Food and Drug Administration, HHS

§524.981c Fluocinolone acetonide ophthalmic solutions.

(a) Specifications. The drug contains 0.01 percent fluocinolone acetonide in propylene glycol with citric acid.

(b) Sponsor. See No. 099207 in §510.600(c) of this chapter.

(c) Conditions of use. (1) The drug is intended for the relief of pruritus and inflammation associated with otitis externa and certain superficial acute and chronic dermatoses in dogs and cats.

(2) A small amount is applied to the affected area 2 or 3 times daily.

(3) Federal law restricts this drug to use by or on the order of a licensed veterinarian.
