successor agency under Public Law 103–354 County Office. The County Supervisor will immediately forward all documents to the District Office. The District Director has prime responsibility for all community program loan making and servicing activities within the District.

(3) Incurring obligations. Applicants should not proceed with planning nor obligate themselves for expenditures until authorized by FmHA or its successor agency under Public Law 103–354.

(4) Results of preapplication review. After FmHA or its successor agency under Public Law 103–354 has reviewed the preapplication material and any additional material that may be requested, Form AD–622 will be sent to the applicant. Ordinarily the review will not exceed 45 days.

(5) Application conference. Before starting to assemble the application and after the applicant selects its professional and technical representatives, it should arrange with FmHA or its successor agency under Public Law 103–354 for an application conference to provide a basis for orderly application assembly. FmHA or its successor agency under Public Law 103–354 will provide applicants with a list of documents necessary to complete the application. Guide 15 may be used for this purpose. Applications will be filed with the District Office.

(6) Application completion and assembling. This is the responsibility of the applicant with guidance from FmHA or its successor agency under Public Law 103–354. The applicant may utilize their professional and technical representatives or other competent sources.

(7) Review of decision. If an application is rejected, the applicant may request a review of this decision under subpart B of part 1900 of this chapter.

(n) Actions prior to loan closing and start of construction—(1) Excess FmHA or its successor agency under Public Law 103–354 loan and grant funds. If there is a significant reduction in project cost, the applicant’s funding needs will be reassessed before loan closing or the start of construction, whichever occurs first. In such cases applicable FmHA or its successor agency under Public Law 103–354 forms, the letter of conditions, and other items will be revised. Decreases in FmHA or its successor agency under Public Law 103–354 funds will be based on revised project costs and
current number of users, however, other factors including FmHA or its successor agency under Public Law 103–354 regulations used at the time of loan/grant approval will remain the same. Obligated loan or grant funds not needed to complete the proposed project will be deobligated.

(2) Loan resolutions. Loan resolutions will be adopted by both public and other-than-public bodies using Form FmHA or its successor agency under Public Law 103–354 1942–47, “Loan Resolution (Public Bodies),” or Form FmHA or its successor agency under Public Law 103–354 1942–9, “Loan Resolution (Security Agreement).” These resolutions supplement other provisions in this subpart. The applicant will agree:

(i) To indemnify the Government for any payments made or losses suffered by the Government on behalf of the association. Such indemnification shall be payable from the same source of funds pledged to pay the bonds or any other legally permissible source.

(ii) To comply with applicable local, State and Federal laws, regulations, and ordinances.

(iii) To provide for the receipt of adequate revenues to meet the requirements of debt service, operation and maintenance, establishment of adequate reserves, and to continually operate and maintain the facility in good condition. Except for utility-type facilities, free service use may be permitted. If free services are extended no distinctions will be made in the extension of those services because of race, color, religion, sex, national origin, marital status, or physical or mental handicap.

(iv) To acquire and maintain such insurance coverage including fidelity bonds, as may be required by the Government.

(v) To establish and maintain such books and records relating to the operation of the facility and its financial affairs and to provide for required audit thereof in such a manner as may be required by the Government and to provide the Government without its request, a copy of each such audit and to make and forward to the Government such additional information and reports as it may, from time to time, require.

(vi) To provide the Government at all reasonable times, access to all books and records relating to the facility and access to the property of the system so that the Government may ascertain that the association is complying with the provisions hereof and of the instruments incident to the making or insuring of the loan.

(vii) To provide adequate service to all persons within the service area who can feasibly and legally be served and to obtain FmHA or its successor agency under Public Law 103–354’s concurrence prior to refusing new or adequate services to such persons. Upon failure of the applicant to provide services which are feasible and legal, such person shall have a direct right of action against the applicant organization.

(viii) To have prepared on its behalf and to adopt an ordinance or resolution for the issuance of its bonds or notes or other debt instruments or other such items and in such forms as are required by State statutes and as are agreeable and acceptable to the Government.

(ix) To refinance the unpaid balance, in whole or in part, of its debt upon the request of the Government if at any time it should appear to the Government that the association is able to refinance its bonds by obtaining a loan for such purposes from responsible cooperative or private sources at reasonable rates and terms.

