Selenium Compounds: Includes any unique chemical substance that contains selenium as part of that chemical’s infrastructure.

Silver Compounds: Includes any unique chemical substance that contains silver as part of that chemical’s infrastructure.

Strychnine and salts

Thallium Compounds: Includes any unique chemical substance that contains thallium as part of that chemical’s infrastructure.

Vanadium compounds

Zinc Compounds: Includes any unique chemical substance that contains zinc as part of that chemical’s infrastructure.

[S 3 FR 4525, Feb. 16, 1988; 53 FR 12748, Apr. 18, 1988]

Editorial Note: For Federal Register citations affecting §372.65, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and at www.fdsys.gov.

Effective Date Note: At 59 FR 43050, Aug. 22, 1994, in §372.65, in paragraph (a), the methyl mercaptan entry and in paragraph (b), the entry for CAS No. 74-98-1 were stayed indefinitely.

**Subpart E—Forms and Instructions**

§ 372.85 Toxic chemical release reporting form and instructions.

(a) Availability of reporting form and instructions. The most current version of Form R and Form R Schedule 1 may be found on the following EPA Program Web site, http://www.epa.gov/tri. Any subsequent changes to the Form R or Form R Schedule 1 will be posted on this Web site. Submitters may also contact the TRI Program at (202) 564-9554 to obtain this information.

(b) Form elements. Information elements reportable on EPA Form R and Form R Schedule 1, or equivalent magnetic media format include the following:
§ 372.85

(1) An indication of whether the report:
   (i) Claims chemical identity as trade secret.
   (ii) Covers the entire facility or part of a facility.
(2) Signature of a senior management official certifying the following: “I hereby certify that I have reviewed the attached documents and, to the best of my knowledge and belief, the submitted information is true and complete and that amounts and values in this report are accurate based upon reasonable estimates using data available to the preparer of the report.”
(3) Facility name and address including the toxic chemical release inventory facility identification number if known.
(4) Name and telephone number for both a technical contact and a public contact.
(5) The four-digit SIC code(s) for the facility or establishments in the facility until the reporting year ending December 31, 2005, for which reporting forms are due July 1, 2006. Beginning with the reporting year ending December 31, 2006, for which reporting forms are due July 1, 2007, and for each subsequent reporting year, the six-digit NAICS code(s) for the facility or establishments in the facility.
(6) Dun and Bradstreet identification number.
(7) The name(s) of receiving stream(s) or water body to which the chemical is released.
(8) Name of the facility’s parent company and its Dun and Bradstreet identification number.
(90) Name and CAS number (if applicable) of the chemical reported.
(10) If the chemical identity is claimed trade secret, a generic name for the chemical.
(11) A mixture component identity if the chemical identity is not known.
(12) An indication of the activities and uses of the chemical at the facility.
(13) An indication of the maximum amount of the chemical on site at any point in time during the reporting year.
(14) Information on releases of the chemical to the environment as follows:
   (i) An estimate of total releases in pounds (except for dioxin and dioxin-like compounds, which shall be reported in grams) per year (releases of less than 1,000 pounds per year may be indicated in ranges, except for chemicals set forth in §372.28) from the facility plus an indication of the basis of estimate for the following:
      (A) Fugitive or non-point air emissions.
      (B) Stack or point air emissions.
      (C) Discharges to receiving streams or water bodies including an indication of the percent of releases due to stormwater.
      (D) Underground injection on site.
      (E) Releases to land on site.
   (ii) Additional Reporting for the dioxin and dioxin-like compounds category.
      (A) For reports pertaining to a reporting year ending on or before December 31, 2007, report a distribution of the chemicals included in the dioxin and dioxin-like compounds category. Such distribution shall either represent the distribution of the total quantity of dioxin and dioxin-like compounds released to all media from the facility; or its one best media-specific distribution.
      (B) For reports pertaining to a reporting year ending after December 31, 2007, report the quantity of each member of the dioxin and dioxin-like compounds category in units of grams per year on Form R Schedule I.
(15) Information on transfers of the chemical in wastes to off-site locations as follows:
   (i) For transfers to Publicly Owned Treatment Works (POTW):
      (A) The name and address (including county) of each POTW to which the chemical is transferred.
      (B) An estimate of the amount of the chemical transferred in pounds (except for dioxin and dioxin-like compounds, which shall be reported in grams) per year (transfers of less than 1,000 pounds per year may be indicated as a range, except for chemicals set forth in §372.28) and an indication of the basis of the estimate. In addition, for reports pertaining to a reporting year ending after December 31, 2007, report the quantity of each member of the dioxin and dioxin-like compounds category in
units of grams per year on Form R Schedule 1.

(ii) For transfers to other off-site locations:

(A) The name, address (including county), and EPA identification number (RCRA I.D. Number) of each off-site location, including an indication of whether the location is owned or controlled by the reporting facility or its parent company.

(B) An estimate of the amount of the chemical transferred in pounds (except for dioxin and dioxin-like compounds, which shall be reported in grams) per year (transfers of less than 1,000 pounds per year may be indicated as a range, except for chemicals set forth in §372.26) and an indication of the basis of the estimate. In addition, for reports pertaining to a reporting year ending after December 31, 2007, report the quantity of each member of the dioxin and dioxin-like compounds category in units of grams per year on Form R Schedule 1.

(16) The following information relative to waste treatment:

(i) An indication of the general type of wastestream containing the reported chemical.

(ii) The treatment method applied to the wastestream.

(iii) An estimate of the efficiency of the treatment, which shall be indicated by a range.

(iv) An indication (use is optional) of whether treatments listed are part of a treatment sequence.

§ 372.95 Alternate threshold certification and instructions.

(a) Availability of the alternate threshold certification statement and instructions. Availability of the alternate threshold certification statement and instructions is the same as provided in §372.85(a) for availability of the reporting form and instructions.

(b) Alternate threshold certification statement elements. The following information must be reported on an alternate threshold certification statement pursuant to §372.27(b):

(1) Reporting year.

(2) An indication of whether the chemical identified is being claimed as trade secret.

(3) Chemical name and CAS number (if applicable) of the chemical, or the category name.

(4) Signature of a senior management official certifying the following: pursuant to 40 CFR §372.27, “I hereby certify that to the best of my knowledge and belief for the toxic chemical listed in this statement, the annual reportable amount, as defined in 40 CFR §372.27(a), did not exceed 500 pounds for this reporting year and that the chemical was manufactured, or processed, or otherwise used in an amount not exceeding 1 million pounds during this reporting year.”

(5) Date signed.

(6) Facility name and address.

(7) Mailing address of the facility if different than paragraph (b)(6) of this section.

(8) Toxic chemical release inventory facility identification number if known.

(9) Name and telephone number of a technical contact.

(10) The four-digit SIC code(s) for the facility or establishments in the facility until the reporting year ending December 31, 2005, for which reporting forms are due July 1, 2006. Beginning with the reporting year ending December 31, 2006, for which reporting forms are due July 1, 2007, and for each subsequent reporting year, the six-digit NAICS code(s) for the facility or establishments in the facility.

(11) Dun and Bradstreet Number of the facility.

(12) Name of the facility’s parent company.

(13) Parent company’s Dun and Bradstreet Number.
