

**§ 202.20 Deposit of copies and phonorecords for copyright registration.**

(a) *General.* This section prescribes rules pertaining to the deposit of copies and phonorecords of published and unpublished works for the purpose of copyright registration under section 408 of title 17 of the United States Code, as amended by Pub. L. 94-553. The provisions of this section are not applicable to the deposit of copies and phonorecords for the Library of Congress under section 407 of title 17, except as expressly adopted in § 202.19 of these regulations.

(b) *Definitions.* For the purposes of this section:

(1) *The best edition* of a work has the meaning set forth in § 202.19(b)(1). For purposes of this section, if a work is first published in both hard copy, *i.e.*, in a physically tangible format, and also in an electronic format, the current Library of Congress Best Edition Statement requirements pertaining to the hard copy format apply.

(2) A *complete* copy or phonorecord means the following:

(i) *Unpublished works.* Subject to the requirements of paragraph (b)(2)(vii) of this section, a “complete” copy or phonorecord of an unpublished work is a copy or phonorecord representing the entire copyrightable content of the work for which registration is sought;

(ii) *Published works.* Subject to the requirements of paragraphs (b)(2) (iv) through (vii) of this section, a “complete” copy or phonorecord of a published work includes all elements comprising the applicable unit of publication of the work, including elements that, if considered separately, would not be copyrightable subject matter. However, even where certain physically separable elements included in the applicable unit of publication are missing from the deposit, a copy or phonorecord will be considered “complete” for purposes of registration where:

(A) The copy or phonorecord deposited contains all parts of the work for which copyright registration is sought; and

(B) The removal of the missing elements did not physically damage the copy or phonorecord or garble its contents; and

(C) The work is exempt from the mandatory deposit requirements under section 407 of title 17 of the United States Code and § 202.19(c) of these regulations, or the copy deposited consists entirely of a container, wrapper, or holder, such as an envelope, sleeve, jacket, slipcase, box, bag, folder, binder, or other receptacle acceptable for deposit under paragraph (c)(2) of this section;

(iii) *Works submitted for registration in digital formats.* A ‘complete’ electronically filed work is one which is embodied in a digital file which contains:

(A) if the work is unpublished, all authorship elements for which registration is sought; and

(B) if the work is published solely in an electronic format, all elements constituting the work in its published form, *i.e.*, the complete work as published, including metadata and authorship for which registration is not sought. Publication in an electronic only format requires submission of the digital file[s] in exact first-publication form and content.

(C) For works submitted electronically, any of the following file formats are acceptable for registration: PDF; TXT; WPD; DOC; TIF; SVG; JPG; XML; HTML; WAV; and MPEG family of formats, including MP3. This list of file formats is non-exhaustive and it may change, or be added to periodically. Changes will be noted in the list of acceptable formats on the Copyright Office website.

(D) Contact with the registration applicant may be necessary if the Copyright Office cannot access, view, or examine the content of any particular digital file that has been submitted for the registration of a work. For purposes of section 410(d) of 17 U.S.C., a deposit has not been received in the Copyright Office until a copy that can be reviewed by the Office is received.

(iv) *Contributions to collective works.* In the case of a published contribution to a collective work, a “complete” copy is one complete copy of the best edition of the entire collective work, the complete section containing the contribution if published in a newspaper, the contribution cut from the

paper in which it appeared, or a photocopy of the contribution itself as it was published in the collective work.

(v) *Sound recordings*. In the case of published sound recordings, a “complete” phonorecord has the meaning set forth in §202.19(b)(2) of these regulations;

(vi) *Musical scores*. In the case of a musical composition published in copies only, or in both copies and phonorecords:

(A) If the only publication of copies took place by the rental, lease, or lending of a full score and parts, a full score is a “complete” copy; and

(B) If the only publication of copies took place by the rental, lease, or lending of a conductor’s score and parts, a conductor’s score is a “complete” copy;

(vii) *Motion pictures*. In the case of a published or unpublished motion picture, a copy is “complete” if the reproduction of all of the visual and aural elements comprising the copyrightable subject matter in the work is clean, undamaged, undeteriorated, and free of splices, and if the copy itself and its physical housing are free of any defects that would interfere with the performance of the work or that would cause mechanical, visual, or audible defects or distortions.

