§ 149.1 Definitions.

For shipments other than foreign cargo remaining on board (FROB), immediate exportation (IE) and transportation and exportation (T&E) in-bond shipments, and goods to be delivered to a foreign trade zone (FTZ), the ISF Importer will be the goods’ owner, purchaser, consignee, or agent such as a licensed customs broker. For FROB cargo, the ISF Importer will be the carrier. For IE and T&E in-bond shipments, and goods to be delivered to an FTZ, the ISF Importer will be the party filing the IE, T&E, or FTZ documentation.

(b) *Importation.* For purposes of this part, “importation” means the point at which cargo arrives within the limits of a port in the United States.

(c) *Bulk cargo.* For purposes of this part, “bulk cargo” is defined as homogeneous cargo that is stowed loose in the hold and is not enclosed in any container such as a box, bale, bag, cask, or the like. Such cargo is also described as bulk freight. Specifically, bulk cargo is composed of either:

(1) Free flowing articles such as oil, grain, coal, ore, and the like, which can be pumped or run through a chute or handled by dumping; or

(2) Articles that require mechanical handling such as bricks, pig iron, lumber, steel beams, and the like.

(d) *Break bulk cargo.* For purposes of this part, “break bulk cargo” is defined as cargo that is not containerized, but which is otherwise packaged or bundled.

§ 149.2 Importer security filing—requirement, time of transmission, verification of information, update, withdrawal, compliance date.

(4) The data elements required under § 149.3(b) of this part for FROB, prior to lading aboard the vessel at the foreign port.

(c) *Verification of information.* Where the party electronically presenting to CBP the Importer Security Filing required in paragraph (a) of this section receives any of this information from

another party, CBP will take into consideration how, in accordance with ordinary commercial practices, the presenting party acquired such information, and whether and how the presenting party is able to verify this information. Where the presenting party is not reasonably able to verify such information, CBP will permit the party to electronically present the information on the basis of what the party reasonably believes to be true.

(d) *Update of Importer Security Filing.* The party who submitted the Importer Security Filing pursuant to paragraph (a) of this section must update the filing if, after the filing is submitted and before the goods enter the limits of a port in the United States, any of the information submitted changes or more accurate information becomes available.

(e) *Withdrawal of Importer Security Filing.* If, after an Importer Security Filing is submitted pursuant to paragraph (a) of this section, the goods associated with the Importer Security Filing are no longer intended to be imported to the United States, the party who submitted the Importer Security Filing must withdraw the Importer Security Filing and transmit to CBP the reason for such withdrawal.

(f) *Flexible requirements.* For each of the four data elements required under paragraph (b)(2) of this section ISF Importers will be permitted to submit an initial response or responses based on the best available data available at the time that, in accordance with paragraph (d) of this section, ISF Importers will be required to update as soon as more precise or more accurate information is available, in no event less than 24 hours prior to arrival at a U.S. port (or upon lading at a foreign port that is less than a 24 hour voyage to the closest U.S. port).

(2) *Delay in compliance date of section.* CBP may, at its sole discretion, delay the general compliance date set forth in paragraph (g)(1) of this section in the event that any necessary modifications to the approved electronic data

interchange system are not yet in place or for any other reason. Notice of any such delay will be provided in the FEDERAL REGISTER.