(x) To provide for, execute, and comply with Form FmHA or its successor agency under Public Law 103–354 400–4, “Assurance Agreement,” and Form FmHA or its successor agency under Public Law 103–354 400–1, “Equal Opportunity Agreement,” including an “Equal Opportunity Clause,” which is to be incorporated in or attached as a rider to each construction contract and subcontract in excess of $10,000.

(xi) To place the proceeds of the loan on deposit in a manner approved by the Government. Funds may be deposited in institutions insured by the State or Federal Government as invested in readily marketable securities backed by the full faith and credit of the United States. Any income from these accounts will be considered as revenues of the system.
(xii) Not to sell, transfer, lease, or otherwise encumber the facility or any portion thereof or interest therein, and not to permit others to do so, without the prior written consent of the Government.

(xiii) Not to borrow any money from any source, enter into any contract or agreement, or incur any other liabilities in connection with making enlargements, improvements or extensions to, or for any other purpose in connection with the facility (exclusive of normal maintenance) without the prior written consent of the Government if such undertaking would involve the source of funds pledged to repay the debt to FmHA or its successor agency under Public Law 103–354.

(xiv) That upon default in the payments of any principal and accrued interest on the bonds or in the performance of any covenant or agreement contained herein or in the instruments incident to making or insuring the loan, the Government, at its option, may:

(A) Declare the entire principal amount then outstanding and accrued interest, due and payable;

(B) For the account of the association (payable from the source of funds pledged to pay the bonds or notes or any other legally permissible source), incur and pay reasonable expenses for repair, maintenance and operation of the facility and such other reasonable expenses as may be necessary to cure the cause of default; and/or

(C) Take possession of the facility, repair, maintain and operate, or otherwise dispose of the facility. Default under the provisions of the resolution or any instrument incident to the making or insuring of the loan may be construed by the Government to constitute default under any other instrument held by the Government and executed or assumed by the association and default under any such instrument may be construed by the Government to constitute default hereunder.

(3) Interim financing. In all loans exceeding $50,000, where funds can be borrowed at reasonable interest rates on an interim basis from commercial sources for the construction period, such interim financing will be obtained so as to preclude the necessity for multiple advances of FmHA or its successor agency under Public Law 103–354 funds. Guide 1 or guide 1a, as appropriate, may be used to inform the private lender of FmHA or its successor agency under Public Law 103–354’s commitment. When interim commercial financing is used, the application will be processed, including obtaining construction bids, to the stage where the FmHA or its successor agency under Public Law 103–354 loan would normally be closed, that is immediately prior to the start of construction. The FmHA or its successor agency under Public Law 103–354 loan should be closed as soon as possible after the disbursement of all interim funds. Interim financing may be for a fixed term provided the fixed term does not extend beyond the time projected for completion of construction. For this purpose, a fixed term is when the interim lender cannot be repaid prior to the end of the stipulated term of the interim instruments. When an FmHA or its successor agency under Public Law 103–354 Water and Waste Disposal grant is included, any interim financing involving a fixed term must be for the total FmHA or its successor agency under Public Law 103–354 loan amount. Multiple advances may be used in conjunction with interim commercial financing when the applicant is unable to obtain sufficient funds through interim commercial financing in an amount equal to the loan. The FmHA or its successor agency under Public Law 103–354 loan proceeds (including advances) will be used to retire the interim commercial indebtedness. Before the FmHA or its successor agency under Public Law 103–354 loan is closed, the applicant will be required to provide FmHA or its successor agency under Public Law 103–354 with statements from the contractor, engineer, architect, and attorney that they have been paid to date in accordance with their contracts or other agreements and, in the case of the contractor, that any suppliers and subcontractors have been paid. If such statements cannot be obtained, the loan may be closed provided:

(i) Statements to the extent possible are obtained;
(i) The interest of FmHA or its successor agency under Public Law 103–354 can be adequately protected and its security position is not impaired; and

(ii) Adequate provisions are made for handling the unpaid accounts by withholding or escrowing sufficient funds to pay such claims.

(4) Obtaining closing instructions. After loan approval, the completed docket will be reviewed by the State Director. The information required by OGC will be transmitted to OGC with request for closing instructions. Upon receipt of the closing instructions from OGC, the State Director will forward them along with any appropriate instructions to the District Director. Upon receipt of closing instructions, the District Director will discuss with the applicant and its architect or engineer, attorney, and other appropriate representatives, the requirements contained therein and any actions necessary to proceed with closing.

