Corps of Engineers, Dept. of the Army, DoD

§ 334.1140

Western Space and Missile Center (WSMC) at Vandenberg AFB, California.

(3) The impacting of missile debris from launch operations will take place in any one or any group of zones in the danger areas at frequent and irregular intervals throughout the year. The Commander, WSMC, will announce in advance, the closure of zones hazard ed by missile debris impact. Such advance announcements will appear in the weekly “Notice to Mariners.” For the benefit of fishermen, small craft operators and drilling platform operators, announcements will also be made on radio frequency 2182 kc, 2638 kc, VHF channel 6 (156.30 MHZ), VHF channel 12 (156.60 MHZ), and VHF channel 16 (156.80 MHZ) for daily announcements. Additionally, information will be posted on notice boards located outside Port Control Offices (Harbormasters) at Morro Bay, Port San Luis, Santa Barbara, Ventura, Channel Islands, and Port Hueneme Harbors, and any established harbor of refuge between Santa Barbara and Morro Bay.

(4) All fishing boats, other small craft, drilling platforms and shipping vessels with radios are requested to monitor radio frequency 2182 kc, 2638 kc, VHF channel 6 (156.30 MHZ), VHF channel 12 (156.60 MHZ), or channel 16 (156.80 MHZ) while in these zones for daily announcements of zone closures.

(5) When a scheduled launch operation is about to begin, radio broadcast notifications will be made periodically, starting at least 24 hours in advance. Additional contact may be made by surface patrol boats or aircraft equipped with a loudspeaker system. When so notified, all persons and all vessels shall leave the specified zone or zones immediately by the shortest route.

(6) The Commander, WSMC, will extend full cooperation relating to the public use of the danger area and will fully consider every reasonable request for its use in light of requirements for national security and safety of persons and property.

(7) Where an established harbor of refuge exists, small craft may take shelter for the duration of zone closure.

(8) Fixed or movable oil drilling platforms located in zones identified as hazardous and closed in accordance with this regulation shall cease operations for the duration of the zone closure. The zones shall be closed continuously no longer than 72 hours at any one time. Such notice to evacuate personnel shall be accomplished in accordance with procedures as established by the Commander, WSMC, the U.S. Department of the Interior, Minerals Management Service and the oil industry in the adjacent waters of the outer continental shelf.

(9) No seaplanes, other than those approved by the Commander, WSMC, may enter the danger zones during launch closure periods.

(10) The regulations in this section shall be enforced by personnel attached to WSMC and by such other agencies as may be designated by the Commander, WSMC.

(11) The regulations in this section shall be in effect until further notice. They shall be reviewed again during August 1994.

[33 U.S.C. 1, 3]

§ 334.1140 Pacific Ocean at San Miguel Island, Calif.; naval danger zone.

(a) The area. The waters around San Miguel Island, extending about 3 miles seaward from the shoreline within the following points:

(b) Markers. Range markers, as delineated below, are installed at points A and H for navigational purposes for both surface vessels and aircraft:

(1) At point A two triangular markers are installed facing southward, 10 feet in length on each side, with red and white diagonal stripes, each marker mounted atop 80-foot poles spaced 100 yards apart, each pole being placed on the line of longitude 120°23'17" W. and near the southerly shoreline at 621°01'32" N. 120°23'17" W.
§ 334.1150 Monterey Bay, Calif.

(a) Firing range, Fort Ord, Calif.—(1) The danger zone. (i) A rectangular area in Monterey Bay, the southerly limit of which is an extension seaward of the southerly line of the Fort Ord Military Reservation boundary and bears S37°E true, 8,000 yards from a point on the shore at latitude 36°37′57″, longitude 121°50′28″, and the northerly limit of which is a line bearing S37°E true, 8,000 yards, from a point on the shore at latitude 36°41′37″, longitude 121°48′30″, opposite Marina, Monterey County, California. The seaward boundary is a straight line joining the outer ends of the southerly and northerly boundaries at the 8,000 yard range and is approximately parallel to the shore.

(ii) The danger zone is divided into a short range area, extending seaward from the shore a distance of 5,000 yards measured along the southerly and northerly boundaries, and a long range area embracing the entire danger zone.

(b) The regulations. (1) The 5,000 yard short range is prohibited to all persons, vessels and craft, except those authorized by the enforcing agency, each

latitude 34°01′32″ N. The southernmost marker is 20 feet below the other.

(2) At point H two triangular markers are installed facing true north 10 feet in length on each side, with red and white diagonal stripes, each marker mounted atop 80-foot poles spaced 100 yards apart, each pole being placed on the line of longitude 120°23′17″ W. and near the northwesterly shoreline at latitude 34°03′00″ N. The northernmost marker is 20 feet below the other.

(c) The regulations. (1) Except as prescribed in this section or in other regulations, the danger zone will be open to fishing and general navigation. Bomb drops between designated hours are expected to be intermittent, and when safe to do so, commercial fishing boats and other small craft will be granted permission to proceed through the danger zone. All vessels permitted to enter the zone during a scheduled bomb drop period, other than those owned or operated by the U.S. Government, shall proceed across the zone by the most direct route and clear the area as soon as possible. When bomb drops are not scheduled, the zone may be occupied without restriction.

(2) The anchoring, stopping or loitering by any person, vessel, fishing boat or recreational craft within the danger zone during scheduled firing/drop hours is expressly prohibited.

(3) The bomb drops will take place in the danger zone at frequent and irregular intervals throughout the year. Danger zone usage demands are identified in the Eleventh Coast Guard District, “Local Notice of Mariners.” Announcements will also be made on marine radio channel 16, at 0800 local time, 1200 local time and/or 1 hour prior to bomb drop operations. Status of the zone and/or permission to enter, may be requested by calling “Plead Control” on marine channel 16 or by calling the Pacific Missile Test Center (PMTC) on telephone number (805) 982-8280 or 982-8841.

(4) The Commander, PMTC will extend full cooperation relating to the public use of the danger zone area and will fully consider every reasonable request for its use in light of requirements for national security and safety of persons and property.

(5) No seaplanes, other than those approved for entry by the Commander, PMTC, may enter the danger zone during firing periods.

(6) Landing by any vessel or going ashore by any person on San Miguel Island is specifically prohibited without prior permission of the Superintendent, Channel Islands National Park. Applications for such permission should be made to: Superintendent, Channel Islands National Park, 1689 Anchors Way Drive, Ventura, California 93003.

(7) The regulations in this section shall be enforced by personnel attached to the Pacific Missile Test Center, Point Mugu, California, and by such other agencies as the Commandant, 11th Naval District, San Diego, California, may designate.
