§ 1.291  Protests by the public against pending applications.

(a) A protest may be filed by a member of the public against a pending application, and it will be matched with the application file if it adequately identifies the patent application. A protest submitted within the time frame of paragraph (b) of this section, which is not matched, or not matched in a timely manner to permit review by the examiner during prosecution, due to inadequate identification, may not be entered and may be returned to the protestor where practical, or, if return is not practical, discarded.

(b) The protest will be entered into the record of the application if, in addition to complying with paragraph (c) of this section, the protest has been served upon the applicant in accordance with §1.248, or filed with the Office in duplicate in the event service is not possible; and, except for paragraph (b)(1) of this section, the protest was filed prior to the date the application was published under §1.211, or the date a notice of allowance under §1.311 was given or mailed, whichever occurs first:

(1) If a protest is accompanied by the written consent of the applicant, the protest will be considered if the protest is filed prior to the date a notice of allowance under §1.311 is given or mailed in the application.

(2) A statement must accompany a protest that it is the first protest submitted in the application by the real party in interest who is submitting the protest; or the protest must comply with paragraph (c)(5) of this section. This section does not apply to the first protest filed in an application.

(c) In addition to compliance with paragraphs (a) and (b) of this section, a protest must include:

(1) An information list of the documents, portions of documents, or other information being submitted, where each:

(i) U.S. patent is identified by patent number, first named inventor, and issue date;

(ii) U.S. patent application publication is identified by patent application publication number, first named inventor, and publication date;

(iii) Foreign patent or published foreign patent application is identified by the country or patent office that issued the patent or published the application; the applicant, patentee, or first named inventor; an appropriate document number; and the publication date indicated on the patent or published application; and

(4) Non-patent publication by author (if any), title, pages being submitted, publication date, and, where available, publisher and place of publication. If no publication date is known, the third party must provide evidence of publication.

(f) Any third-party submission under this section must be accompanied by the fee set forth in §1.17(g) for every ten items or fraction thereof identified in the document list.

(g) The fee otherwise required by paragraph (f) of this section is not required for a submission listing three or fewer total items that is accompanied by a statement by the party making the submission that, to the knowledge of the person signing the statement after making reasonable inquiry, the submission is the first and only submission under 35 U.S.C. 122(e) filed in the application by the party or a party in privity with the party.

(h) In the absence of a request by the Office, an applicant need not reply to a submission under this section.

(i) The provisions of §1.8 do not apply to the time periods set forth in this section.