(5) Applicant contribution. An applicant contributing funds toward the project cost shall deposit these funds in its construction account on or before loan closing or start of construction, whichever occurs first. Project costs paid prior to the required deposit time with applicant funds shall be appropriately accounted for.

(6) Evidence of and disbursement of other funds. Applicants expecting funds from other sources for use in completing projects being partially financed with FmHA or its successor agency under Public Law 103–354 funds will present evidence of the commitment of these funds from such other sources. This evidence will be available before loan closing, or the start of construction, whichever occurs first. Ordinarily, the funds provided by the applicant or from other sources will be disbursed prior to the use of FmHA or its successor agency under Public Law 103–354 loan funds. If this is not possible, funds will be disbursed on a pro rata basis. FmHA or its successor agency under Public Law 103–354 funds will not be used to pre-finance funds committed to the project from other sources.

(o) Loan closing—(1) Closing instructions. Loans will be closed in accordance with the closing instructions issued by OGC.

(2) Obtaining insurance and fidelity bonds. Required property insurance policies, liability insurance policies, and fidelity bonds will be obtained by the time of loan closing or start of construction, whichever occurs first.

(3) Distribution of recorded documents. The originals of the recorded deeds, easements, permits, certificates of water rights, leases, or other contracts and similar documents which are not to be held by FmHA or its successor agency under Public Law 103–354 will be returned to the borrower. The original mortgage(s) and water stock certificates, if any, if not required by the recorder’s office will be retained by FmHA or its successor agency under Public Law 103–354.

(4) Review of loan closing. In order to determine that the loan has been properly closed the loan docket will be reviewed by the State Director and OGC.

(p) Project monitoring and fund delivery during construction—(1) Coordination of funding sources. When a project is jointly financed, the State Director will reach any needed agreement or understanding with the representatives of the other source of funds on distribution of responsibilities for handling various aspects of the project. These responsibilities will include supervision of construction, inspections and determinations of compliance with appropriate regulations concerning equal employment opportunities, wage rates, nondiscrimination in making services or benefits available, and environmental compliance. If any problems develop which cannot be resolved locally, complete information should be sent to the National Office for advice.

(2) Multiple advances. In the event interim commercial financing is not legally permissible or not available, multiple advances of FmHA or its successor agency under Public Law 103–354 loan funds are required. An exception to this requirement may be granted by the National Office when a single advance is necessitated by State law or public exigency. Multiple advances will be used only for loans in excess of $50,000. Advances will be made only as needed to cover disbursements required by the borrower over a 30-day period. Advances should not exceed 24 in number nor extend longer than two years.
RHS, RBS, RUS, FSA, USDA § 1942.17

beyond loan closing. Normally, the re-
tained percentage withheld from the
contractor to assure construction com-
pletion will be included in the last ad-
vance.

(i) Section 1942.19 contains instruc-
tions for making multiple advances to
public bodies.

(ii) Advances will be requested by the
borrower in writing. The request
should be in sufficient amounts to pay
cost of construction, rights-of-way and
land, legal, engineering, interest, and
other expenses as needed. The appli-
cant may use Form FmHA or its suc-
cessor agency under Public Law 103–354
440–11, “Estimate of Funds Needed for
30 Day Period Commencing _____,” to
show the amount of funds needed dur-
ing the 30-day period.

(iii) FmHA or its successor agency
under Public Law 103–354 loan funds ob-
ligated for a specific purpose, such as
the paying of interest, but not needed
at the time of loan closing will remain
in the Finance Office until needed un-
less State statutes require all funds to
be delivered to the borrower at the
time of closing. Loan funds may be ad-
vanced to prepay costs under para-
graph (d)(1)(iv)(G) of this section. If all
funds must be delivered to the bor-
rower at the time of closing to comply
with State statutes, funds not needed
at loan closing will be handled as fol-
lows:

(A) Deposited in an appropriate bor-
rower account, such as the debt service
account, or

(B) Deposited in a supervised bank
account under paragraph (p)(3)(i) of
this section.

