§ 305.5 Determinations of estimated annual energy consumption, estimated annual operating cost, and energy efficiency rating, and of water use rate.

(a) Procedures for determining the estimated annual energy consumption, estimated annual operating cost, and energy efficiency rating, and of water use rate, of any covered products that were manufactured prior to May 19, 1980; any catalog or point-of-sale printed material pertaining to any central air conditioners or pulse combustion or condensing furnaces manufactured prior to June 7, 1988; any catalog or point-of-sale printed material pertaining to any fluorescent lamp ballasts manufactured prior to June 23, 1989; any catalog or point-of-sale printed material pertaining to any showerheads, faucets, water closets, or urinals manufactured prior to October 24, 1994; any catalog or point-of-sale printed material pertaining to any pool heaters, instantaneous water heaters, or heat pump water heaters manufactured prior to December 29, 1994; or any catalog or point-of-sale printed material pertaining to any general service fluorescent lamp, medium base compact fluorescent lamp, or general service incandescent lamp (including incandescent reflector lamps), if its manufacture was completed prior to May 15, 1995; except that any representations respecting the energy consumption, energy efficiency, or water use of any covered product or other consumer appliance product, or respecting the cost of energy consumed or water used by such product, are subject to the requirements of paragraph (d) of this section.

(4) Televisions manufactured before May 10, 2011.

(f) As used in paragraphs (a) and (b) of this section, the term *knowingly* means:

(1) The having of actual knowledge, or

(2) The presumed having of knowledge deemed to be possessed by a reasonable person who acts in the circumstances, including knowledge obtainable upon the exercise of due care.

the estimated annual operating costs, the energy efficiency ratings, and the efficacy factors of the following covered products are those located in 10 CFR part 430, subpart B. For the following list of covered products, the requirements of this part apply only to products for which the Department of Energy has adopted and published test procedures for measuring energy usage or efficiency.

(1) Refrigerators and refrigerator-freezers—§ 430.23(a).
(2) Freezers—§ 430.23(b).
(3) Dishwashers—§ 430.23(c).
(4) Water heaters—§ 430.23(e).
(5) Room air conditioners—§ 430.23(f).
(6) Clothes washers—§ 430.23(j).
(7) Central air conditioners and heat pumps—§ 430.23(m).
(8) Furnaces—§ 430.23(n).
(9) Pool Heaters—§ 430.23(p).
(10) Fluorescent lamp ballasts—§ 430.23(q).
(11) Ceiling Fans—§ 430.23.
(12) General Service Incandescent Lamps—§ 305.5.
(13) General Service Incandescent Lamps—§ 430.23(r).
(14) Medium Base Compact Fluorescent Lamps—§ 430.23(y).

(b) Unless otherwise provided in paragraph (a) of this section or § 305.8, manufacturers and private labelers of any covered product that is a general service fluorescent lamp, general service lamp, or metal halide lamp fixture, must, for any representation required by this Part including but not limited to the design voltage, wattage, energy cost, light output, life, correlated color temperature, or color rendering index of such lamp or for any representation made by the encircled “E” that such a lamp is in compliance with an applicable standard established by section 325 of the Act, possess and rely upon a reasonable basis consisting of competent and reliable scientific tests substantiating the representation. For representations of the light output and life ratings of any covered product that is a general service lamp, unless otherwise provided by paragraph (a), the Commission will accept as a reasonable basis scientific tests conducted according to the following applicable IES test protocols that substantiate the representations:

(c) Procedures for determining the water use rates of covered products are those found in the following standards:

(1) Showerheads and faucets—ASME A112.18.1M–1989, Plumbing Fixture Fittings. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies of ASME A112.18.1M may be obtained from the American Society of Mechanical Engineers, 345 East 47th Street, New York, NY 10017, or may be inspected at the Federal Trade Commission, room 130, 600 Pennsylvania Avenue, NW., Washington, DC, or at the National Archives and Records Administration (NARA). For information on the availability of this material at NARA, call 202-741-6030, or go to: http://www.archives.gov/federal_register/code_of_federal_regulations/ibr_locations.html.

(2) Water closets and urinals—ASME A112.19.2M–1990, Vitreous China Plumbing Fixtures. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies of ASME A112.19.2M may be obtained from the American Society of Mechanical Engineers, 345 East 47th Street, New York, NY 10017, or may be inspected at the Federal Trade Commission, room 130, 600 Pennsylvania Avenue, NW., Washington, DC, or at the National Archives and Records Administration (NARA). For information
on the availability of this material at NARA, call 202–741–6030, or go to: http://www.archives.gov/federal_register/code_of_federal_regulations/ibr_locations.html.

(d) Determinations of estimated annual energy consumption and the estimated annual operating (energy) costs of televisions must be based on the procedures contained in the ENERGY STAR Version 4.2 test, which is comprised of the ENERGY STAR Program Requirements, Product Specification for Televisions, Eligibility Criteria Version 4.2 (Adopted April 30, 2010); the Test Method (Revised Aug–2010); and the CEA Procedure for DAM Testing: For TVs, Revision 0.3 (Sept. 8, 2010). Annual energy consumption and cost estimates must be derived assuming 5 hours in on mode and 19 hours in sleep (standby) mode per day. These ENERGY STAR requirements are incorporated by reference into this section. The Director of the Federal Register has approved these incorporations by reference in accordace with 5 U.S.C. 552(a) and 1 CFR part 51. Copies of the test procedure may be inspected or obtained at the United States Environmental Protection Agency, ENERGY STAR Hotline (6202J), 1200 Pennsylvania Avenue, NW., Washington, DC 20460, or at http://www.energystar.gov/ia/partners/product_specs/product_reqs/Televisions_Program_Requirements.pdf [Telephone: ENERGY STAR Hotline: 1–888–782–7957]; at the Federal Trade Commission, Consumer Response Center, Room 130, 600 Pennsylvania Avenue, NW., Washington, DC 20580 [Telephone: 1–202–326–2830]; and at the National Archives and Records Administration, at http://www.archives.gov/federal_register/ibr_locations.html [Telephone: 1–202–741–6030].

§ 305.7 Determinations of capacity.

The capacity of covered products shall be determined as follows:

(a) Refrigerators and refrigerator-freezers. The capacity shall be the total refrigerated volume (VT) and the adjusted total volume (AV) in cubic feet, rounded to the nearest one-tenth of a cubic foot, as determined according to appendix A1 to 10 CFR part 430, subpart B.

(b) Freezers. The capacity shall be the total refrigerated volume (VT) and the adjusted total volume (AV) in cubic feet, rounded to the nearest one-tenth of a cubic foot, as determined according to appendix B1 to 10 CFR part 430, subpart B.

(c) Dishwashers. The capacity shall be the place-setting capacity, determined according to appendix C to 10 CFR part 430, subpart B.

(d) Water heaters. The capacity shall be the first hour rating, as determined according to appendix E to 10 CFR part 430, subpart B.

(e) Pool heaters. The capacity shall be the heating capacity in Btu’s per hour, rounded to the nearest 1,000 Btu’s per hour, as determined according to appendix P to 10 CFR part 430, subpart B.

(f) Room air conditioners. The capacity shall be the cooling capacity in Btu’s per hour, as determined according to appendix P to 10 CFR part 430, subpart B, but rounded to the nearest value
