(3) Crops, trees, land, and other realty. The claimant must submit an itemized signed estimate of the cost of repairs or restoration of the property, supported by evidence of the number of acres of land, crops, or trees involved, the normal yield per acre and the market value of the property per unit of measure common to the property damaged, or the estimated length of time the land will be unfit for grazing, the normal rental value per acre of similar land in the vicinity, and such other information as may be necessary.

(4) Contracts. A copy of the contract, or competent evidence of the provisions thereof, will be furnished by the claimant in support of a claim cognizable under §564.54.

(5) Additional evidence. The claims officer, the interested State adjutant general, or the Chief National Guard Bureau, may require the claimant to submit such additional evidences as he deems necessary to substantiate the claim, including, without limiting the generality of the foregoing, estimates of cost, of repairs from repairman other than those whose estimates the claimant has submitted with the claim and evidence of ownership of or interest in the property.

§ 564.57 Procedure.

Responsibility for the investigation of claims cognizable under §§564.51 to 564.68 and of accidents or incidents which may give rise to such claims rests in the adjutants general of the several States. Accordingly, claims received by the National Guard Bureau, or other agencies of the United States, will be referred to the adjutants general of the interested States. Regulations promulgated by the State adjutants general should require the prompt investigation of all accidents or incidents which might result in claims cognizable hereunder, whether or not claims have been filed.

§ 564.58 Determination of amount allowable.

(a) The maximum amount which may be allowed is the value of the property immediately prior to the accident or incident. Subject to the foregoing, the amount allowable is the cost, incurred or estimated to be incurred, of replacing the property, or of restoring it to the condition in which it was immediately prior to the accident or incident. However, if as the result of the repairs effected, the value of the property is appreciably enhanced, a sum equal to the increase in value will be deducted from the cost of restoring the property in determining the amount allowed. Conversely, if after the repairs have been effected, the value of the property is appreciably less than that prior to the accident or incident, the difference in value will be added to the cost of repairs in determining the amount allowed. However, no award in excess of the amount claimed may be made.

(b) In determining the amount allowable for repairs, the permanency of parts replaced will be considered and deductions made for depreciation as appropriated. Thus, an automobile tire is not expected to last through the life of a vehicle so that when a tire three-fourths worn is replaced with a new tire, the amount allowable is one-fourth of the cost of the new tire. The same principle applies to batteries and other items of equipment or accessories during relatively short wearout periods. However, no allowance for depreciation is made in replacing parts, such as fenders, bumpers, radiators, which normally would last through the life of the vehicle.

(c) Deprivation of use of property (including motor vehicles) is allowable as an item of damages, but only in those cases where the claimant has sustained legally provable damages. Towing charges are also allowable items of damage. However, interest, cost of preparation of claim and of securing supporting evidence, inconvenience, and similar items are not property allowable items of damage.