(3) Use and accountability of funds—(i)
Supervised bank account. FmHA or its
successor agency under Public Law 103–
354 loan funds and any funds furnished
by the applicant/borrower to supple-
ment the loan including contributions
to purchase major items of equipment,
machinery, and furnishings may be de-
posited in a supervised bank account if
determined necessary as provided in
subpart A of part 1902 of this chapter.
When FmHA or its successor agency
under Public Law 103–354 has a Memo-
randum of Understanding with another
agency that provides for the use of su-
upervised bank accounts, or when FmHA
or its successor agency under Public
Law 103–354 is the primary source of
funds for a project and has determined
that the use of a supervised bank ac-
count is necessary, project funds from
other sources may also be deposited in
the supervised bank account. FmHA or
its successor agency under Public Law
103–354 shall not be accountable to the
source of the other funds nor shall
FmHA or its successor agency under
Public Law 103–354 undertake responsi-
bility to administer the funding pro-
gram of the other entity. Supervised
bank accounts should not be used for
funds advanced by an interim lender.

(ii) Other than supervised bank ac-
count. If a supervised bank account is
not used, arrangements will be agreed
upon for the prior concurrence by
FmHA or its successor agency under
Public Law 103–354 of the bills or
vouchers upon which warrants will be
drawn, so that the payments from loan
funds can be controlled and FmHA or
its successor agency under Public Law
103–354 records kept current. If a super-
vised bank account is not used, use
Form FmHA or its successor agency
under Public Law 103–354 402–2, “State-
ment of Deposits and Withdrawals,” or
similar form to monitor funds. Peri-
odic reviews of nonsupervised accounts
shall be made by FmHA or its suc-
cessor agency under Public Law 103–354
at the times and in the manner as
FmHA or its successor agency under
Public Law 103–354 prescribes in the
conditions of loan approval. State laws
regulating the depositories to be used
shall be complied with.

(iii) Use of minority owned banks. Ap-
plicants are encouraged to use minor-
ity banks (a bank which is owned at
least 50 percent by minority group
members) for the deposit and disburse-
ment of funds. A list of minority owned
banks can be obtained from the Office
of Minority Business Enterprise, De-
partment of Commerce, Washington,
DC 20230 and is also available in all
FmHA or its successor agency under
Public Law 103–354 offices.

(4) Development inspections. The Dis-
trict Director will be responsible for
monitoring the construction of all
projects being financed, wholly or in
part, with FmHA or its successor agen-
cy under Public Law 103–354 funds.
Technical assistance will be provided
by the State Director’s staff. Project monitoring will include construction inspections and a review of each project inspection report, each change order and each partial payment estimate and other invoices such as payment for engineering/architectural and legal fees and other materials determined necessary to effectively monitor each project. These activities will not be performed on behalf of the applicant/borrower, but are solely for the benefit of FmHA or its successor agency under Public Law 103–354 and in no way are intended to relieve the applicant/borrower of corresponding obligations to conduct similar monitoring and inspection activities. Project monitoring will include periodic inspections to review partial payment estimates prior to their approval and to review project development in accordance with plans and specifications. Each inspection will be recorded using Form FmHA or its successor agency under Public Law 103–354, “Inspection Report.” The original Form FmHA or its successor agency under Public Law 103–354 1924–12 will be filed in the project case folder and a copy furnished to the State Director. The State Director will review inspection reports and will determine that the project is being effectively monitored. The District Director is authorized to review and accept partial payment estimates prepared by the contractor and approved by the borrower, provided the consulting engineer or architect, if one is being utilized for the project, has approved the estimate and certified that all material purchased or work performed is in accordance with the plans and specifications, or if a consulting engineer or architect is not being utilized, the District Director has determined that the funds requested are for authorized purposes. If there is any indication that construction is not being completed in accordance with the plans and specifications or that any other problems exist, the District Director should notify the State Director immediately and withhold all payments on the contract.

