Plan. A Plan must contain pre-arbitration conciliation provisions at no cost to the homeowner, and provision for judicial resolution of disputes, but arbitration, which must be available to a homeowner during the entire term of the coverage contract, must be an assured recourse for a dissatisfied homeowner.

(h) Where a State has a home protection act or other statutes or regulations that require its approval of Plans, a Plan issuer must demonstrate such approval to HUD as an additional prerequisite to HUD acceptance.

(i) A Plan issuer must provide homeowners an executed coverage contract clearly describing—

(1) The identity of the property covered;
(2) The time at which coverage begins;
(3) The maximum amount of Plan liability;
(4) Noncancellableity of the coverage contract by the Plan or its insurance backers;
(5) No-cost transferability of unexpired coverage to successors in title;
(6) The property coverage provided;
(7) Any exclusions from coverage;
(8) Performance standards for resolving homeowner complaints and claims (if standards for complaint and claim adjustment are promulgated as part of a Plan);
(9) Dispute settlement procedures;
(10) The names, addresses, and telephone numbers of the Plan issuer and its insurance backers; and
(11) When, to whom, under what conditions, and to what address homeowners should submit any construction deficiency complaints or structural defects claims.

(j) Plans will not be required to warrant that a covered property complies with:

(1) Original dwelling plans and specifications;
(2) Applicable building codes; or
(3) Specific terms of a homeowner's contract to purchase a property.

§ 203.206 Housing performance standards or criteria.

A Plan may contain housing performance standards or criteria for resolution of homeowner claims or complaints that are fair, reasonable, and consistent with the intent of the Plan, including Plan coverage under § 203.205.

If a Plan contains such criteria or standards, they must be acceptable to the Secretary.

§ 203.207 Designated area.

The Secretary may designate any part of the country as a "high risk area" where construction practices allow basement slabs to be placed on expansive or collapsible soil. By virtue of this authority, the Secretary has designated the State of Colorado as a "high risk area."
