§ 70.27  Allowable costs.

(a) For each kind of recipient, there is a set of Federal principles for determining allowable costs. Allowability of costs must be determined in accordance with the cost principles applicable to the entity incurring the costs. Thus, allowability of costs incurred by State, local or Federally-recognized Indian tribal governments is determined in accordance with the provisions of OMB Circular A–87, “Cost Principles for State and Local Governments.” The allowability of costs incurred by non-profit organizations is determined in accordance with the provisions of OMB Circular A–122, “Cost Principles for Non-Profit Organizations.” The allowability of costs incurred by institutions of higher education is determined in accordance with the provisions of OMB Circular A–21, “Cost Principles for Educational Institutions.” The allowability of costs incurred by commercial organizations and those non-profit organizations listed in Attachment C to Circular A–122 is determined in accordance with the provisions of the Federal Acquisition Regulation (FAR) at 48 CFR part 31.

(b) OMB Circular A–122 does not cover the treatment of bid and proposal costs or independent research and development costs. The following rules apply to these costs for non-profit organizations subject to the Circular.

(1) Bid and proposal costs. Bid and proposal costs are the immediate costs of preparing bids, proposals, and applications for Federal and non-Federal awards, contracts, and agreements, including the development of scientific, costs, and other data needed to support the bids, proposals, and applications. Bid and proposal costs of the current accounting period are all allowable as indirect costs. Bid and proposal costs of past accounting periods are unallowable in the current period. However, if the recipient’s established practice is to treat these costs by some other method, they may be accepted if they are found to be reasonable and equitable. Bid and proposal costs do not include independent research and development costs covered by paragraph (b)(2) of this section, or preaward costs covered by Attachment B, Paragraph 33 of OMB Circular A–122.

(2) Independent Research and Development costs. Independent research and development shall be allocated its proportionate share of indirect costs on the same basis as the allocation of indirect costs to sponsored research and development. The costs of independent research and development, including its proportionate share of indirect costs, are unallowable.

§ 70.28  Period of availability of funds.

Where a funding period is specified, a recipient must charge to the grant only allowable costs resulting from obligations incurred during the funding period and any pre-award costs authorized by the Department.

PROPERTY STANDARDS

§ 70.30  Purpose of property standards.

Sections 70.31 through 70.37 set forth uniform standards governing management and disposition of property furnished by the Federal Government whose cost was charged to a project supported by a Federal award. The Department will require recipients to observe these standards under awards and will not impose additional requirements, unless specifically required by Federal statute. The recipient may use its own property management standards and procedures provided it observes the provisions of §§70.31 through 70.37.

§ 70.31  Insurance coverage.

Recipients must, at a minimum, provide the equivalent insurance coverage for real property and equipment acquired with Federal funds as provided to property owned by the recipient. Federally-owned property need not be insured unless required by the terms and conditions of the award.

§ 70.32  Real property.

(a) Title to real property will vest in the recipient subject to the condition that the recipient use the real property for the authorized purpose of the project as long as it is needed and will

§ 70.34

not encumber the property without approval of the Department.

(b) The recipient must obtain written approval by the Department for the use of real property in other Federally-sponsored projects when the recipient determines that the property is no longer needed for the purpose of the original project. Use in other projects will be limited to those under Federally-sponsored projects (i.e., awards) or programs that have purposes consistent with those authorized for support by the Department.

(c) When the real property is no longer needed as provided in paragraphs (a) and (b) of this section, the recipient must request disposition instructions from the Department. The Department will observe one or more of the following disposition instructions.

(1) The recipient may be permitted to retain title without further obligation to the Federal Government after it compensates the Federal Government for that percentage of the current fair market value of the property attributable to the Federal participation in the project.

(2) The recipient may be directed to sell the property under guidelines provided by the Department and pay the Federal Government for that percentage of the current fair market value of the property attributable to the Federal participation in the project (after deducting actual and reasonable selling and fix-up expenses, if any, from the sales proceeds). When the recipient is authorized or required to sell the property, proper sales procedures must be established that provide for competition to the extent practicable and result in the highest possible return.

(3) The recipient may be directed to transfer title to the property to the Federal Government or to an eligible third party provided that, in such cases, the recipient shall be entitled to compensation for its attributable percentage of the current fair market value of the property.

§ 70.33 Federally-owned and exempt property.

(a) Federally-owned property. (1) Title to Federally-owned property remains vested in the Federal Government. Recipients may be required by the terms and conditions of the award, to submit annually an inventory listing of Federally-owned property in their custody to the Department. Upon completion of the award or when the property is no longer needed, the recipient must report the property to the Department for further Federal agency utilization.

(2) If the Department has no further need for the property, it will be declared excess and reported to the General Services Administration, unless the Department has statutory authority to dispose of the property by alternative methods (e.g., the authority provided by the Federal Technology Transfer Act (15 U.S.C. 3710 (I)) to donate research equipment to educational and non-profit organizations in accordance with Exec. Order No. 12821, “Improving Mathematics and Science Education in Support of the National Education Goals.”) Appropriate instructions shall be issued to the recipient by the Department.

(b) Exempt property. When statutory authority exists, the Department may vest title to property acquired with Federal funds in the recipient without further obligation to the Federal Government when such property is “exempt property.”

[Order No. 1980–95, 60 FR 38242, July 26, 1995; Order No. 1998–95, 60 FR 57932, Nov. 24, 1995]

§ 70.34 Equipment.

(a) Title to equipment acquired by a recipient with Federal funds will vest in the recipient, subject to conditions of this section.

(b) The recipient must not use equipment acquired with Federal funds to provide services to non-Federal outside organizations for a fee that is less than private companies charge for equivalent services, unless specifically authorized by Federal statute, for as long as the Federal Government retains an interest in the equipment.

(c) The recipient must use the equipment in the project or program for which it was acquired as long as needed, whether or not the project or program continues to be supported by Federal funds and must not encumber the property without approval of the Department. When no longer needed for