(3) The terms *architectural works, copy, collective work, device, fixed, literary work, machine, motion picture, phonorecord, publication, sound recording, transmission program, and useful article*, and their variant forms, have the meanings given to them in 17 U.S.C. 101.

(4) A *secure test* is a nonmarketed test administered under supervision at specified centers on specific dates, all copies of which are accounted for and either destroyed or returned to restricted locked storage following each administration. For these purposes a test is not marketed if copies are not sold but it is distributed and used in such a manner that ownership and control of copies remain with the test sponsor or publisher.

(5) *Title 17* means title 17 of the United States Code, as amended by Pub. L. 94-553.

(6) For the purposes of determining the applicable deposit requirements under this §202.20 only, the following

shall be considered as unpublished motion pictures: motion pictures that consist of television transmission programs and that have been published, if at all, only by reason of a license or other grant to a nonprofit institution of the right to make a fixation of such programs directly from a transmission to the public, with or without the right to make further uses of such fixations.

(c) *Nature of required deposit*. (1) Subject to the provisions of paragraph (c)(2) of this section, the deposit required to accompany an application for registration of claim to copyright under section 408 of title 17 shall consist of:

(i) In the case of unpublished works, one complete copy or phonorecord.

(ii) In the case of works first published in the United States before January 1, 1978, two complete copies or phonorecords of the work as first published.

(iii) In the case of works first published in the United States on or after January 1, 1978, two complete copies or phonorecords of the best edition.

(iv) In the case of works first published outside of the United States, one complete copy or phonorecord of the work either as first published or of the best edition. For purposes of this section, any works simultaneously first published within and outside of the United States shall be considered to be first published in the United States.

(2) In the case of certain works, the special provisions set forth in this clause shall apply. In any case where this clause specifies that one copy or phonorecord may be submitted, that copy or phonorecord shall represent the best edition, or the work as first published, as set forth in paragraph (c)(1) of this section.

(i) *General*. In the following cases the deposit of one complete copy or phonorecord will suffice in lieu of two copies or phonorecords:

(A) Published three-dimensional cartographic representations of area, such as globes and relief models;

(B) Published diagrams illustrating scientific or technical works or formulating scientific or technical information in linear or other two-dimensional

§ 202.20

37 CFR Ch. II (7-1-13 Edition)

form, such as an architectural or engineering blueprint, or a mechanical drawing;

(C) Published greeting cards, picture postcards, and stationery;

(D) Lectures, sermons, speeches, and addresses published individually and not as a collection of the works of one or more authors;

(E) Musical compositions published in copies only, or in both copies and phonorecords, if the only publication of copies took place by rental, lease, or lending;

(F) Published multimedia kits or any part thereof;

(G) Works exempted from the requirement of depositing identifying material under paragraph (c)(2)(xi)(B)(5) of this section;

(H) Literary, dramatic, and musical works published only as embodied in phonorecords, although this category does not exempt the owner of copyright in a sound recording;

(I) Choreographic works, pantomimes, literary, dramatic, and musical works published only as embodied in motion pictures;

(J) Published works in the form of two-dimensional games, decals, fabric patches or emblems, calendars, instructions for needle work, needle work and craft kits; and

(K) Works reproduced on three-dimensional containers such as boxes, cases, and cartons.

(ii) *Motion pictures.* In the case of published or unpublished motion pictures, the deposit of one complete copy will suffice. The deposit of a copy or copies for any published or unpublished motion picture must be accompanied by a separate description of its contents, such as a continuity, pressbook, or synopsis. In any case where the deposit copy or copies required for registration of a motion picture cannot be viewed for examining purposes on equipment in the Registration Program of the Copyright Office, the description accompanying the deposit must comply with §202.21(h) of these regulations. The Library of Congress may, at its sole discretion, enter into an agreement permitting the return of copies of published motion pictures to the depositor under certain conditions and establishing certain rights and ob-

