§ 228.21 Entitlement as a spouse or divorced spouse and as a survivor.

If an individual is entitled to both a spouse or divorced spouse and survivor annuity, only the larger annuity will be paid. However, if the individual so chooses, he or she may receive the smaller annuity rather than the larger annuity.

§ 228.22 Entitlement to more than one survivor annuity.

If an individual is entitled to more than one survivor annuity, only the larger annuity will be paid. However, if the individual so chooses, he or she may receive the smaller annuity rather than the larger annuity.

§ 228.23 Priority of reductions.

The tier I component of the survivor annuity is first reduced by the family maximum, if applicable, then any applicable age reduction, then by any public pension offset, then by any social security benefit payable, then by the tier I component of any employee annuity payable to the survivor annuitant.

§ 228.40 Cost of living increase applicable to the tier I annuity component.

The tier I annuity component of a survivor annuity is increased at the same time and by the same percentage as the increase provided for under section 215(i) of the Social Security Act. The amount of the increase is published in the Federal Register annually. The cost-of-living increase is payable beginning with the benefit for the month of December of the year for which the increase is due. The increase is paid in the January payment.

Subpart C—The Tier II Annuity Component

§ 228.50 Tier II annuity component—widow(er), child, or parent.

(a) General. The tier II annuity component is an additional amount payable to a widow(er), disabled widow(er), child, or parent, but not to a surviving divorced spouse or remarried widow(er), and a parent as provided in paragraph (b)(2) of this section, based on the railroad employee’s earnings in the railroad industry. Unlike the tier I annuity component, it is not reduced for any other social insurance benefit except a railroad retirement annuity. See §§228.20–228.23 of this part.

(b) Amount of the tier II annuity component—(1) Widow(er) or disabled widow(er). The amount of a widow(er)’s or disabled widow(er)’s tier II annuity component is 50 percent of the amount of the employee’s tier II which would have been payable in the month in which the widow became entitled had the employee been alive and in receipt of an annuity under the Railroad Retirement Act at that time.

(2) Parent. The amount of a parent’s tier II annuity component is 35 percent of the amount of the employee’s tier II annuity component which would have been payable in the month in which the parent became entitled had the employee been alive and in receipt of an annuity under the Railroad Retirement Act at that time. However, if another survivor is entitled, or potentially entitled, to a tier II annuity component, the parent tier II annuity component is zero.

(c) Child. The amount of each child’s tier II annuity component is 15 percent of the employee’s tier II annuity component which would have been payable in the month in which the child became entitled had the employee been alive and in receipt of an annuity under the Railroad Retirement Act at that time.

(d) Minimum tier II survivor annuity components. If the total tier II annuity components payable to survivors is less than 35 percent of the employee’s tier II annuity component which would have been payable in the month the survivors became entitled had the employee been alive and in receipt of an annuity under the Railroad Retirement Act at that time, the individual tier II annuity components computed in paragraph (b) of this section shall be increased proportionally so that the total of all such tier II annuity components equals 35 percent of the employee’s tier II annuity component.
§ 228.53 Spouse minimum guarantee.

The Railroad Retirement Act provides that a spouse should receive no less as a widow(er) than he or she received as a spouse. However, if the widow(er) becomes entitled to a social security benefit, thus reducing his or her annuity, the spouse minimum guarantee is payable only to the extent

§ 228.51 Takeback amount.

(a) The 1983 amendments to the Railroad Retirement Act provided that a portion of the cost-of-living increases payable on the tier I annuity component be offset from the amount of the tier II annuity. This amount is the takeback amount. The amount of the takeback and its application depends on the employee and survivor’s annuity beginning dates.

(b)(1) The tier II takeback amount for survivors whose annuity beginning date is January 1, 1984 or later is usually the amount of the employee’s takeback amount. That amount is equal to 5 percent of the employee’s primary insurance amount, less all applicable reductions (net tier I), on November 1, 1983. However, if the employee’s annuity was reduced for a social security benefit but the survivor’s annuity is not, the takeback amount is the amount the employee’s annuity would have been reduced for the takeback if the employee’s annuity had not been reduced for a social security benefit. If the employee’s annuity had not been tiered or was being paid under the overall minimum, the Board will compute the amount of the tier II takeback that would have been applicable to the employee’s annuity.

(2) The tier II takeback amount for survivors whose annuity beginning date is before January 1, 1984 is equal to 5 percent of the survivor’s net tier I annuity component, before deduction on account of work, on November 1, 1983.

(3) The tier II takeback will be applied in accord with the above paragraphs in any case where the employee died or retired before January 1, 1984. If the employee died or retires after December 31, 1983, or the employee never retired and dies after December 31, 1993, no takeback will be applied to the survivor’s annuity.

(c) No takeback is applied if the survivor tier II annuity amount before the takeback is applied is $10.00 or less and cost-of-living increases have not increased the tier II annuity amount to more than $10.00 (the takeback may never reduce the tier II to an amount less than $10.00).

§ 228.52 Restored amount.

(a) General. A restored amount is added to the tier II annuity component of a widow(er)’s annuity whose annuity is reduced for receipt of an employee annuity under the Railroad Retirement Act provided either the employee or the widow(er) had ten years of creditable railroad service prior to January 1, 1975.

(b) Amount. The amount of the tier II restored amount for a widow(er) is the difference between the amount payable as a widow(er) under the Railroad Retirement Act of 1937 as increased by all annual social security cost-of-living percentage increases from January 1, 1975, until the later of the annuity beginning date of either the employee’s annuity or the widow(er)’s annuity and the amount payable to the widow(er) under the Railroad Retirement Act of 1974 under the rules set forth in this part.

(c) Widower. In order to qualify for an annuity under the 1937 Act and thus for a restored amount, a widower must have been dependent on his spouse for at least 50 percent of his support in the year prior to her death or at the time the spouse’s annuity began.

§ 228.53 Spouse minimum guarantee.

The Railroad Retirement Act provides that a spouse should receive no less as a widow(er) than he or she received as a spouse. However, if the widow(er) becomes entitled to a social security benefit, thus reducing his or her annuity, the spouse minimum guarantee is payable only to the extent