(5) Payment for construction. Each payment for project costs must be approved by the borrower’s governing body. Payment for construction must be for amounts shown on payment estimate forms. Form FmHA or its successor agency under Public Law 103–354 1924–18, “Partial Payment Estimate,” may be used for this purpose or other similar forms may be used with the prior approval of the State Director or designee. However, the State Director or designee cannot require a greater reporting burden than is required by Form FmHA or its successor agency under Public Law 103–354 1924–18. Advances for contract retainage will not be made until such retainage is due and payable under the terms of the contract. The review and acceptance of project costs, including construction partial payment estimates by FmHA or its successor agency under Public Law 103–354, does not attest to the correctness of the amounts, the quantities shown, or that the work has been performed under the terms of agreements or contracts.

(6) Use of remaining funds. Funds remaining after all costs incident to the basic project have been paid or provided for will not include applicant contributions. Applicant contributions will be considered as funds initially expended for the project. Funds remaining, with exception of applicant contributions, may be considered in direct proportion to the amount obtained from each source. Remaining funds will be handled as follows:

(1) Agency loan and/or grant funds. Remaining funds may be used for purposes authorized by paragraph (d) of this section, provided the use will not result in major changes to the facility design or project and that the purposes of the loan and/or grant remains the same.

(A) On projects that only involve an FmHA or its successor agency under Public Law 103–354 loan and no FmHA or its successor agency under Public Law 103–354 grant, all remaining FmHA or its successor agency under
§ 1942.17

RHS, RBS, RUS, FSA, USDA

Public Law 103–354 funds will be considered to be grant funds up to the full amount of the grant. Grant funds not expended under paragraph (p)(6)(i) of this section will be deobligated.

(ii) **Funds from other sources.** Funds remaining from other sources will be handled according to rules, regulations and/or the agreement governing their participation in the project.

(q) **Borrower accounting methods, management reporting and audits**—(1) **Accounting methods and records**—(i) **Method of accounting and financial statements.** Financial statements must be prepared on the accrual basis of accounting unless State statutes or regulatory agencies provide otherwise, or an exception is made by FmHA or its successor agency under Public Law 103–354. This requirement is for accrual basis financial statements and not for accrual basis accounting systems. Organizations may keep their books on an accounting basis other than accrual and then make adjustments so that the financial statements are presented on the accrual basis.

(ii) **Approval requirement.** Before loan closing or start of construction, whichever is first, each borrower shall provide to, and obtain approval from the FmHA or its successor agency under Public Law 103–354 loan approval official for its accounting and financial reporting system, including the agreement with its auditor, if an auditor is required.

(iii) **Record retention.** Each borrower shall retain all records, books, and supporting material for 3 years after the issuance of the audit reports and financial statements. Upon request, this material will be made available to FmHA or its successor agency under Public Law 103–354, the Comptroller General, or to their representatives.

(2) **Management reports.** These reports will furnish the management with a means of evaluating prior decisions and serve as a basis for planning future operations and financial conditions. In those cases where revenues from multiple sources are pledged as security for an FmHA or its successor agency under Public Law 103–354 loans, two reports will be required; one for the project being financed by FmHA or its successor agency under Public Law 103–354 and one combining the entire operation of the borrower. In those cases where FmHA or its successor agency under Public Law 103–354 loans are secured by general obligation bonds or assessments and the borrower combines revenues from all sources, one management report combining all such revenues will suffice. The following management data will be submitted by the borrower to the FmHA or its successor agency under Public Law 103–354 District Director.

(i) **Financial information.** (A) Form FmHA or its successor agency under Public Law 103–354 442–2, “Statement of Budget, Income and Equity,” which includes Schedule 1, “Statement of Budget, Income and Equity” and Schedule 2, “Projected Cash Flow.”

(B) Prior to the beginning of each fiscal year, two copies, with data entered in column three only of Schedule 1, page one, “Annual Budget” and all of Schedule 2, will be submitted to the District Director. Twenty (20) days after the end of each of the first three quarters of each year, two copies with all information furnished on Schedule 1 will be submitted. For the fourth quarter of each year, submit together with the year-end financial requirements of paragraphs (q) (4) and (5) of this section. More frequent submissions may be required by FmHA or its successor agency under Public Law 103–354 when necessary. The submission dates to the District Director will be 90 days following year-end for audited statements and 60 days following year-end for unaudited statements. The fourth quarter submission may serve the dual purpose of management report and year-end financial requirement for Statement of Income.

(ii) **Additional information.** (A) A list of the names and addresses of all members of the governing body as appropriate, also indicating the officers and their terms of office, will be included with the other information required at the end of the year.