ligations of the Library of Congress with respect to such copies. In the event of termination of such an agreement by the Library, it shall not be subject to reinstatement, nor shall the depositor or any successor in interest of the depositor be entitled to any similar or subsequent agreement with the Library, unless at the sole discretion of the Library it would be in the best interests of the Library to reinstate the agreement or enter into a new agreement. In the case of unpublished motion pictures (including television transmission programs that have been fixed and transmitted to the public, but have not been published), the deposit of identifying material in compliance with §202.21 of these regulations may be made and will suffice in lieu of an actual copy. In the case of colorized versions of motion pictures made from pre-existing black and white motion pictures, in addition to the deposit of one complete copy of the colorized motion picture and the separate description of its contents as specified above, the deposit shall consist of one complete print of the black and white version of the motion picture from which the colorized version was prepared. If special relief from this requirement is requested and granted, the claimant shall make a good faith effort to deposit the best available, near-archival quality black and white print, as a condition of any grant of special relief.

(iii) *Holograms.* In the case of any work deposited in the form of a three-dimensional hologram, the copy or copies shall be accompanied by:

(A) Precise instructions for displaying the image fixed in the hologram; and

(B) Photographs or other identifying material complying with §202.21 of these regulations and clearly showing the displayed image.

The number of sets of instructions and identifying material shall be the same as the number of copies required. In the case of a work in the form of a two-dimensional hologram, the image of which is visible without the use of a machine or device, one actual copy of the work shall be deposited.

(iv) *Certain pictorial and graphic works.* In the case of any unpublished

pictorial or graphic work, deposit of identifying material in compliance with §202.21 of these regulations may be made and will suffice in lieu of deposit of an actual copy. In the case of a published pictorial or graphic work, deposit of one complete copy, or of identifying material in compliance with §202.21 of these regulations, may be made and will suffice in lieu of deposit of two actual copies where an individual author is the owner of copyright, and either:

(A) Less than five copies of the work have been published; or

(B) The work has been published and sold or offered for sale in a limited edition consisting of no more than 300 numbered copies.

(v) *Commercial prints and labels.* In the case of prints, labels, and other advertising matter, including catalogs, published in connection with the rental, lease, lending, licensing, or sale of articles of merchandise, works of authorship, or services, the deposit of one complete copy will suffice in lieu of two copies. Where the print or label is published in a larger work, such as a newspaper or other periodical, one copy of the entire page or pages upon which it appears may be submitted in lieu of the entire larger work. In the case of prints or labels physically inseparable from a three-dimensional object, identifying material complying with §202.21 of these regulations must be submitted rather than an actual copy or copies except under the conditions of paragraph (c)(2)(xi)(B)(4) of this section.

(vi) *Tests.* In the case of tests, and answer material for tests, published separately from other literary works, the deposit of one complete copy will suffice in lieu of two copies. In the case of any secure test the Copyright Office will return the deposit to the applicant promptly after examination: Provided, That sufficient portions, description, or the like are retained so as to constitute a sufficient archival record of the deposit.

(vii) *Computer programs and databases embodied in machine-readable copies other than CD-ROM format.* In cases where a computer program, database, compilation, statistical compendium, or the like, if unpublished is fixed, or if published is published only in the form

of machine-readable copies (such as magnetic tape or disks, punched cards, semiconductor chip products, or the like) other than a CD-ROM format, from which the work cannot ordinarily be perceived except with the aid of a machine or device, the deposit shall consist of:

(A) For published or unpublished computer programs, one copy of identifying portions of the program, reproduced in a form visually perceptible without the aid of a machine or device, either on paper or in microform. For these purposes “identifying portions” shall mean one of the following:

(1) The first and last 25 pages or equivalent units of the source code if reproduced on paper, or at least the first and last 25 pages or equivalent units of the source code if reproduced in microform, together with the page or equivalent unit containing the copyright notice, if any. If the program is 50 pages or less, the required deposit will be the entire source code. In the case of revised versions of computer programs, if the revisions occur throughout the entire program, the deposit of the page containing the copyright notice and the first and last 25 pages of source code will suffice; if the revisions do not occur in the first and last 25 pages, the deposit should consist of the page containing the copyright notice and any 50 pages of source code representative of the revised material; or

