(AOSSP), and the Domestic Security Integration Program (DSIP).

(d) Revise or remove restrictions on the movement of air traffic as the tactical situation permits.

§ 245.16 ATCSCC.

ATCSCC will direct appropriate ARTCCs/CERAPs to implement ESCAT restrictions as specified by the appropriate military authority. ARTCCs/CERAPs will take the following actions when directed to implement ESCAT:

(a) Provide the appropriate military authority feedback through the ATCSCC on the impact of restrictions and when the restrictions have been imposed.

(b) Impose restrictions on air traffic as directed.

(c) Disseminate ESCAT implementation instructions to U.S. civil and military air traffic control facilities and advise adjacent air traffic control facilities.

§ 245.17 U.S. civil and military air traffic control facilities.

U.S. civil and military air traffic control facilities will:

(a) Maintain current information on the status of restrictions imposed on air traffic.

(b) Process flight plans in accordance with current instructions received from the ARTCC. All flights must comply with the airspace control measures in effect, the EATPL, or must have been granted a Security Control Authorization.

(c) Disseminate instructions and restrictions to air traffic as directed by the ARTCCs.

§ 245.18 Transportation security operations center (TSOC).

TSOC will direct appropriate FSDs and field offices to implement ESCAT restrictions as specified by the appropriate military authority. FSDs and field offices will take the following actions when directed to implement ESCAT:

(a) Provide the appropriate military authority feedback through the TSOC on the impact of restrictions and when the restrictions have been implemented.

(b) Impose restrictions on civil aviation as directed by DOT/DHS.

(c) Disseminate ESCAT implementation instructions to U.S. civil aircraft operators and airports.

Subpart E—ESCAT Air Traffic Priority List (EATPL)

§ 245.20 Purpose.

When ESCAT is implemented, a system of traffic priorities may be required to make optimum use of airspace, consistent with air defense requirements. The EATPL is a list of priorities that may be used for the movement of air traffic in a defined area. Priorities shall take precedence in the order listed and subdivisions within priorities are equal.

§ 245.21 ESCAT air traffic priority list.

(a) Priority One. (1) The President of the United States, Prime Minister of Canada and respective cabinet or staff members essential to national security, and other members as approved or designated by the Secretary of Defense and Chief of the Defence Staff.

(2) Aircraft engaged in active continental defense missions, including anti-submarine aircraft, interceptors, air refueling tanker aircraft, and airborne early-warning and control aircraft (e.g., E-3, E-2, P-3).

(3) Military retaliatory aircraft, including direct tanker support aircraft, executing strategic missions.

(4) Aircraft operating in direct and immediate support of special operations missions.

(5) Anchor annex flights.

(b) Priority Two. (1) Forces being deployed or in direct support of U.S. military offensive and defensive operations including the use of activated Civil Reserve Air Fleet (CRAF) aircraft as necessary, and/or other U.S. and foreign flag civil air carrier aircraft under mission control of the U.S. military.

(2) Aircraft operating in direct and immediate support of strategic missions.

(3) Aircraft operating in direct support of military activities.

(4) Aircraft operating in direct and immediate support of special operations missions.
§ 245.22 Policy for application of EATPL.

(a) The originator of an aircraft flight operation under the EATPL shall be responsible for determining and verifying that the mission meets the appropriate definition and priority in accordance with the list described in § 245.22 of this part, and ensuring a security check of crew, cargo and aircraft has been completed prior to takeoff.

(b) The individual filing the flight plan will be responsible for including the priority number as determined by the originator of the aircraft flight operation, in the remarks section of the flight plan.

(c) Situations may occur that cannot be controlled by the EATPL. Aircraft emergencies and inbound international flights that have reached the point of no return, including foreign air carrier flights en route to safe haven airports in accordance with specific international agreements are examples of such situations. These events must be treated individually through coordination between ATC and appropriate military authorities in consideration of the urgency of the in-flight situation and existing tactical military conditions.

(d) Exceptions to EATPL. (1) DoD aircraft in priorities three through seven that do not meet EATPL restrictions may request an exemption from the appropriate military authority. For the
