§ 206.7 Confidential business information; furnishing of nonconfidential summaries thereof.

(a) Nonrelease of information. Except as provided for in §206.17, in the case of an investigation under subpart B, C, D, F, or G of this part or an investigation under section 422 of the Trade Act and subpart E of this part, the Commission will not release information which the Commission considers to be confidential business information unless the party submitting the confidential business information had notice, at the time of submission, that such information would be released by the Commission, or such party subsequently consents to the release of the information. When appropriate, the Commission will include confidential business information in reports transmitted to the President and the Trade Representative; such reports will be marked as containing confidential business information, and a nonconfidential version of such report will be made available to the public.

(b) Nonconfidential summaries. Except as the Commission may otherwise provide, a party submitting confidential business information shall also submit a nonconfidential summary of the information. If a party indicates that the confidential business information cannot be summarized, it shall state in writing the reasons why a summary cannot be provided. If the Commission finds that a request for confidentiality is not warranted and if the party concerned is either unwilling to make the information public or to authorize its disclosure in generalized or summarized form, the Commission may disregard the submission.

§ 206.8 Service, filing, and certification of documents.

(a) Certification. Any person submitting factual information on behalf of the petitioner or any other interested party for the consideration of the Commission in the course of an investigation to which this part pertains, and any person submitting a response to a Commission questionnaire issued in connection with an investigation to which this part pertains, must certify that such information is accurate and complete to the best of the submitter’s knowledge.
