Simultaneously with the certification provided pursuant to the introductory text of this section, a claimant for financial assistance in the purchase of an automobile will be furnished a certificate of eligibility for financial assistance in the purchase of such adaptive equipment as may be appropriate to the claimant's losses unless the need for such equipment is contraindicated by a physical or legal inability to operate the vehicle. (1) With regard to automobiles and similar vehicles the term includes a basic automatic transmission as to a claimant who has lost or lost the use of a limb. In addition, the term includes, but is not limited to, power steering, power brakes, power window lifts and power seats. The term also includes air-conditioning equipment when such equipment is necessary to the health and safety of the veteran and to the safety of others, and special equipment necessary to assist the eligible person into or out of the automobile or other conveyance, regardless of whether the automobile or other conveyance is to be operated by the eligible person or is to be operated for such person by another person; and any modification of the interior space of the automobile or other conveyance if needed because of the physical condition of such person in order for such person to enter or operate the vehicle.

(2) With regard to automobiles and similar vehicles the term includes such items of equipment as the Chief Medical Director may, by directive, specify as ordinarily necessary for any of the classes of losses specified in paragraph (b) of this section and for any combination of such losses. Such specifications of equipment may include a limit on the financial assistance to be provided based on judgment and experience.
