Subpart A—General Provisions

§ 385.1 Purpose of the programmatic regulations.

(a) The programmatic regulations of this part implement the provisions of section 601(h)(3) of the Water Resources Development Act of 2000, Public Law 106–541, 114 Stat. 2688 (hereinafter “WRDA 2000”), which was enacted on December 11, 2000.

(b) The purpose of the programmatic regulations of this part is to ensure that the goals and purposes of the Comprehensive Everglades Restoration Plan (the Plan) are achieved and to establish the processes necessary for implementing the Plan. Some of these processes are project specific, including, but not limited to, development of Project Implementation Reports, Project Cooperation Agreements, plans and specifications, Pilot Project Technical Data Reports, and Operating Manuals. Other processes are of more general applicability, including, but not limited to, development of program-wide guidance memoranda, interim goals, interim targets, and the Master Implementation Sequencing Plan. Taken together, these processes will ensure that the restoration purposes and other goals of the Plan are achieved. The regulations of this part also describe the relationship among the various entities responsible for implementation of the Plan.

(c) Section 601(h) of WRDA 2000 establishes an integrated framework for assuring that the goals and purposes of the Plan are achieved. This framework includes tools for planning, implementation, and evaluation; a process for developing these tools in an open public process, with input from other Federal, State, and local agencies; and an enforcement mechanism to ensure that the requirements of the statute are carried out.

(1) Tools. (i) The specific planning tool established by section 601(h) is the Project Implementation Report.

(ii) The specific implementation tools established by section 601(h) are Project Cooperation Agreements and Operating Manuals.

(iii) The specific evaluation tool established by section 601(h) is the interim goals for evaluating the restoration success of the Plan.

(iv) In addition to the specific planning, implementation, and evaluation tools established by section 601(h), the regulations of this part establish additional tools, including but not limited to, Project Management Plans, Program Management Plans, Comprehensive Plan Modification Reports, the Master Implementation Sequencing Plan, and interim targets for evaluating progress towards achieving the other water related needs of the region.

(2) Processes. The regulations of this part establish the processes for developing these tools. Consistent with section 601(h), these regulations have been developed, after notice and opportunity for public content, with the concurrence of the Secretary of the Interior and the Governor, and in consultation with the Seminole Tribe of Florida, the Miccosukee Tribe of Indians of Florida, the Administrator of the Environmental Protection Agency, the Secretary of Commerce, the Florida Department of Environmental Protection, and other Federal, State, and local agencies.

(3) Enforcement mechanism. The specific enforcement mechanism established by Section 601(h) is the “Comprehensive Everglades Restoration Plan Assurance of Project Benefits...
§ 385.3 Definitions.

For the purposes of this part, the following terms are defined:

Adaptive management means the continuous process of seeking a better understanding of the natural system and human environment in the South Florida ecosystem, and seeking continuous refinements in and improvements to the Plan to respond to new information resulting from changed or unforeseen circumstances, new scientific and technical information, new or updated modeling; information developed through the assessment principles contained in the Plan; and future authorized...