(2) Where the program contains trade secret material, the page or equivalent unit containing the copyright notice, if any, plus one of the following: the first and last 25 pages or equivalent units of source code with portions of the source code containing trade secrets blocked-out, provided that the blocked-out portions are proportionately less than the material remaining, and the deposit reveals an appreciable amount of original computer code; or the first and last 10 pages or equivalent units of source code alone with no blocked-out portions; or the first and last 25 pages of object code, together with any 10 or more consecutive pages of source code with no blocked-out portions; or for programs consisting of, or less than, 50 pages or equivalent units, entire source code with the trade secret portions blocked-out, provided that the blocked-

§ 202.20

37 CFR Ch. II (7-1-13 Edition)

out portions are proportionately less than the material remaining, and the remaining portion reveals an appreciable amount of original computer code. If the copyright claim is in a revision not contained in the first and last 25 pages, the deposit shall consist of either 20 pages of source code representative of the revised material with no blocked-out portions, or any 50 pages of source code representative of the revised material with portions of the source code containing trade secrets blocked-out, provided that the blocked-out portions are proportionately less than the material remaining and the deposit reveals an appreciable amount of original computer code. Whatever method is used to block out trade secret material, at least an appreciable amount of original computer code must remain visible.

(B) Where registration of a program containing trade secrets is made on the basis of an object code deposit the Copyright Office will make registration under its rule of doubt and warn that no determination has been made concerning the existence of copyrightable authorship.

(C) Where the application to claim copyright in a computer program includes a specific claim in related computer screen displays, the deposit, in addition to the identifying portions specified in paragraph (c)(2)(vii)(A) of this section, shall consist of:

(1) Visual reproductions of the copyrightable expression in the form of printouts, photographs, or drawings no smaller than 3 × 3 inches and no larger than 9 × 12 inches; or

(2) If the authorship in the work is predominantly audiovisual, a one-half inch VHS format videotape reproducing the copyrightable expression, except that printouts, photographs, or drawings no smaller than 3 × 3 inches and no larger than 9 × 12 inches must be deposited in lieu of videotape where the computer screen material simply constitutes a demonstration of the functioning of the computer program.

(D) For published and unpublished automated databases, compilations, statistical compendia, and the like, so fixed or published, one copy of identifying portions of the work, reproduced in a form visually perceptible without

the aid of a machine or device, either on paper or in microform. For these purposes:

(1) *Identifying portions* shall generally mean either the first and last 25 pages or equivalent units of the work if reproduced on paper or in microform.

(2) *Datafile* and *file* shall mean a group of data records pertaining to a common subject matter regardless of their size or the number of data items in them.

(3) In the case of individual registration of a revised version of the works identified in paragraph (c)(2)(vii)(D) of this section, the identifying portions deposited shall contain 50 representative pages or data records which have been added or modified.

(4) If the work is an automated database comprising multiple separate or distinct data files, “identifying portions” shall instead consist of 50 complete data records from each data file or the entire data file, whichever is less, and the descriptive statement required by paragraph (c)(2)(vii)(D)(5) of this section.

(5) In the case of group registration for revised or updated versions of a database, the claimant shall deposit identifying portions that contain 50 representative pages or equivalent units, or representative data records which have been marked to disclose (or do in fact disclose solely) the new material added on one representative publication date if published, or on one representative creation date, if unpublished or in the case of applications for automated databases that predominantly consist of photographs, the claimant shall deposit identifying portions that comply with (D)(8) of this section; the claimant shall, also deposit a brief typed or printed descriptive statement containing the notice of copyright information required under paragraphs (c)(2)(vii)(D)(6) or (7) of this section, if the work bears a notice, and:

- (i) The title of the database;
- (ii) A subtitle, date of creation or publication, or other information, to distinguish any separate or distinct data files for cataloging purposes;
- (iii) The name and address of the copyright claimant;
- (iv) For each separate file, its name and content, including its subject, the

origin(s) of the data, and the approximate number of data records it contains; and

(v) In the case of revised or updated versions of an automated database, information as to the nature and frequency of changes in the database and some identification of the location within the database or the separate data files of the revisions.