(B) Borrowers delinquent on payment to FmHA or its successor agency under Public Law 103–354 or experiencing financial problems, will develop a positive action plan to resolve financial problems. The plan will be reviewed with FmHA or its successor agency
(3) **Substitute for management reports**. When FmHA or its successor agency under Public Law 103–354 loans are secured by the general obligation of the public body or tax assessments which total 100 percent of the debt service requirements, the State Director may authorize an annual audit to substitute for other management reports if the audit is received within 90 days following the period covered by the audit.

(4) **Audits.** All audits are to be performed in accordance with generally accepted government auditing standards (GAGAS), using the publication, “Standards for Audit of Governmental Organizations, Programs, Activities and Functions,” developed by the Comptroller General of the United States in 1981, and any subsequent revisions. In addition, the audits are also to be performed in accordance with various Office of Management and Budget (OMB) Circulars and FmHA or its successor agency under Public Law 103–354 requirements as specified in the separate sections of this subpart.

(i) **Audits based upon Federal financial assistance received.** The following requirements shall apply to audits of the years in which funds are received by the borrower.

(A) **Local governments and Indian tribes.** These organizations are to be audited in accordance with this subpart and OMB Circular A–128, with copies of the audits being forwarded by the borrower to the FmHA or its successor agency under Public Law 103–354 District Director and the appropriate Federal cognizant agency. The Circular is available in any FmHA or its successor agency under Public Law 103–354 office. For years in which an audit is not required by OMB Circular A–128, see paragraph (q)(4)(ii) of this section.

(ii) **Cognizant agency.** (i) “Cognizant agency” means the Federal agency assigned by OMB to carry out the responsibilities described in OMB Circular A–128. Within the Department of Agriculture (USDA), OIG is designated as the cognizant agency.

(ii) **Cognizant agency assignments.** Smaller borrowers not assigned a cognizant agency by OMB should contact the Federal agency that provided the most funds. When USDA is designated as the cognizant agency or when it has been determined by the borrower that FmHA or its successor agency under Public Law 103–354 provided the major portion of Federal financial assistance, the appropriate USDA OIG Regional Inspector General shall be contacted. FmHA or its successor agency under Public Law 103–354 and the borrower shall coordinate all proposed audit plans with appropriate USDA OIG. A list of OIG contact persons is attached to FmHA Instruction 1942–A as exhibit B (available in any FmHA or its successor agency under Public Law 103–354 office).

(ii) **Audit requirements.** It is not intended that audits required by this subpart be separate and apart from audits performed in accordance with State and local laws. To the extent feasible, the audit work should be done in conjunction with those audits.

(i) **Local governments and Indian tribes that receive $100,000 or more a year in Federal financial assistance shall have an audit for that year in accordance with OMB Circular A–128.**

(ii) **Local governments and Indian tribes that receive between $25,000 and $100,000 a year in Federal financial assistance shall have an audit made in accordance with OMB Circular A–128 or in accordance with FmHA or its successor agency under Public Law 103–354 audit requirements. This is an option of the local government or Indian tribe. If the election is made to have an audit performed in accordance with FmHA or its successor agency under Public Law 103–354 requirements, the audit shall be in accordance with paragraph (q)(4)(i)(B) of this section.**

(iii) **Local governments and Indian tribes that receive less then $25,000 a year in Federal financial assistance shall be exempt from both OMB Circular A–128 audits and FmHA or its successor agency under Public Law 103–354 audit requirements, except for those based upon annual gross income which may apply in paragraph (q)(4)(ii) of this section. However, any audits performed shall be governed by the requirements prescribed by State or local law or regulation.**
(iv) Public hospitals and public colleges and universities may be excluded from OMB Circular A–128 audit requirements. However, in this case audits shall be made in accordance with paragraph (q)(4)(i)(B) of this section.

(3) Fraud, abuse, and illegal acts. If the auditor becomes aware of any indication of fraud, abuse, or illegal acts in FmHA or its successor agency under Public Law 103–354 financed projects, prompt written notice shall be given to the appropriate USDA OIG Regional Inspector General and the District Director.

