§ 360.104 Steel import surge monitoring.

(a) Throughout the duration of the licensing requirement, Commerce will maintain an import monitoring system on the SIMA system Web site that will report certain aggregate information on imports of steel mill products obtained from the steel licenses. Aggregate data will be reported on a monthly basis by country of origin and steel mill product category and will include import quantity (metric tons), import Customs value (U.S. $), and average unit value ($/metric ton). The Web site will also contain certain aggregate data at the 6-digit Harmonized Tariff Schedule level and will also present a range of historical data for comparison purposes. Provision of this aggregate data on the Web site may be revisited should concerns arise over the possible release of proprietary data.

(b) Reported monthly import data will be refreshed each week with new data on licenses issued during the previous week. This data will also be adjusted periodically for cancelled or unused steel import licenses, as appropriate.

§ 360.105 Duration of the steel import licensing requirement.

The licensing program will be in effect through March 21, 2017, but may be extended upon review and notification in the Federal Register prior to this expiration date. Licenses will be required on all subject imports entered during this period, even if the entry summary documents are not filed until after the expiration of this program. The licenses will be valid for 10 business days after the expiration of this program to allow for the final filing of required Customs documentation.

78 FR 11092, Feb. 15, 2013

§ 360.106 Fees.

No fees will be charged for obtaining a user identification number, issuing a steel import license or accessing the steel import surge monitoring system.

§ 360.107 Hours of operation.

The automatic licensing system will generally be accessible 24 hours a day, 7 days a week but may be unavailable at selected times for server maintenance. If the system is unavailable for an extended period of time, parties will be able to obtain licenses from Commerce directly via fax during regular business hours. Should the system be inaccessible for an extended period of time, Commerce would advise Customs to consider this as part of mitigation on any liquidated damage claims that may be issued.
