§ 170.235 Posted pesticide safety information.

(a) Requirement. When handlers (except those employed by a commercial pesticide handling establishment) are on an agricultural establishment and, within the last 30 days, a pesticide covered by this subpart has been applied on the establishment or a restricted-entry interval has been in effect, the handler employer shall display, in accordance with this section, pesticide safety information.

(b) Pesticide safety poster. A safety poster must be displayed that conveys, at a minimum, the following basic pesticide safety concepts:
   (1) Help keep pesticides from entering your body. At a minimum, the following points shall be conveyed:
      (i) Avoid getting on your skin or into your body any pesticides that may be on plants and soil, in irrigation water, or drifting from nearby applications.
      (ii) Wash before eating, drinking, using chewing gum or tobacco, or using the toilet.
      (iii) Wear work clothing that protects the body from pesticide residues (long-sleeved shirts, long pants, shoes and socks, and a hat or scarf).
      (iv) Wash/shower with soap and water, shampoo hair, and put on clean clothes after work.
      (v) Wash work clothes separately from other clothes before wearing them again.
      (vi) Wash immediately in the nearest clean water if pesticides are spilled or sprayed on the body. As soon as possible, shower, shampoo, and change into clean clothes.
      (vii) Follow directions about keeping out of treated or restricted areas.
   (2) There are Federal rules to protect workers and handlers including a requirement for safety training.

(c) Emergency medical care information.
   (1) The name, address, and telephone number of the nearest emergency medical care facility shall be on the safety poster or displayed close to the safety poster.
   (2) The handler employer shall inform handlers promptly of any change to the information on emergency medical care facilities.

(d) Location. The information shall be displayed in a central location on the farm or in the nursery or greenhouse where it can be readily seen and read by handlers.

(e) Accessibility. Handlers must be informed of the location of the information and shall be allowed access to it.

§ 170.240 Personal protective equipment.

(a) Requirement. Any person who performs tasks as a pesticide handler shall use the clothing and personal protective equipment specified on the labeling for use of the product.

(b) Definition. (1) Personal protective equipment (PPE) means devices and apparel that are worn to protect the body from contact with pesticides or pesticide residues, including, but not limited to, coveralls, chemical-resistant suits, chemical-resistant gloves, chemical-resistant aprons, chemical-resistant headgear, and protective eyewear.

(c) Provision. When personal protective equipment is specified by the labeling of any pesticide for any handling activity, the handler employer shall provide the appropriate personal protective equipment in clean and operating condition to the handler.

(d) Location. (1) The information shall be displayed in a central location on the farm or in the nursery or greenhouse where it can be readily seen and read by handlers.

(e) Accessibility. The information shall remain legible during the time it is posted.