(B) Nonprofit organizations and others. These organizations are to be audited in accordance with FmHA or its successor agency under Public Law 103–354, “Uniform Requirements for Grants to Universities, Hospitals, and Other Nonprofit Organizations.” These requirements also apply to public hospitals and public colleges and universities if they are excluded from the audits of paragraph (q)(4)(i)(A) of this section.

(i) Audits shall be annual unless otherwise prohibited and supplied to the FmHA or its successor agency under Public Law 103–354 District Director as soon as possible but in no case later than 150 days following the period covered by the audit.

(2) Audit requirements. (i) Borrowers which receive $25,000 or more a year in Federal financial assistance shall have an audit. Also, refer to paragraph (q)(4)(ii) of this section for additional audit requirements.

(ii) Borrowers which receive less than $25,000 a year in Federal financial assistance shall be exempt from audits except for the audits based upon annual gross income which may apply in paragraph (q)(4)(ii) of this section.

(iii) Indications of fraud, abuse and illegal acts shall be processed in accordance with paragraph (q)(4)(i)(A)(3) of this section.

(iv) Audits based upon annual gross income. The following annual gross income audit requirements shall apply to all borrowers (local government, Indian tribes, and nonprofit organizations) for all years except the ones in which there is an audit requirement based upon the amount of Federal assistance received as required by paragraphs (q)(4)(i)(A) and (q)(4)(i)(B) of this section. Audits shall be on an annual basis unless otherwise prohibited and shall be supplied to FmHA or its successor agency under Public Law 103–354 as soon as possible but in no case later than 150 days following the period covered by the audit.

(A) Gross annual income of $500,000 or more and an unpaid loan balance exceeding $100,000. (1) Local governments and Indian tribes shall have audits made in accordance with State or local law or regulation or regulatory agency requirements. If no such requirements exist, audits shall be made in accordance with OMB Circular A–110 and paragraphs (q)(4)(i)(B)(1) and (2)(iii) of this section.

(B) Gross annual income of less than $500,000. For borrowers that have a gross annual income of less than $500,000, the requirements for audits shall be at the discretion of the State Director. However, when audits are required, they shall be in accordance with paragraph (q)(4)(i)(A) of this section.

(5) Borrowers exempt from audits. All borrowers who are exempt from audits, will, within 60 days following the end of each fiscal year, furnish the FmHA or its successor agency under Public Law 103–354 annual financial statements, consisting of a verification of the organization’s balance sheet and statement of income and expense by an appropriate official of the organization. Forms FmHA 442–2 and 442–3 may be used. For borrowers using Form FmHA or its successor agency under Public Law 103–354 442–2, the dual purpose of fourth quarter management reports, when required, and annual statements of income will be met with this one submission.

(v) FmHA or its successor agency under Public Law 103–354 actions for borrower supervision and servicing—(1) Management assistance and management reports. Management assistance will be based on such factors as observation of borrower operations and review of the periodic financial reports. The amount and type of assistance provided will be
that needed to assure borrower success and compliance with its agreements with FmHA or its successor agency under Public Law 103–354.

(i) The District Director is responsible for obtaining all management report data from the borrower, promptly reviewing it and making any necessary recommendations to the borrower within 40 calendar days. However, after receiving management reports for borrowers whose FmHA or its successor agency under Public Law 103–354 indebtedness exceeds $1,000,000 and for delinquent and problem case borrowers, the District Director will forward them with comments to the State Director for review.

(ii) District Director reviews of borrower operations. (A) A review of the borrower’s total operational and management practices, including records and accounts to be maintained, will be made between the beginning of the ninth and the end of the eleventh full month of the first year of operation. A report will be made to the State Director by sending a copy of Form FmHA or its successor agency under Public Law 103–354 442–4, “District Director Report.” Earlier reviews will be made when needed to resolve operational and management problems that may arise.

(B) Subsequent reviews will be made for all delinquent and other borrowers having financial problems and reported to the State Director by a copy of Form FmHA or its successor agency under Public Law 103–354 442–4. These borrowers will adopt a positive action plan (see guide 22). The plan will be reviewed quarterly by the District Director until the delinquency is eliminated or other servicing actions are recommended.

(C) The District Director may, after the end of the borrower’s third fiscal year of operation, exempt it from submitting management reports provided it:

1. Is current on its loan payments.
2. Is meeting the conditions of its agreements with FmHA or its successor agency under Public Law 103–354.
3. Has demonstrated its ability to successfully operate and manage the organization and has not obtained subsequent loans in the last 3 years which have significantly altered the scope of the project.

