Asst. Secry., for Public and Indian Housing, HUD § 902.20

under one or more of the physical condition, financial condition, or management operations indicators. The PHA shall be designated as substandard physical, substandard financial, or substandard management, respectively. The HUD office with jurisdiction over the PHA shall require a Corrective Action Plan if the deficiencies have not already been addressed in a current Corrective Action Plan.

(d) Troubled performer. (1) A PHA that achieves an overall PHAS score of less than 60 percent shall be designated as a troubled performer.

(2) In accordance with section 6(j)(2)(A)(i) of the Act (42 U.S.C. 1437d(j)(2)(A)(i)), a PHA that receives less than 50 percent under the Capital Fund program indicator under subpart E of this part will be designated as a troubled performer and subject to the sanctions provided in section 6(j)(4) of the Act (42 U.S.C. 1437d(j)(4)).

§ 902.13 Frequency of PHAS assessments.

The frequency of a PHA’s PHAS assessments is determined by the size of the PHA’s Low-Rent program and its PHAS designation. HUD may, due to unforeseen circumstances or other cause as determined by HUD, extend the time between assessments by direct notice to the PHA and relevant resident organization or resident management entity, and any other general notice that HUD deems appropriate.

(a) Small PHAs. HUD will assess and score the performance of a PHA with fewer than 250 public housing units, as follows:

(1) A small PHA that is a high performer may receive a PHAS assessment every 3 years;

(2) A small PHA that is a standard or substandard performer may receive a PHAS assessment every other year; and

(3) All other small PHAs may receive a PHAS assessment every year, including a PHA that is designated as troubled or Capital Fund-troubled in accordance with §902.75.

(b) Frequency of scoring for PHAs with 250 units or more.

(1) All PHAs, other than stated in paragraph (a) of this section, may be assessed on an annual basis.

(2) The physical condition score for each project will determine the frequency of inspections of each project. For projects with a physical condition score of 90 points or higher, physical inspections will be conducted every 3 years at the project. For projects with a physical condition score of less than 90 points but at least 80 points, physical inspection will be conducted every 2 years at the project. The physical condition score of 80 points or higher will be carried over to the next assessment period and averaged with the other project physical condition score(s) for the next assessment year for an overall PHAS physical condition indicator score. For projects whose physical condition score for a project is less than 80 points, physical inspections will be conducted annually at the project.

(3) If a PHA is designated as a troubled performer, all projects will receive a physical condition inspection regardless of the individual project physical condition score.

(4) In the baseline year, every PHA will receive an overall PHAS score and in all four of the PHAS indicators: Physical condition; financial condition; management operations; and Capital Fund program. This will allow a baseline for the physical condition inspections and the 3–2–1 inspection schedule, as well as a baseline year for the small deregulated PHAs.

(c) Financial submissions. HUD shall not issue a PHAS score for the unaudited and audited financial information in the years that a PHA is not being assessed under PHAS. Although HUD shall not issue a PHAS score under such circumstances, a PHA shall comply with the requirements for submission of annual unaudited and audited financial statements in accordance with subpart C of this part and 24 CFR 5.801.

Subpart B—Physical Condition Indicator

§ 902.20 Physical condition assessment.

(a) Objective. The objective of the physical condition indicator is to determine whether a PHA is meeting the
§ 902.21 Physical condition standards for public housing—decent, safe, and sanitary housing in good repair (DSS/GR).

(a) General. Public housing must be maintained in a manner that meets the physical condition standards set forth in this part in order to be considered DSS/GR (standards that constitute acceptable basic housing conditions). These standards address the major physical areas of public housing: Site, building exterior, building systems, dwelling units, and common areas (see paragraph (b) of this section). These standards also identify health and safety considerations (see paragraph (c) of this section). These standards address acceptable basic housing conditions, not the adornment, décor, or other cosmetic appearance of the housing.

(b) Major inspectable areas.

(1) Site. The site includes the components and must meet the requirements of 24 CFR 5.703(a).

(2) Building exterior. The building exterior includes the components and must meet the standards stated in 24 CFR 5.703(b).

(3) Building systems. The building’s systems include components such as domestic water, electrical system, elevators, emergency power, fire protection, heating/ventilation/air conditioning (HVAC), and sanitary system. Each building’s systems must meet the standards of 24 CFR 5.703(c).

(4) Dwelling units. Each dwelling unit within a building must meet the standards of 24 CFR 5.703(d).

(5) Common areas. Each common area must meet the standards of 24 CFR 5.703(e).

(c) Health and safety concerns. All areas and components of the housing must be free of health and safety hazards, as provided in 24 CFR 5.703(f).

§ 902.22 Physical inspection of PHA projects.

(a) The inspection, generally. The PHA’s score for the physical condition indicator is based on an independent physical inspection of a PHA’s project(s) provided by HUD and using HUD’s Uniform Physical Condition Standard (UPCS) inspection protocols to ensure projects meet DSS/GR standards that constitute acceptable basic
