§ 123.11 Movements of vessels and aircraft covered by the U.S. Munitions List outside the United States.

(a) A license issued by the Directorate of Defense Trade Controls is required whenever a privately-owned aircraft or vessel on the U.S. Munitions List makes a voyage outside the United States.

(b) Exemption. An export license is not required when a vessel or aircraft referred to in paragraph (a) of this section departs from the United States and does not enter the territorial waters or airspace of a foreign country if no defense articles are carried as cargo. Such a vessel or aircraft may not enter the territorial waters or airspace of a foreign country before returning to the United States, or carry as cargo any defense article, without a temporary export license (Form DSP–73) from the Department of State. (See §123.5.)

§ 123.12 Shipments between U.S. possessions.

An export license is not required for the shipment of defense articles between the United States, the Commonwealth of Puerto Rico, and U.S. possessions. A license is required, however, for the export of defense articles from these areas to foreign countries.

§ 123.13 Domestic aircraft shipments via a foreign country.

A license is not required for the shipment by air of a defense article from one location in the United States to another location in the United States via a foreign country. The pilot of the aircraft must, however, file a written statement with the Port Director of U.S. Customs and Border Protection at the port of exit in the United States. The original statement must be filed at the time of exit with the Port Director.
