§ 327.17
within the class eligible to be imported under this paragraph.
[54 FR 41048, Oct. 5, 1989]

§ 327.17 Returned U.S. inspected and marked products.
U.S. inspected and passed and so marked products exported to and returned from foreign countries will be admitted into the United States without compliance with this part upon notification to and approval of the Deputy Administrator, International Programs, Food Safety and Inspection Service, U.S. Department of Agriculture, Washington, DC 20250, in specific cases.

§ 327.18 Products offered for entry and entered to be handled and transported as domestic; exception.
(a) All products, after entry into the United States, shall be deemed and treated as domestic products and shall be subject to the applicable provisions of the Act and the regulations in this subchapter and the applicable requirements under the Federal Food, Drug and Cosmetic Act, except that products imported under §327.16 are required to comply only with the requirements of that Act and §327.16 of this subchapter.
(b) Products entered in accordance with this part may, subject to the provisions of part 318 of this subchapter, be taken into official establishments and be mixed with or added to any product in such establishments which has been inspected and passed therein.
(c) Imported product which has been inspected, passed, and marked under this part may be transported in the course of importation or subsequently in commerce only upon compliance with part 325 of this subchapter.

§ 327.19 Specimens for laboratory examination and similar purposes.
The provisions in this part do not apply to specimens of products for laboratory examination, research, or similar purposes when authorized importation by the Administrator under conditions specified by him in specific cases, including requirements of denaturing or other identification to deter their use for human food. Authorization will not be given for the importation of any products contrary to the provisions of part 94 of this chapter.

§ 327.21 Inspection procedures for chilled fresh and frozen boneless manufacturing meat.
(a) Definitions; sampling; standards. (1) Frozen boneless manufacturing meat is meat, frozen in the fresh state from cattle, sheep, swine, goats, horses, mules, or other equines that has all bone removed and is cut into pieces or trimmings, frozen into a compact block of any shape and suitable for slicing or chopping in the manufacturing of meat food products. As used in this section, the term “frozen” includes “chilled fresh,” and “lot” means any amount of frozen boneless manufacturing meat of one species, similarly packaged, shipped from one establishment, and offered for import inspection under one or more foreign inspection certificates.
(2) Imported frozen boneless manufacturing meat shall be sampled as required by §327.6(a) of this part, and the samples defrosted for inspection. The Program Import inspector, or in the case of Canadian product subject to procedures described in §327.5(d)(1), the Canadian representative will select from a lot the appropriate number of cartons specified by the table of sampling plans. The total sample for inspection will consist of the necessary number of 12-pound units drawn from these cartons. The 12-pound units selected will be completely defrosted and examined.
(b) Lots refused entry. Reinspection (including resampling) will be provided
