Wage and Hour Division, Labor

§ 541.304 Practice of law or medicine.

(a) The term "employee employed in a bona fide professional capacity" in section 13(a)(1) of the Act also shall mean:

(1) Any employee who is the holder of a valid license or certificate permitting the practice of law or medicine or any of their branches and is actually engaged in the practice thereof; and

(2) Any employee who is the holder of the requisite academic degree for the general practice of medicine and is engaged in an internship or resident program pursuant to the practice of the profession.

(b) In the case of medicine, the exemption applies to physicians and other practitioners licensed and practicing in the field of medical science and healing or any of the medical specialties practiced by physicians or practitioners. The term "physicians" includes medical doctors including general practitioners and specialists, osteopathic physicians (doctors of osteopathy), podiatrists, dentists (doctors
Subpart E—Computer Employees

§ 541.400 General rule for computer employees.

(a) Computer systems analysts, computer programmers, software engineers or other similarly skilled workers in the computer field are eligible for exemption as professionals under section 13(a)(1) of the Act and under section 13(a)(17) of the Act. Because job titles vary widely and change quickly in the computer industry, job titles are not determinative of the applicability of this exemption.

(b) The section 13(a)(1) exemption applies to any computer employee compensated on a salary or fee basis at a rate of not less than $455 per week (or $380 per week, if employed in American Samoa by employers other than the Federal Government), exclusive of board, lodging or other facilities, and the section 13(a)(17) exemption applies to any computer employee compensated on an hourly basis at a rate not less than $27.63 an hour. In addition, under either section 13(a)(1) or section 13(a)(17) of the Act, the exemptions apply only to computer employees whose primary duty consists of:

1. The application of systems analysis techniques and procedures, including consulting with users, to determine hardware, software or system functional specifications;
2. The design, development, documentation, analysis, creation, testing or modification of computer systems or programs, including prototypes, based on and related to user or system design specifications;
3. The design, documentation, testing, creation or modification of computer programs related to machine operating systems; or
4. A combination of the aforementioned duties, the performance of which requires the same level of skills.

(c) The term “salary basis” is defined at § 541.602; “fee basis” is defined at § 541.605; “board, lodging or other facilities” is defined at § 541.606; and “primary duty” is defined at § 541.700.

§ 541.401 Computer manufacture and repair.

The exemption for employees in computer occupations does not include employees engaged in the manufacture or repair of computer hardware and related equipment. Employees whose work is highly dependent upon, or facilitated by, the use of computers and computer software programs (e.g., engineers, drafters and others skilled in computer-aided design software), but who are not primarily engaged in computer systems analysis and programming or other similarly skilled computer-related occupations identified in § 541.400(b), are also not exempt computer professionals.

§ 541.402 Executive and administrative computer employees.

Computer employees within the scope of this exemption, as well as those employees not within its scope, may also have executive and administrative duties which qualify the employees for exemption under subpart B or subpart C of this part. For example, systems analysts and computer programmers generally meet the duties requirements for the administrative exemption if their primary duty includes work such as planning, scheduling, and coordinating activities required to develop systems to solve complex business, scientific or engineering problems of the employer or the employer’s customers. Similarly, a senior or lead computer programmer who manages the work of two or more other programmers in a customarily recognized department or subdivision of the employer, and whose recommendations as to the hiring, firing, advancement, promotion or other