(6) For a copyright notice embodied in machine-readable form, the statement shall describe exactly the visually perceptible content of the notice which appears in or with the database, and the manner and frequency with which it is displayed (e.g., at user's terminal only at sign-on, or continuously on terminal display, or on printouts, etc.).

(7) If a visually perceptible copyright notice is placed on any copies of the work (or on magnetic tape reels or containers therefor), a sample of such notice must also accompany the statement.

(8) In the case of an application for registration of a database that consists predominantly of photographs (including a group registration for revised or updated versions of such a database), "identifying portions" shall instead consist of all individual photographs included in the claim either in one of the formats set forth in paragraph (c)(2)(xx) of this section or in an electronic format submitted along with the electronic application after consultation and with the permission and under the direction of the Visual Arts Division.

(viii) *Machine-readable copies of works other than computer programs, databases, and works fixed in a CD-ROM format.* Where a literary, musical, pictorial, graphic, or audiovisual work, or a sound recording, except for works fixed in a CD-ROM format and literary works which are computer programs, databases, compilations, statistical compendia or the like, if unpublished has been fixed or, if published, has been published only in machine-readable form, the deposit must consist of identifying material. The type of identifying material submitted should generally be appropriate to the type of work embodied in machine-readable form, but in all cases should be that

which best represents the copyrightable content of the work. In all cases the identifying material must include the title of the work. A synopsis may also be requested in addition to the other deposit materials as appropriate in the discretion of the Copyright Office. In the case of any published work subject to this section, the identifying material must include a representation of the copyright notice, if one exists. Identifying material requirements for certain types of works are specified below. In the case of the types of works listed below, the requirements specified shall apply except that, in any case where the specific requirements are not appropriate for a given work the form of the identifying material required will be determined by the Copyright Office in consultation with the applicant, but the Copyright Office will make the final determination of the acceptability of the identifying material.

(A) For pictorial or graphic works, the deposit shall consist of identifying material in compliance with §202.21 of these regulations;

(B) For audiovisual works, the deposit shall consist of either a videotape of the work depicting representative portions of the copyrightable content, or a series of photographs or drawings, depicting representative portions of the work, plus in all cases a separate synopsis of the work;

(C) For musical compositions, the deposit shall consist of a transcription of the entire work such as a score, or a reproduction of the entire work on an audiocassette or other phonorecord;

(D) For sound recordings, the deposit shall consist of a reproduction of the entire work on an audiocassette or other phonorecord;

(E) For literary works, the deposit shall consist of a transcription of representative portions of the work including the first and last 25 pages or equivalent units, and five or more pages indicative of the remainder.

(ix) *Copies containing both visually-perceptible and machine-readable material other than a CD-ROM format.* Where a published literary work is embodied in copies containing both visually-perceptible and machine-readable material, except in the case of a CD-ROM format,

§ 202.20

37 CFR Ch. II (7-1-13 Edition)

the deposit shall consist of the visually-perceptible material and identifying portions of the machine-readable material.

(x) *Works reproduced in or on sheetlike materials.* In the case of any unpublished work that is fixed, or any published work that is published, only in the form of a two-dimensional reproduction on sheetlike materials such as textiles and other fabrics, wallpaper and similar commercial wall coverings, carpeting, floor tile, and similar commercial floor coverings, and wrapping paper and similar packaging material, the deposit shall consist of one copy in the form of an actual swatch or piece of such material sufficient to show all elements of the work in which copyright is claimed and the copyright notice appearing on the work, if any. If the work consists of a repeated pictorial or graphic design, the complete design and at least part of one repetition must be shown. If the sheetlike material in or on which a published work has been reproduced has been embodied in or attached to a three-dimensional object, such as furniture, or any other three-dimensional manufactured article, and the work has been published only in that form, the deposit must consist of identifying material complying with § 202.21 of these regulations instead of a copy. If the sheetlike material in or on which a published work has been reproduced has been embodied in or attached to a two-dimensional object such as wearing apparel, bed linen, or a similar item, and the work has been published only in that form, the deposit must consist of identifying material complying with § 202.21 of these regulations instead of a copy unless the copy can be folded for storage in a form that does not exceed four inches in thickness.

