§ 78.12 Cattle from quarantined areas.

Notwithstanding any provisions in the regulations to the contrary, cattle may be moved interstate from a quarantined area only in accordance with §78.10 and this section.

(a) Steers and spayed heifers. Steers and spayed heifers may be moved interstate without restriction under this section.

(b) Brucellosis reactor cattle. Brucellosis reactor cattle may be moved interstate in accordance with §78.7.

(c) Brucellosis exposed cattle. Brucellosis exposed cattle may be moved interstate in accordance with §78.8(a) or (b).

(d) Movement from qualified herds. Cattle from qualified herds in any quarantined area may be moved interstate only as follows:

(1) Movement to recognized slaughtering establishments. (i) Cattle from qualified herds in a quarantined area may be moved interstate from a farm of origin directly to a recognized slaughtering establishment or directly to a specifically approved stockyard and then directly to a recognized slaughtering establishment if they are negative to an official test within 30 days prior to such interstate movement and are accompanied by a certificate or "S" brand permit which states, in addition to the items specified in §78.1, the test dates and results of the official tests; or

(ii) Cattle from qualified herds in a quarantined area may be moved interstate from a farm of origin directly to an approved intermediate handling facility and then directly to a recognized slaughtering establishment or directly to an approved intermediate handling facility and then directly to a quarantined feedlot and then directly to a recognized slaughtering establishment if they are negative to an official test within 30 days prior to such interstate movement and are accompanied by an "S" brand permit which states, in addition to the items specified in §78.1, the test dates and results of the official tests; or

(iii) Cattle from qualified herds in a quarantined area may be moved interstate from a farm of origin directly to a specifically approved stockyard and then directly to an approved intermediate handling facility and then directly to a recognized slaughtering establishment if they are negative to an official test within 30 days prior to such interstate movement and are accompanied by a permit or "S" brand permit which states, in addition to the items specified in §78.1, the test dates and results of the official tests; or

(iv) Cattle from qualified herds in a quarantined area may be moved interstate in accordance with §78.8(a).

(2) Movement to quarantined feedlots. (i) Cattle from qualified herds in a quarantined area may be moved interstate from a farm of origin directly to a quarantined feedlot, or directly to a specifically approved stockyard and then directly to a quarantined feedlot, or directly to an approved intermediate handling facility and then directly to a quarantined feedlot if the cattle are negative to an official test within 30 days prior to such interstate movement and are accompanied by a certificate which states, in addition to the
§ 78.22 Brucellosis reactor bison.

(a) Destination. Brucellosis reactor bison may be moved interstate only for immediate slaughter as follows:

(1) Directly to a recognized slaughtering establishment;

(2) The bull is identified with an official ear tag or any other official identification device or method approved by the Administrator;

(3) There is no change of ownership since the date of the last official test;

(4) A certificate accompanies each interstate movement of the bull, and

(5) A permit for entry is issued for each interstate movement of the bull.
