§ 137.6 Power development.

The cost of the power development at the Coolidge Dam is hereby fixed at $735,000. The net revenues derived from the operation of this power development shall be disposed of as required by the terms and conditions of the act of March 7, 1928 (45 Stat. 210) as supplemented or amended.

§ 137.7 Private ownership defined.

The term “private ownership” used in this public notice includes all lands of the San Carlos irrigation project that have or may be designated by the Secretary of the Interior that are situated outside of the boundaries of the Gila River Indian Reservation.

§ 137.8 Indian lands excluded.

This public notice, with the exception of that part dealing with payment in advance each year of operation and maintenance charges against lands in Indian ownership operated under lease, does not apply in so far as payments are concerned to Indian lands within the project. The act of July 1, 1932 (47 Stat. 564; 25 U.S.C. 386a) defers the collection of construction costs from Indian owned lands so long as the title to such lands remains in the Indian ownership.