(xi) *Works reproduced in or on three-dimensional objects.* (A) In the following cases the deposit must consist of identifying material complying with § 201.21 of these regulations instead of a copy or copies:

(1) Any three-dimensional sculptural work, including any illustration or formulation of artistic expression or information in three-dimensional form. Examples of such works include stat-

ues, carvings, ceramics, moldings, constructions, models, and maquettes; and

(2) Any two-dimensional or three-dimensional work that, if unpublished, has been fixed, or, if published, has been published only in or on jewelry, dolls, toys, games, except as provided in paragraph (c)(2)(xi)(B)(3) of this section, or any three-dimensional useful article.

(B) In the following cases the requirements of paragraph (c)(2)(xi)(A) of this section for the deposit of identifying material shall not apply:

(1) Three-dimensional cartographic representations of area, such as globes and relief models;

(2) Works that have been fixed or published in or on a useful article that comprises one of the elements of the unit of publication of an educational or instructional kit which also includes a literary or audiovisual work, a sound recording, or any combination of such works;

(3) Published games consisting of multiple parts that are packaged and published in a box or similar container with flat sides and with dimensions of no more than 12 × 24 × 6 inches;

(4) Works reproduced on three-dimensional containers or holders such as boxes, cases, and cartons, where the container or holder can be readily opened out, unfolded, slit at the corners, or in some other way made adaptable for flat storage, and the copy, when flattened, does not exceed 96 inches in any dimension; or

(5) Any three-dimensional sculptural work that, if unpublished, has been fixed, or, if published, has been published only in the form of jewelry cast in base metal which does not exceed four inches in any dimension.

(xii) *Soundtracks.* For separate registration of an unpublished work that is fixed, or a published work that is published, only as embodied in a soundtrack that is an integral part of a motion picture, the deposit of identifying material in compliance with § 202.21 of these regulations will suffice in lieu of an actual copy of the motion picture.

(xiii) *Oversize deposits.* In any case where the deposit otherwise required by this section exceeds 96 inches in any dimension, identifying material complying with § 202.21 of these regulations

must be submitted instead of an actual copy or copies.

(xiv) *Pictorial advertising material.* In the case of published pictorial advertising material, except for advertising material published in connection with motion pictures, the deposit of either one copy as published or prepublication material consisting of camera-ready copy is acceptable.

(xv) *Contributions to collective works.* In the case of published contributions to collective works, the deposit of either one complete copy of the best edition of the entire collective work, the complete section containing the contribution if published in a newspaper, the entire page containing the contribution, the contribution cut from the paper in which it appeared, or a photocopy of the contribution itself as it was published in the collective work, will suffice in lieu of two complete copies of the entire collective work.

(xvi) *Phonorecords.* In any case where the deposit phonorecord or phonorecords submitted for registration of a claim to copyright is inaudible on audio playback devices in the Registration Program of the Copyright Office, the Office will seek an appropriate deposit in accordance with paragraph (d) of this section.

(xvii) *Group registration of serials.* For group registration of related serials, as specified in §202.3(b)(6), for applicants filing electronically, the deposit must consist of one complete copy of the best edition of each issue included in the group registration, or a digital format of a complete copy which complies with §202.20(b)(2)(iii). For applicants filing a completed Form SE/Group, the deposit must consist of one complete copy of the best edition of each issue included in the group registration. In addition, for all filings for group registration of serial issues, two complimentary subscriptions to any serial for which group registration is sought must be entered and maintained in the name of the Library of Congress, and the copies must be submitted regularly and promptly after publication.

