(i) The referring USMTF is not organized nor authorized to provide the needed health care.

(3) Other uniformed services supplemental care programs. In addition to services that augment other USMTF’s capabilities, supplemental care programs of the other uniformed services include care and services comparable to those authorized by this part, e.g., emergency care and pre-approved non-emergency care.

(q) Unauthorized absence. Absence or departure without authority from a member’s command or assigned place of duty.

(r) Uniformed Services Medical Treatment Facilities (USMTF). Health care facilities of the Navy, Army, Air Force, Coast Guard, and the former U.S. Public Health Service facilities listed in paragraph (d) of this section designated as USTFs per DOD and Department of Health and Human Services directives.

§ 732.12 Eligibility.

(a) Regular members. To be eligible for non-Federal medical, dental, or emergency maternity care at Government expense, Regular active duty United States naval members and Canadian Navy and Marine Corps members must be in a duty status when care is provided.

(b) Reservists. (1) Reservists on active duty for training and inactive duty training, including leave and liberty therefrom, are considered to be in a duty status while participating in training. Accordingly, they are entitled to care for illnesses and injuries occurring while in that status.

(2) Reservists are entitled to care for injuries and illnesses occurring during direct travel enroute to and from active duty training (ACDUTRA) and to and from inactive duty training.

(c) NATO naval members. Naval members of the NATO Status of Forces Agreement (SOFA) nations of Belgium, Denmark, Federal Republic of Germany, France, Greece, Iceland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Spain, Turkey, and the United Kingdom, are authorized outpatient care only under the provisions of this part when stationed in or passing through the United States in connection with official duties. Public Law 99–591 prohibits inpatient care of these foreign military members in the United States at the expense of the United States Government. The other NATO SOFA Nation, Canada, entered into a comparable care agreement with the United States requiring the United States to provide inpatient and outpatient care under the provisions of this part to members of the Department of National Defence of Canada receiving care in the United States.

(d) Absent without authority. Naval members absent without authority during an entire episode of treatment are not eligible for non-Federal medical, dental, or emergency maternity care at Government expense. The only exception occurs when a member’s illness or injury is determined to have been the direct cause of the unauthorized absentee status. In such an instance, eligibility will be:

(1) Determined to have existed from the day and hour of such injury or illness provided the member was not in an unauthorized absentee status prior to the onset of the illness or injury and initiation of treatment.

(2) Retained when the member is returned directly to military control.

(3) Terminated should the member return to an unauthorized absentee status immediately after completion of treatment. Departmental level (MEDCOM–333 for medical and MEDCOM–06 for dental) review is required before benefits may be extended.

(e) Constructive return. When constructive return, defined in §732.11(c), is effected, entitlement will be determined to have existed from 0001 hours of the day of constructive return, not necessarily the day and hour care was initiated.

§ 732.13 Sources of care.

(a) Initial application. If a member requires maternity, medical, or dental care and naval facilities are unavailable, make initial application to other available Federal medical or dental facilities or USTFs. When members are stationed in or passing through a NATO SOFA nation and U.S. facilities are unavailable, ensure that members make initial application for emergency
and nonemergency care to military facilities of the host country, or if applicable, to civilian sources under the NATO SOFA nation’s health care program. When hospitalized in Hawaii, Alaska, or in a foreign medical facility, members and responsible commands will comply with OPNAVINST 6320.6.

(b) Secondary sources. When either emergency or nonemergency care is required and there are no Federal or NATO SOFA facilities available, care may be obtained from non-Federal sources under this part.

§ 732.14 Authorized care.

(a) Medical. (1) Consultation and treatment provided by physicians or at medical facilities, and procedures not involving treatment when directed by COMNAVMEDCOM, are authorized. Such care includes, but is not limited to: treatment by physicians, hospital inpatient and outpatient care, surgery, nursing, medicine, laboratory and x-ray services, physical therapy, eye examinations, etc. See §732.17 for prior approval of these services in non-emergency situations.

(2) When transplant (including bone-marrow) is the treatment of choice, COMNAVMEDCOM approval is required. If time permits, telephone (A) 294–1102, (C) (202) 653–1102 during regular hours or (A) 294–1327, (C) 653–1327 after regular duty hours, and followup with a message. Request approval via message in nonemergency situations.

(b) Maternity episode. If a member authorized care under this part qualifies for care under the provisions of §732.17(c) and delivers in a civilian hospital, routine newborn care (i.e., nursery, newborn examination, PKU test, etc.) is a part of the mother’s admission expenses. Regardless of circumstances necessitating delivery in a civilian facility or how charges are separated on the bill, charges will be paid from funds available for care of the mother. If the infant becomes a patient in his or her own right—through an extension of the birthing hospital stay because of complications, transfer to another facility, or subsequent admission—the provisions of part 728 of this chapter and NAVMEDCOMINST 6320.18 are applicable, and the sponsor becomes responsible for a part of the medical expenses incurred.

(c) Dental. (1) With prior approval, the following may be provided:

(i) All types of treatment (including operative, restorative, and oral surgical) to relieve pain and abort infection.

(ii) Prosthetic treatment to restore extensive loss of masticatory function or the replacement of anterior teeth for esthetic reasons.

(iii) Repair of existing dental prostheses when neglect of the repair would result in unserviceability of the appliance.

(iv) Any type of treatment adjunctive to medical or surgical care.

(v) All x-rays, drugs, etc., required for treatment or care in paragraphs (c)(1) (i) through (iv) of this section.

(2) In emergencies (no prior approval), only measures appropriate to relieve pain or abort infection are authorized.

(d) Eye refractions and spectacles. Includes refractions of eyes by physicians and optometrists and furnishing and repairing spectacles.

(1) Refractions. A refraction may be obtained from a civilian source at Government expense only when Federal facilities are not available, no suitable prescription is in the member’s Health Record, and the cognizant OMA or referring USMTF has given prior approval.

(2) Spectacles. When a member has no suitable spectacles and the lack thereof, combined with the delay in obtaining suitable ones from a Federal source would prevent performance of duty; repair, replacement, or procurement from a civilian source may be authorized upon initiation of an after-the-fact request per §732.17. Otherwise, the prescription from the refractionist, with proper facial measurements, must be sent for fabrication to the appropriate dispensing activity set forth in NAVMED COMINST 6310.1. See §732.15(g) concerning contact lenses.

§ 732.15 Unauthorized care.

The following are not authorized by this part:

(a) Chiropractic services.

(b) Vasectomies.

(c) Tubal ligations.
