§ 158.17  Project eligibility at PFC levels of $4 or $4.50.

(a) A project for any airport is eligible for PFC funding at levels of $4 or $4.50 if—

(1) The project meets the eligibility requirements of §158.15;
(2) The project costs requested for collection at $4 or $4.50 cannot be paid for from funds reasonably expected to be available for the programs referred to in 49 U.S.C. 48103; and
(3) In the case of a surface transportation or terminal project, the public agency has made adequate provision for financing the airside needs of the airport, including runways, taxiways, aprons, and aircraft gates.

(b) In addition, a project for a medium or large airport is only eligible for PFC funding at levels of $4 or $4.50 if the project will make a significant contribution to improving air safety and security, increasing competition among air carriers, reducing current or anticipated congestion, or reducing the impact of aviation noise on people living near the airport.

§ 158.18  Use of PFC revenue to pay for debt service for non-eligible projects.

(a) The FAA may authorize a public agency to impose a PFC to make payments for debt service on indebtedness incurred to carry out at the airport a project that is not eligible if the FAA determines it is necessary because of the financial need of the airport. The FAA defines financial need in §158.3.

(b) A public agency may request authority to impose a PFC and use PFC revenue under this section using the PFC application procedures in §158.25. The public agency must document its financial position and explain its financial recovery plan that uses all available resources.

(c) The FAA reviews the application using the procedures in §158.27. The FAA will issue its decision on the public agency’s request under §158.29.