(xviii) *Architectural works.* (A) For designs of unconstructed buildings, the deposit must consist of one complete copy of an architectural drawing or blueprint in visually perceptible form

showing the overall form of the building and any interior arrangements of spaces and/or design elements in which copyright is claimed. For archival purposes, the Copyright Office prefers that the drawing submissions consist of the following in descending order of preference:

(1) Original format, or best quality form of reproduction, including offset or silk screen printing;

(2) Xerographic or photographic copies on good quality paper;

(3) Positive photostat or photodirect positive;

(4) Blue line copies (diaz or ozalid process).

The Copyright Office prefers that the deposit disclose the name(s) of the architect(s) and draftsman(s) and the building site, if known.

(B) For designs of constructed buildings, the deposit must consist of one complete copy of an architectural drawing or blueprint in visually perceptible form showing the overall form of the building and any interior arrangement of spaces and/or design elements in which copyright is claimed. In addition, the deposit must also include identifying material in the form of photographs complying with §202.21 of these regulations, which clearly discloses the architectural works being registered. For archival purposes, the Copyright Office prefers that the drawing submissions constitute the most finished form of presentation drawings and consist of the following in descending order of preference:

(1) Original format, or best quality form of reproduction, including offset or silk screen printing;

(2) Xerographic or photographic copies on good quality paper;

(3) Positive photostat or photodirect positive;

(4) Blue line copies (diaz or ozalid process).

With respect to the accompanying photographs, the Copyright Office prefers 8 × 10 inches, good quality photographs, which clearly show several exterior and interior views. The Copyright Office prefers that the deposit disclose the name(s) of the architect(s) and draftsman(s) and the building site.

(xix) *Works fixed in a CD-ROM format.* (A) Where a work is fixed in a CD-ROM

format, the deposit must consist of one complete copy of the entire CD-ROM package, including a complete copy of any accompanying operating software and instructional manual, and a printed version of the work embodied in the CD-ROM, if the work is fixed in print as well as a CD-ROM. A complete copy of a published CD-ROM package includes all of the elements comprising the applicable unit of publication, including elements that if considered separately would not be copyrightable subject matter or could be the subject of a separate registration.

(B) In any case where the work fixed in a CD-ROM package cannot be viewed on equipment available in the Registration Program of the Copyright Office, the Office will seek an appropriate deposit in accordance with paragraph (d) of this section, in addition to the deposit of the CD-ROM package.

(xx) *Photographs: group registration.* For groups of photographs registered with one application under §§ 202.3(b)(4)(i)(B) (unpublished collections) or 202.3(b)(10) (group registration of published photographs) and for automated databases that consist predominantly of photographs under § 202.3(b)(5)(ii)(A), photographs must be deposited in one of the following formats (listed in the Library's order of preference):

(A) Digital form on one or more CD-ROMs (including CD-RW's) or DVD-ROMs, in one of the following formats: JPEG, GIF, TIFF, or PCD;

(B) Unmounted prints measuring at least 3 inches by 3 inches (not to exceed 20 inches by 24 inches);

(C) Contact sheets;

(D) Slides, each with a single image;

(E) A format in which the photograph has been published (e.g., clippings from newspapers or magazines);

(F) A photocopy of each of the photographs included in the group or database, clearly depicting the photograph, provided that if registration is made pursuant to § 202.3(b)(10) for group registration of photographs, the photocopy must be either a photocopy of an unmounted print measuring at least 3 inches by 3 inches (not to exceed 20 inches by 24 inches) or a photocopy of the photograph in a format in which it has been published, and if the photo-

graph was published as a color photograph, the photocopy must be a color photocopy;

(G) Slides, each containing up to 36 images; or

(H) A videotape clearly depicting each photograph.

(d) *Special relief.* (1) In any case the Register of Copyrights may, after consultation with other appropriate officials of the Library of Congress and upon such conditions as the Register may determine after such consultation:

(i) Permit the deposit of one copy or phonorecord, or alternative identifying material, in lieu of the one or two copies or phonorecords otherwise required by paragraph (c)(1) of this section;

(ii) Permit the deposit of incomplete copies or phonorecords, or copies or phonorecords other than those normally comprising the best edition; or

(iii) Permit the deposit of an actual copy or copies, in lieu of the identifying material otherwise required by this section; or

(iv) Permit the deposit of identifying material which does not comply with § 202.21 of these regulations.

