Office of the Secretary of Labor § 95.23

with CMIA, as it pertains to interest. If an entity subject to CMIA uses its own funds to pay pre-award costs for discretionary awards without prior written approval from DOL, it waives its right to recover the interest under CMIA.

(m) Except as noted elsewhere in this part, only the following forms shall be authorized for the recipients in requesting advances and reimbursements. DOL shall not require more than an original and two copies of these forms.

(1) SF–270, Request for Advance or Reimbursement. The SF–270 is the standard form for all nonconstruction programs when electronic funds transfer or predetermined advance methods are not used. DOL, however, has the option of using this form for construction programs in lieu of the SF–271, “Outlay Report and Request for Reimbursement for Construction Programs.”

(2) SF–271, Outlay Report and Request for Reimbursement for Construction Programs. The SF–271 is the standard form to be used for requesting reimbursement for construction programs. However, DOL may substitute the SF–270 when DOL determines that it provides adequate information to meet Federal needs.

§ 95.23 Cost sharing or matching.

(a) All contributions, including cash and third party in-kind, shall be accepted as part of the recipient’s cost sharing or matching when such contributions meet all of the following criteria:

(1) Are verifiable from the recipient’s records.

(2) Are not included as contributions for any other Federally-assisted project or program.

(3) Are necessary and reasonable for proper and efficient accomplishment of project or program objectives.

(4) Are allowable under the applicable cost principles.

(5) Are not paid by the Federal Government under another award, except where authorized by Federal statute to be used for cost sharing or matching.

(6) Are provided for in the approved budget when required by DOL.

(7) Conform to other provisions of this part, as applicable.

(b) Unrecovered indirect costs may be included as part of cost sharing or matching only with prior written approval of the grant officer.

(c) Values for recipient contributions of services and property shall be established in accordance with the applicable cost principles. If DOL authorizes recipients to donate buildings or land for construction/facilities acquisition projects or long-term use, the value of the donated property for cost sharing or matching shall be the lesser of the value determined under paragraph (c)(1) or paragraph (c)(2) of this section.

(1) The certified value of the remaining life of the property recorded in the recipient’s accounting records at the time of donation.

(2) The current fair market value. However, when there is sufficient justification, the grant officer may approve the use of the current fair market value of the donated property, even if it exceeds the certified value at the time of donation to the project.

(d) Volunteer services furnished by professional and technical personnel, consultants, and other skilled and unskilled labor may be counted as cost sharing or matching if the service is an integral and necessary part of an approved project or program. Rates for volunteer services shall be consistent with those paid for similar work in the labor market in which the recipient competes for the kind of services involved. In either case, paid fringe benefits that are reasonable, allowable, and allocable may be included in the valuation.

(e) When an employer other than the recipient furnishes the services of an employee, these services shall be valued at the employee’s regular rate of pay (plus an amount of fringe benefits that are reasonable, allowable, and allocable, but exclusive of overhead costs), provided these services are in the same skill for which the employee is normally paid.

(f) Donated supplies may include such items as expendable equipment, office supplies, laboratory supplies or workshop and classroom supplies.
§ 95.24 Program income.

(a) Except as provided in paragraph (e) of this section, program income earned during the project period shall be retained by the recipient and added to funds committed to the project by DOL and recipient, and used to further eligible project or program objectives.

(b) Recipients shall have no obligation to the Federal Government regarding program income earned after the end of the project period.

(c) Costs incident to the generation of program income may be deducted from gross income to determine program income, provided these costs have not been charged to the award.

(d) Proceeds from the sale of property are not program income and shall be handled in accordance with the requirements of the Property Standards (See §§95.30 through 95.37).

(e) Unless DOL’s regulations or the terms and condition of the award provide otherwise, recipients shall have no obligation to the Federal Government with respect to program income earned from license fees and royalties for copyrighted material, patents, patent applications, trademarks, and inventions produced under an award. However, Patent and Trademark Amendments (35 U.S.C. 18) apply to inventions made under an experimental, developmental, or research award.

§ 95.25 Revision of budget and program plans.

(a) The budget plan is the financial expression of the project or program as approved during the award process. It may include either the Federal and non-Federal share, or only the Federal share, depending upon DOL’s requirements. It shall be related to performance for program evaluation purposes whenever appropriate.

(b) Recipients are required to report deviations from budget and program plans, and request prior approvals for