(iv) Has the State Director’s written concurrence for all borrowers whose FmHA or its successor agency under Public Law 103–354 indebtedness exceeds $1,000,000.

(D) Borrowers qualifying for this exemption will still be required to submit a copy of their audits or annual financial statements.

(E) Ordinarily and exception will not be made to the requirement for the borrower to submit a copy of its annual budget.

(F) The District Director or State Director may reinstate the requirements for submission of periodic management reports for those borrowers who became delinquent or otherwise are not carrying out their agreements with FmHA or its successor agency under Public Law 103–354 or require more frequent submission of management reports. This requirement will be reinstated for borrowers receiving a subsequent loan which will significantly alter the scope of the project.

(G) The District Director may accept management reports which are not prepared on page 1 of Form FmHA or its successor agency under Public Law 103–354 442–2 Schedule 1 but contain like information. However, page 2 of this form must be used by all borrowers required to furnish management reports.

(iii) The State Director is responsible for:

(A) The review of the District Director’s submission for all borrowers whose indebtedness exceeds $1,000,000. The State Director will forward comments to the District Director in order that a response, if necessary, can be sent to the borrower within 40 calendar days after the borrower’s submission of its management reports.

(B) The review of all delinquent and problem case borrower management reports. Ordinarily, review findings and instructions regarding further management assistance will be determined, and provided to the District Office within 20 calendar days of submission for delinquent and problem borrowers.

(C) Forwarding to the National Office copies of review findings, instructions for further assistance, and positive action plans on delinquent borrowers and
borrowers experiencing financial problems, at the same time the findings and instructions are provided to the District Office.

(2) Audits and financial statements—(i) The District Director is responsible for obtaining all audit reports and financial statements from the borrower. Those received from borrowers whose FmHA or its successor agency under Public Law 103-354 indebtedness exceeds $1,000,000 and from delinquent and problem case borrowers will be promptly reviewed and forwarded to the State Director with appropriate comments.

(ii) The District Director is responsible for the review of audits and financial statements and for recommendations and instructions for borrower assistance. For borrowers required to have audits, in accordance with paragraph (q)(4)(i)(A) of this section, the District Director is also responsible for any necessary follow up required because of audit resolution items received from the cognizant agencies.

(iii) The State Director is responsible for the review of audits of borrowers whose indebtedness exceeds $1,000,000 and delinquent and problem case borrowers. The State Director may recommend to the District Director any necessary actions to be taken.

(3) Security inspections. A representative of the borrower will ordinarily accompany the District Director during each inspection.

(i) Post construction inspection. The District Director will inspect each facility between the beginning of the ninth and the end of the eleventh full month of the first year of operation. This will normally coincide with the District Director’s review of the borrower’s total operational and management practices described in paragraph (r)(1)(i)(A) of this section. The results of this inspection will be reported to the State Director on Form FmHA or its successor agency under Public Law 103-354 1924-12. Earlier inspections will be made when operational or other problems indicate a need. The State Director will provide guidance to the District Director to assure that action will be taken to correct project deficiencies.

(ii) Subsequent inspections. The District Director will make subsequent inspections of borrower security property and facilities during each third year after the post construction inspection. The results of this inspection will be reported to the State Director on Form FmHA or its successor agency under Public Law 103-354 1924-12.

(iii) Special inspections. The District Director may request, or the State Director may determine, the need for a member of the State staff to make certain security inspections. In such cases, the State Director will determine a staff member to make such inspections.

(iv) Follow-up inspections. If any inspection discloses deficiencies or exceptions, or otherwise indicates a need for subsequent inspections prior to the third year, the State Director will prescribe the type and frequency of follow-up inspections. These inspections will be made until all deficiencies and exceptions have been corrected.

(4) Civil rights compliance reviews will be performed under subpart E of part 1901 of this chapter for the life of the loan.

(5) Other loan servicing actions will be in accordance with subparts E and O of part 1951 of this chapter.

[50 FR 7296, Feb. 22, 1985]

EDITORIAL NOTE: For Federal Register citations affecting §1942.17, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and at www.fdsys.gov.