(2) Any decision as to whether to grant such special relief, and the conditions under which special relief is to be granted, shall be made by the Register of Copyrights after consultation with other appropriate officials of the Library of Congress, and shall be based upon the acquisition policies of the Library of Congress then in force and the archival and examining requirements of the Copyright Office.

(3) Requests for special relief under this paragraph may be combined with requests for special relief under § 202.19(e) of these regulations. Whether so combined or made solely under this paragraph, such requests shall be made in writing to the Associate Register for Registration Program of the Copyright Office, shall be signed by or on behalf of the person signing the application for registration, and shall set forth specific reasons why the request should be granted.

(4) The Register of Copyrights may, after consultation with other appropriate officials of the Library of Congress, terminate any ongoing or continuous grant of special relief. Notice of termination shall be given in writing

and shall be sent to the individual person or organization to whom the grant of special relief had been given, at the last address shown in the records of the Copyright Office. A notice of termination may be given at any time, but it shall state a specific date of termination that is at least 30 days later than the date the notice is mailed. Termination shall not affect the validity of any deposit or registration made earlier under the grant of special relief.

(e) *Use of copies and phonorecords deposited for the Library of Congress.* Copies and phonorecords deposited for the Library of Congress under section 407 of title 17 and §202.19 of these regulations may be used to satisfy the deposit provisions of this section if they are accompanied by an application for registration of claim to copyright in the work represented by the deposit, and either a registration fee or a deposit account number on the application.

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting §202.20, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and at [www.fdsys.gov](http://www.fdsys.gov).

**§ 202.21 Deposit of identifying material instead of copies.**

(a) *General.* Subject to the specific provisions of paragraphs (f) and (g) of this section, and to §§202.19(e)(1)(iv) and 202.20(d)(1)(iv), in any case where the deposit of identifying material is permitted or required under §202.19 or §202.20 of these regulations for published or unpublished works, the material shall consist of photographic prints, transparencies, photostats, drawings, or similar two-dimensional reproductions or renderings of the work, in a form visually perceivable without the aid of a machine or device. In the case of pictorial or graphic works, such material should reproduce the actual colors employed in the work. In all other cases, such material may be in black and white or may consist of a reproduction of the actual colors.

(b) *Completeness; number of sets.* As many pieces of identifying material as are necessary to show the entire copyrightable content in the ordinary case, but in no case less than an adequate

representation of such content, of the work for which deposit is being made, or for which registration is being sought shall be submitted. Except in cases falling under the provisions of §202.19(d)(2)(iii) or §202.20(c)(2)(iii) with respect to holograms, only one set of such complete identifying material is required.

(c) *Size.* Photographic transparencies must be at least 35mm in size and, if such transparencies are 3 × 3 inches or less, must be fixed in cardboard, plastic, or similar mounts to facilitate identification, handling, and storage. The Copyright Office prefers that transparencies larger than 3 × 3 inches be mounted in a way that facilitates their handling and preservation, and reserves the right to require such mounting in particular cases. All types of identifying material other than photographic transparencies must be not less than 3 × 3 inches and not more than 9 × 12 inches, but preferably 8 × 10 inches. Except in the case of transparencies, the image of the work must be either lifesize or larger, or if less than lifesize must be large enough to show clearly the entire copyrightable content of the work.

(d) *Title and dimensions.* At least one piece of identifying material must, on its front, back, or mount, indicate the title of the work; and the indication of an exact measurement of one or more dimensions of the work is preferred.

(e) *Copyright notice.* In the case of works published with notice of copyright, the notice and its position on the work must be clearly shown on at least one piece of identifying material. Where necessary because of the size or position of the notice, a separate drawing or similar reproduction shall be submitted. Such reproduction shall be no smaller than 3 × 3 inches and no larger than 9 × 12 inches, and shall show the exact appearance and content of the notice, and its specific position on the work.

(f) For separate registration of an unpublished work that is fixed, or a published work that is published, only as embodied in a soundtrack that is an integral part of a motion picture, identifying material deposited in lieu of an actual copy of the motion picture shall consist of:
