§ 989.22 Mitigation.

(a) When preparing EIAP documents, indicate clearly whether mitigation measures (40 CFR 1508.20) must be implemented for the alternative selected. If using Best Management Practices (BMPs), identify the specific BMPs being used and include those BMPs in the mitigation plan. Discuss mitigation measures in terms of “will” and “would” when such measures have already been incorporated into the proposal. Use terms like “may” and “could” when proposing or suggesting mitigation measures. Both the public and the Air Force community need to know what commitments are being considered and selected, and who will be responsible for implementing, funding, and monitoring the mitigation measures.

(b) The proponent funds and implements mitigation measures in the mitigation plan that is approved by the decision-maker. Where possible and appropriate because of amount, the proponent should include the cost of mitigation as a line item in the budget for a proposed project. The proponent must ensure compliance with mitigation requirements, monitoring their effectiveness, and must keep the EPF informed of the mitigation status. The EPF reports its status, through the MAJCOM EPF to HQ USAF/A7CI for review within 90 days from the date of signature of the FONSI or ROD.

(d) For each FONSI or ROD containing mitigation measures, the proponent prepares a plan specifically identifying each mitigation, discussing how the proponent will execute the mitigations, identifying who will fund and implement the mitigations, and stating when the proponent will complete the mitigation. The mitigation plan will be forwarded, through the MAJCOM EPF to HQ USAF/A7CI for review within 90 days from the date of signature of the FONSI or ROD.

§ 989.23 Contractor prepared documents.

All Air Force EIAP documents belong to and are the responsibility of the Air Force. EIAP correspondence and documents distributed outside of the Air Force should generally be signed out by Air Force personnel and documents should reflect on the cover sheet they are an Air Force document. Contractor preparation information should be contained within the document’s list of preparers.

§ 989.24 Public notification.

(a) Except as provided in §989.26, public notification is required for various aspects of the EIAP.

(b) Activities that require public notification include:

1. An EA and FONSI.
2. An EIS NOI.
3. Public scoping meetings.
4. Availability of the draft EIS.
5. Public hearings on the draft EIS (which should be included in the NOA for the draft EIS).
6. Availability of the final EIS.
7. The ROD for an EIS.

(c) For actions of local concern, the list of possible notification methods in 40 CFR 1506.6(b)(3) is only illustrative. The EPF may use other equally effective means of notification as a substitute for any of the methods listed. Because many Air Force actions are of limited interest to persons or organizations outside the Air Force, the EPF
